2–1 of the Commandant Instruction. A preliminary environmental analysis checklist supporting this determination and a Categorical Exclusion Determination are available in the docket where indicated under ADDRESSES. We seek any comments or information that may lead to the discovery of a significant environmental impact from this proposed rule.

List of Subjects in 33 CFR Part 165

Harbors, Marine safety, Navigation (water), Reporting and recordkeeping requirements, Security measures, Waterways.

For the reasons discussed in the preamble, the Coast Guard proposes to amend 33 CFR part 165 as follows:

PART 165—REGULATED NAVIGATION AREAS AND LIMITED ACCESS AREAS

1. The authority citation for part 165 continues to read as follows:

2. Add § 165.T08–0518 to read as follows:

§ 165.T08–0518 Safety Zone; Choctawhatchee Bay; Santa Rosa Beach, FL

(a) Location. The following area is a temporary safety zone: a portion of the Gulf Intracoastal Waterway in Choctawhatchee Bay from the Highway 331 fixed bridge west to the Red Nun Buoy “26” (LLNR 31510), to include the entire width of the channel.

(b) Effective dates. This regulation is effective from August 1, 2012 to September 30, 2012. The Coast Guard will issue broadcast notice to mariners and local notice to mariners of the exact dates of enforcement of the regulation.

(c) Regulations.

(1) In accordance with the general regulations in § 165.23 of this part, entry into this zone is prohibited unless authorized by the Captain of the Port Mobile or a designated representative.

(2) Persons or vessels not restricted to navigation in the Gulf Intracoastal Waterway by draft and that can safely do so, may pass around the zone while maintaining a safe distance and transiting at lowest safe navigational speed.

(d) Informational Broadcasts. The Captain of the Port or a designated representative will inform the public through broadcast notices to mariners of the enforcement period for the safety zone as well as any changes in the planned schedule.

Dated: June 8, 2012.

D. J. Rose,

Captain, U.S. Coast Guard, Captain of the Port Mobile.

Coast Guard

33 CFR Part 165

[Docket No. USCG–2012–0574]

RIN 1625–AA00

Safety Zone: ESI Ironman 70.3 Augusta Triathlon, Savannah River; Augusta, GA

AGENCY: Coast Guard, DHS.

ACTION: Notice of proposed rulemaking.

SUMMARY: The Coast Guard proposes to establish a temporary safety zone on the Savannah River in Augusta, Georgia during the ESI Ironman 70.3 Augusta Triathlon on Sunday, September 30, 2012. The temporary safety zone would be necessary for the safety of the race participants, participants vessels, spectators, and the general public during the 1.1 mile swim portion of the competition. Persons and vessels would be prohibited from entering, transiting through, anchoring in, or remaining within the temporary safety zone unless authorized by the Captain of the Port Savannah or a designated representative.

DATES: Comments and related material must be received by the Coast Guard on or before August 9, 2012. Requests for public meetings must be received by the Coast Guard on or before July 15, 2012.

ADDRESSES: You may submit comments identified by docket number USCG–2012–0574 using any one of the following methods:

(2) Fax: 202–493–2251.

(3) Mail or Delivery: Docket Management Facility (M–30), U.S. Department of Transportation, West Building Ground Floor, Room W12–140, 1200 New Jersey Avenue SE, Washington, DC 20590–0001. Deliveries accepted between 9 a.m. and 5 p.m., Monday through Friday, except federal holidays. The telephone number is 202–366–9329. See the “Public Participation and Request for Comments” portion of the SUPPLEMENTARY INFORMATION section below for further instructions on submitting comments.

To submit your comments online, go to http://www.regulations.gov, type the docket number (USCG–2012–0574) in the “SEARCH” box and click “SEARCH.” Click on “Submit a Comment” on the line associated with this rulemaking.

If you submit your comments by mail or hand delivery, submit them in an unbound format, no larger than 8½ by 11 inches, suitable for copying and
C. Discussion of Proposed Rule

On Sunday, September 30, 2012, the ESI Ironman 70.3 Augusta Triathlon is scheduled to take place in Augusta, Georgia. This event includes a 1.1 mile swim that will take place on the waters of the Savannah River. The swim starts at the 6th Street Railroad Bridge and finishes at Mile Post 198.

The temporary safety zone will encompass certain waters of the Savannah River in Augusta, Georgia. The temporary safety zone will be enforced from 7 a.m. until 11:59 a.m. on September 30, 2012. Persons and vessels are prohibited from entering, transiting through, anchoring in, or remaining within the safety zone unless authorized by the Captain of the Port Savannah or a designated representative. Persons and vessels desiring to enter, transit through, anchor in, or remain within the safety zone may contact the Captain of the Port Savannah by telephone at 912–652–4353, or a designated representative via VHF radio on channel 16, to request authorization. If authorization to enter, transit through, anchor in, or remain within the safety zone is granted by the Captain of the Port Savannah or a designated representative, all persons and vessels receiving such authorization must comply with the instructions of the Captain of the Port Savannah or a designated representative. The Coast Guard will provide notice of the safety zone by Local Notice to Mariners, Broadcast Notice to Mariners, and on-scene designated representatives.

D. Regulatory Analyses

We developed this proposed rule after considering numerous statutes and executive orders related to rulemaking. Below we summarize our analyses based on a number of these statutes or executive orders.

1. Regulatory Planning and Review

This proposed rule is not a significant regulatory action under section 3(f) of Executive Order 12866, Regulatory Planning and Review, as supplemented by Executive Order 13563, Improving Regulation and Regulatory Review, and does not require an assessment of potential costs and benefits under section 6(a)(3) of Executive Order 12866 or under section 1 of Executive Order 13563. The Office of Management and Budget has not reviewed it under those Orders.

The economic impact of this proposed rule is not significant for the following reasons: (1) The safety zone would be enforced for only 5 hours; (2) although persons and vessels would not be able to enter, transit through, anchor in, or remain within the safety zone without authorization from the Captain of the Port Savannah or a designated representative, they would be able to operate in the surrounding area during the enforcement period; (3) persons and vessels would still be able to enter, transit through, anchor in, or remain within the regulated areas if authorized by the Captain of the Port Savannah or a designated representative; and (4) the Coast Guard would provide advance notification of the safety zone to the local maritime community by Local Notice to Mariners and Broadcast Notice to Mariners.

2. Impact on Small Entities

Under the Regulatory Flexibility Act (5 U.S.C. 601–612), we have considered the impact of this proposed rule on small entities. The Coast Guard certifies under 5 U.S.C. 605(b) that this proposed rule will not have a significant economic impact on a substantial number of small entities.

This proposed rule may affect the following entities, some of which may be small entities: the owners or operators of vessels intending to enter, transit through, anchor in, or remain within that portion of the Savannah River encompassed within the temporary safety zone from 7 a.m. until 11:59 a.m. on September 30, 2012. For the reasons discussed in the Regulatory Planning and Review section above, this proposed rule would not have a significant economic impact on a substantial number of small entities.

If you think that your business, organization, or governmental jurisdiction qualifies as a small entity and that this rule would have a significant economic impact on it, please submit a comment (see ADDRESSES) explaining why you think it qualifies and how and to what degree this rule would economically affect it.

3. Assistance for Small Entities

Under section 213(a) of the Small Business Regulatory Enforcement Fairness Act of 1996 (Pub. L. 104–121), we want to assist small entities in understanding this proposed rule. If the rule would affect your small business, organization, or governmental jurisdiction and you have questions concerning its provisions or options for compliance, please contact the person listed in the FOR FURTHER INFORMATION CONTACT, above. The Coast Guard will not retaliate against small entities that question or complain about this proposed rule or any policy or action of the Coast Guard.
4. Collection of Information

This proposed rule will not call for a new collection of information under the Paperwork Reduction Act of 1995 (44 U.S.C. 3501–3520).

5. Federalism

A rule has implications for federalism under Executive Order 13132, Federalism, if it has a substantial direct effect on the States, on the relationship between the national government and the States, or on the distribution of power and responsibilities among the various levels of government. We have analyzed this proposed rule under that Order and determined that this rule does not have implications for federalism.

6. Protest Activities

The Coast Guard respects the First Amendment rights of protesters. Protesters are asked to contact the person listed in the FOR FURTHER INFORMATION CONTACT section to coordinate protest activities so that your message can be received without jeopardizing the safety or security of people, places or vessels.

7. Unfunded Mandates Reform Act

The Unfunded Mandates Reform Act of 1995 (2 U.S.C. 1531–1538) requires Federal agencies to assess the effects of their discretionary regulatory actions. In particular, the Act addresses actions that may result in the expenditure by a State, local, or tribal government, in the aggregate, or by the private sector of $100,000,000 (adjusted for inflation) or more in any one year. Though this proposed rule would not result in such an expenditure, we do discuss the effects of this rule elsewhere in this preamble.

8. Taking of Private Property

This proposed rule would not cause a taking of private property or otherwise have taking implications under Executive Order 12630, Governmental Actions and Interference with Constitutionally Protected Property Rights.

9. Civil Justice Reform

This proposed rule meets applicable standards in sections 3(a) and 3(b)(2) of Executive Order 12988, Civil Justice Reform, to minimize litigation, eliminate ambiguity, and reduce burden.

10. Protection of Children From Environmental Health Risks

We have analyzed this proposed rule under Executive Order 13045, Protection of Children from Environmental Health Risks. This rule is not an economically significant rule and would not create an environmental risk to health or risk to safety that might disproportionately affect children.

11. Indian Tribal Governments

This proposed rule does not have tribal implications under Executive Order 13175, Consultation and Coordination with Indian Tribal Governments, because it would not have a substantial direct effect on one or more Indian tribes, on the relationship between the Federal Government and Indian tribes, or on the distribution of power and responsibilities between the Federal Government and Indian tribes.

12. Energy Effects

This proposed rule is not a “significant energy action” under Executive Order 13211, Actions Concerning Regulations That Significantly Affect Energy Supply, Distribution, or Use because it is not a “significant regulatory action” under Executive Order 12866 and is not likely to have a significant adverse effect on the supply, distribution, or use of energy. The Administrator of the Office of Information and Regulatory Affairs has not designated it as a significant energy action. Therefore, it does not require a Statement of Energy Effects under Executive Order 13211.

13. Technical Standards

This proposed rule does not use technical standards. Therefore, we did not consider the use of voluntary consensus standards.

14. Environment

We have analyzed this proposed rule under Department of Homeland Security Management Directive 023–01 and Commandant Instruction M16475.1D, which guide the Coast Guard in complying with the National Environmental Policy Act of 1969 (NEPA) (42 U.S.C. 4321–4370f), and have made a preliminary determination that this action is one of a category of actions that do not individually or cumulatively have a significant effect on the human environment. This proposed rule involves the establishment of a temporary safety zone on the waters of the Savannah River that will be enforced for a total of five hours. This rule is categorically excluded from further review under paragraph 34(g) of Figure 2–1 of the Commandant Instruction. A preliminary environmental analysis checklist supporting this determination and a Categorical Exclusion Determination are available in the docket where indicated under ADDRESSES. We seek any comments or information that may lead to the discovery of a significant environmental impact from this proposed rule.

List of Subjects in 33 CFR Part 165

Harbors, Marine safety, Navigation (water), Reporting and recordkeeping requirements, Security measures, Waterways.

For the reasons discussed in the preamble, the Coast Guard proposes to amend 33 CFR part 165 as follows:

PART 165—REGULATED NAVIGATION AREAS AND LIMITED ACCESS AREAS

1. The authority citation for part 165 continues to read as follows:

2. Add a temporary § 165.T07–0574 to read as follows:

§ 165.T07–0574 Safety Zone; ESI Ironman 70.3 Augusta Triathlon, Savannah River, Augusta, GA.

(a) Regulated Area. The following regulated area is a safety zone. All waters of the Savannah River encompassed within an imaginary line connecting the following points: starting at Point 1 in position 33°28′44″ N, 81°57′53″ W; thence northeast to Point 2 in position 33°28′50″ N, 81°57′50″ W; thence southeast to Point 3 in position 33°27′1″ N, 81°55′36″ W; thence southwest to Point 4 in position 33°27′47″ N, 81°55′43″ W; thence northwest back to origin. All coordinates are North American Datum 1983.

(b) Definition. The term “designated representative” means Coast Guard Patrol Commanders, including Coast Guard coxswains, petty officers, and other officers operating Coast Guard vessels, and Federal, state, and local officers designated by or assisting the Captain of the Port Savannah in the enforcement of the regulated areas.

(c) Regulations. (1) All persons and vessels are prohibited from entering, transiting through, anchoring in, or remaining within the regulated areas unless authorized by the Captain of the Port Savannah or a designated representative.

(2) Persons and vessels desiring to enter, transit through, anchor in, or remain within the regulated areas may contact the Captain of the Port Savannah by telephone at 912–652–4353, or a designated representative via
VHF radio on channel 16, to request authorization. If authorization to enter, transit through, anchor in, or remain within the regulated areas is granted by the Captain of the Port Savannah or a designated representative, all persons and vessels receiving such authorization must comply with the instructions of the Captain of the Port Savannah or a designated representative.

(3) The Coast Guard will provide notice of the regulated areas by Local Notice to Mariners and Broadcast Notice to Mariners. Notice will also be provided by on-scene designated representatives.

(d) Effective Date. This rule is effective from 7 a.m. until 11:59 a.m. on September 30, 2012.

J.B. Loring,
Commander, U.S. Coast Guard, Captain of the Port Savannah.

DEPARTMENT OF THE INTERIOR
National Park Service

36 CFR Part 7
[NPS–CHATA–10187; 5340–SZM]

RIN 1024–AD94

Special Regulations; Areas of the National Park System, Chattahoochee River National Recreation Area, Bicycle Routes

AGENCY: National Park Service, Interior.

ACTION: Proposed rule.

SUMMARY: The National Park Service proposes to designate certain multi-use pathways in Chattahoochee River National Recreation Area as routes for bicycle use. National Park Service regulations require promulgation of a special regulation to designate routes for bicycle use off park roads and outside developed areas. Several segments of multi-use pathways at Chattahoochee River National Recreation Area have been, or are planned to be, constructed as part of an effort to replace eroded social trails with sustainable trail systems. Allowing bicycling on the new trail system will improve connectivity to regional trail networks, enhance opportunities for non-motorized enjoyment of the park, and encourage the use of alternate transportation by park visitors and staff.

DATES: Comments must be received by September 10, 2012.

ADDRESSES: You may submit your comments, identified by Regulation Identifier Number (RIN) 1024–AD94, by any of the following methods:

—Email: chat superintendent@nps.gov.

—Fax: (770) 399–8087.

Instructions: All submissions received must include the agency name and docket number or RIN for this rulemaking. All comments received will be posted without change to http://www.regulations.gov, including any personal information provided. For detailed instructions on submitting comments and additional information on the rulemaking process, see the “Public Participation” heading of the SUPPLEMENTARY INFORMATION section of this document.

Docket: For access to the docket to read background documents or comments received, go to http://www.regulations.gov.

SUPPLEMENTARY INFORMATION:

Background

In 1973, the State of Georgia enacted the Metropolitan River Protection Act (MRPA) to ensure the protection of the corridor located within 2,000 feet of each bank of the Chattahoochee River, or the corridor located within the 100-year floodplain, whichever is larger. Five years after the enactment of the MRPA, the United States Congress found that the:

Natural, scenic, recreation, historic, and other values of a forty-eight mile segment of the Chattahoochee River and certain adjoining lands in the State of Georgia from Buford Dam downstream to Peachtree Creek are of special national significance, and that such values should be preserved and protected from developments and uses which would substantially impair or destroy them. (16 U.S.C. 460ii)

On August 15, 1978, President Jimmy Carter signed legislation creating the Chattahoochee River National Recreation Area (CHAT), a unit of the National Park System consisting of “the river and its bed together with the lands, waters, and interests therein * * * *.” (16 U.S.C. 460ii). The National Park Service (NPS) is responsible for management of this significant stretch of Riverside Park. In 1984, Congress amended theCHAT’s enabling legislation through Public Law 98–568, which declared the corridor located within 2,000 feet of each bank along the 48-mile river segment “an area of national concern.” A subsequent amendment, passed in 1999, expanded the authorized boundary of CHAT and provided funding to support acquisition of land-based linear corridors to link existing units of the recreation area and to ensure that they are managed to standardize acquisition, planning, design, construction, and operation of the linear corridors. The NPS manages the 48-mile stretch of the Chattahoochee River from top-of-bank to top-of-bank, including all adjacent land elements that occur below the high water mark. The NPS also manages over 5,000 acres of park land, including riverside units and upland forested areas with hiking trails and other recreational opportunities.

In September 2009, the NPS completed a General Management Plan/Environmental Impact Statement (GMP/EIS). Consistent with 36 CFR 4.30, the GMP/EIS states that bicycles are prohibited except on roads, parking areas, and designated routes, noting that this regulation is especially important in light of comments received during the GMP/EIS process from some visitors who view the park corridor as an opportunity to promote non-motorized and less polluting alternatives to automobiles, such as bicycle use. Public comments during the GMP/EIS process also reflected the desire to increase the use of bicycles off-road in the park through development of an interconnected trail system. The final GMP/EIS describes off-road bicycling on trails as an appropriate use in the developed, natural area recreation, and rustic zones.

Proposed Rule

The proposed rule adds a special regulation for CHAT, designating segments of trails outside of developed areas as routes for bicycle use, as required by the general regulation for bicycle use in the National Park System at 36 CFR 4.30. The proposed rule would designate segments of trails in the Vickery Creek, Johnson Ferry South, and Cochran Shoals units as multi-use trails, allowing both pedestrian and bicycle use.

Vickery Creek Unit

In 2001, the City of Roswell planned and constructed a multi-use paved trail along the Chattahoochee River, a portion of which crosses the Vickery Creek unit of CHAT. Pursuant to the National Environmental Policy Act of 1969 (NEPA), the park completed a
