114R3 HELLFIRE II missiles, containers, spare and repair parts, support and test equipment, repair and counter support, training equipment and personnel training, U.S. Government and contractor logistics, Quality Assurance Team support services, engineering and technical support, and other related elements of program support. The estimated cost is $49 million.

This proposed sale will contribute to the foreign policy and national security of the United States by helping to improve the security of a friendly country that has been, and continues to be an important force for political stability and economic progress in the Middle East.

Kuwait intends to use these defense articles and services to modernize its armed forces and expand its existing Army architecture to counter threats posed by potential attack. This proposed sale will also contribute to Kuwait’s military goal of updating its capability while further enhancing its interoperability with the U.S. and other allies. This capability will serve to deter potential attacks against strategic targets across Kuwait, to include infrastructure and resources vital to the security of the U.S.

The proposed sale of this weapon system will not alter the basic military balance in the region.

The prime contractor is Lockheed Martin Corporation in Orlando, Florida.

There are no known offset agreements proposed in connection with this sale.

Implementation of this proposed sale will not require the assignment of U.S. Government or contractor representatives to Kuwait.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

Transmittal No. 12–17
Notice of Proposed Issuance of Letter of Offer Pursuant to Section 36(b)(1) of the Arms Export Control Act
Annex
Item No. vii
(vii) Sensitivity of Technology:

1. The highest level for release of the AGM–114R3 HELLFIRE II is Secret, based upon the software. The highest level of classified information that could be disclosed by a proposed sale or by testing of the end item is Secret; the highest level that must be disclosed for production, maintenance, or training is Confidential. Reverse engineering could reveal Confidential information.

Vulnerability data, countermeasures, vulnerability/susceptibility analyses, and threat definitions are classified up to Secret.

2. Susceptibility of the AGM–114R3 HELLFIRE II to diversion or exploitation is considered low risk. Components of the system are also considered highly resistant to reverse engineering.

The Honorable John A. Boehner
Speaker of the House
U.S. House of Representatives
Washington, DC 20515

Dear Mr. Speaker:

Pursuant to the reporting requirements of Section 36(b)(1) of the Arms Export Control Act, as amended, we are forwarding herewith Transmittal No. 12-18, concerning the Department of the Navy’s proposed Letter(s) of Offer and Acceptance to Kuwait for defense articles and services estimated to cost $51 million. After this letter is delivered to your office, we plan to issue a press statement to notify the public of this proposed sale.

Sincerely,

Richard A. Genaile, Jr.
Deputy Director

Enclosures:
1. Transmittal
2. Policy Justification
3. Regional Balance (Classified Document Provided Under Separate Cover)

(i) Prospective Purchaser: Kuwait
(ii) Total Estimated Value:
   Major Defense Equipment * $17 million
   Other $34 million
   Total $51 million
(iii) Description and Quantity or Quantities of Articles or Services under Consideration for Purchase:
   43 Joint Helmet Mounted Cueing System Cockpit Units, Single Seat Electronic Units, Helmet Display Units, spare and repair parts, support equipment, tool and test equipment, personnel training and training equipment, publications and technical data, U.S. Government and contractor technical and logistics personnel services and other related elements of program and logistics support.

(viii) Date Report Delivered to Congress: 26 June 2012

* as defined in Section 47(6) of the Arms Export Control Act.
Policy Justification—Kuwait—Joint Helmet Mounted Cueing Systems (JHMCS)

The Government of Kuwait has requested a possible sale of 43 Joint Helmet Mounted Cueing System Cockpit Units, Single Seat Electronic Units, Helmet Display Units, spare and repair parts, support equipment, tool and test equipment, personnel training and training equipment, publications and technical data, U.S. Government and contractor technical and logistics personnel services and other related elements of program and logistics support. The estimated cost is $51 million.

This proposed sale will contribute to the foreign policy and national security of the United States by helping to improve the security of a friendly country which has been, and continues to be, an important force for political stability and economic progress in the Middle East.

The Government of Kuwait is modernizing its fighter aircraft fleet to better support its own air defense needs. This proposed sale will contribute to Kuwait’s military goal of updating its capability while further enhancing its interoperability with the U.S. and other allies.

The proposed sale of this equipment will not alter the basic military balance in the region.

The principal contractors will be Boeing Aerospace in St. Louis, Missouri. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will require travel of U.S. Government or contractor representatives to Kuwait on a temporary basis for program, technical support, and management oversight.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

For further information, please contact Mr. Justin Brinjhurst at justin.bринjhurst@us.army.mil or (703) 617–0263 or Carolyn German at carolyn.t.german@us.army.mil or (703) 617–0258.

SUPPLEMENTARY INFORMATION: None.

James T. Robb, (916) 557–7610.

SUPPLEMENTARY INFORMATION: This Draft Environmental Impact Statement (Draft EIS) analyzes the potential effects of authorizing, via Department of the Army (DA) permits, the discharge of dredged or fill material into Waters of the United States, for the development of the Sierra Vista Specific Plan (Proposed Action). The Proposed Action consists of nine developments and their associated infrastructure integrated under one specific plan. The Proposed Action includes the following uses: 820 acres (332 hectares) of residential uses totaling 6,650 single- and multi-family residential units at buildout, 216 acres (87 hectares) of commercial and office uses, 61 acres (25 hectares) of public/ quasi-public uses such as schools, 91 acres (37 hectares) of parks, 234 acres (95 hectares) of open space, and 177 acres (72 hectares) of roadways and paseos. Development under the Proposed Action, if authorized, would fill approximately 24.81 acres (10.04 hectares) of wetlands and other jurisdictional waters of the United States as defined by the CWA. This discharge of fill material requires approval from the U.S. Army Corps of Engineers (USACE) pursuant to Section 404 of the federal Clean Water Act, under which the USACE issues or denies DA permits for activities involving a discharge of dredged or fill materials into the waters of the United States, including wetlands. The USACE
