

respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations in title 40 of the CFR, after appearing in the **Federal Register**, are listed in 40 CFR part 9 and included on the related collection instrument or form, if applicable.

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average about 9.7 hours per response. Burden is defined in 5 CFR 1320.3(b).

Respondents/Affected Entities: Entities potentially affected by this action are companies that manufacture, process, import, or distribute in commerce chemical substances or mixtures.

Frequency of Collection: On occasion.
Estimated average number of responses for each respondent: 1.2.

Estimated No. of Respondents: 119.

Estimated Total Annual Burden on Respondents: 1,364 hours.

Estimated Total Annual Costs: \$88,588.

Changes in Burden Estimates: This request reflects an increase of 908 hours (from 456 hours to 1,364 hours) in the total estimated respondent burden from that currently in the OMB inventory. This increase reflects EPA's revised estimate for the rate of chemical additions (from 20 to 70 chemicals per year) and to the episodic nature of rulemakings that add chemicals to the TSCA section 8(d) list. The Supporting Statement provides details about the change in burden estimate. The change is an adjustment.

SUPPLEMENTARY INFORMATION:

What information is EPA particularly interested in?

Pursuant to section 3506(c)(2)(A) of the PRA, EPA specifically solicits comments and information to enable it to: (i) Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility; (ii) Evaluate the accuracy of the Agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used; (iii) Enhance the quality, utility, and clarity of the information to be collected; and (iv) Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses. In particular, EPA is requesting comments from very small businesses (those that employ less than 25) on examples of specific additional efforts that EPA could make to reduce the paperwork burden for very small businesses affected by this collection.

What should I consider when I prepare my comments for EPA?

You may find the following suggestions helpful for preparing your comments. 1. Explain your views as clearly as possible and provide specific examples. 2. Describe any assumptions that you used. 3. Provide copies of any technical information and/or data you used that support your views. 4. If you estimate potential burden or costs, explain how you arrived at the estimate that you provide. 5. Offer alternative ways to improve the collection activity. 6. Make sure to submit your comments by the deadline identified under **DATES**. 7. To ensure proper receipt by EPA, be sure to identify the ICR title on the first page of your response. You may also provide the **Federal Register** citation.

What Information Collection Activity or ICR does this apply to?

Title: Regulations.gov Information Collection. **OMB Control Number:** 2025-0008.

Abstract: In response to the Presidential memorandum, the eRulemaking Program launched the *Regulations.gov* 'feedback exchange' Web site in May 2009. This interactive Web site showcases new technologies being considered for the *Regulations.gov* 'feedback exchange' and *Regulations.gov*, as well as other agency-specific initiatives and rulemaking activities. The 'feedback exchange' serves as a learning laboratory for open government, enabling the public to provide input on the *Regulations.gov* interface, build a community of practice on the Federal regulatory development process, and ensure that the eRulemaking Program can efficiently manage federal resources by testing new tools before they are launched. New technologies considered for the *Regulations.gov* 'feedback exchange' and *Regulations.gov* include: User Profiles; Comment Threads and Wikis; Ratings, Polls, and Tagging; an interactive Educational Tool; and Information Export and Sharing capabilities, such as application programming interfaces (or APIs). These technologies have been deployed iteratively, with some components deployed upon the site's original release in May 2009, and others deployed during updates throughout the last three years. Other components are still being considered and will be released during subsequent upgrades to the *Regulations.gov* 'feedback exchange' and *Regulations.gov*. User profiles enable the public to register on the site and pre-load submitter information for later use as well as save their own

personalized searches, RSS feeds, and email alerts without the use of persistent cookies. Comment Threads allow the public to enter into virtual conversations with one another about a topic. Wikis enable the public to collaboratively develop and modify narrative descriptions about a topic. Ratings and Polls allow the public to indicate a preference for a topic or issue via the selection of stars or thumbs up/thumbs down icons which graphically provide an at-a-glance indication of public sentiment and can simplify navigation. Tagging provides the public with the ability to tag or label information they or someone else has posted to the site to ease navigation and to promote the formation of common interest categories. The Educational Tool informs the public about the Federal rulemaking process through interactive text and images. The Data Export capability and APIs enable the public to download and review the contents of a rulemaking docket as well as mix and match such information with other information in new and innovative ways. The *Regulations.gov* "feedback exchange" relies on feedback from Government, Industry, Academia and Citizenry to improve *Regulations.gov* as time goes on.

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average 35 hours per year. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements which have subsequently changed; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

The ICR provides a detailed explanation of the Agency's estimate, which is only briefly summarized here:

Affected Entities: Anyone that chooses to visit *Regulations.gov*.

Estimated Total Number of Potential Respondents: 1,000.

Estimated Total Number of Potential Responses: 7,000.

Frequency of Response: Occasionally.

Estimated Total Annual Burden Hours: 35 hours.

Estimated Total Annual Capital and Operations and Maintenance Costs: \$30,000.

What is the next step in the process for this ICR?

EPA will consider the comments received and amend the ICR as appropriate. The final ICR package will then be submitted to OMB for review and approval pursuant to 5 CFR 1320.12. At that time, EPA will issue another **Federal Register** notice pursuant to 5 CFR 1320.5(a)(1)(iv) to announce the submission of the ICR to OMB and the opportunity to submit additional comments to OMB. If you have any questions about this ICR or the approval process, please contact the person listed under **FOR FURTHER INFORMATION CONTACT**.
