I. Funding Opportunity Description

Purpose of Program: The purpose of this program, authorized by the Individuals with Disabilities Education Act (IDEA), is to assist State educational agencies (SEAs) in reforming and improving their systems for personnel preparation and professional development in early intervention, educational, and transition services in

order to improve results for children with disabilities.

Priorities: This notice contains two absolute priorities and one competitive preference priority.

Absolute Priorities: Priority 1 is from the notice of final priorities and definitions for this program, published elsewhere in this issue of the **Federal Register**. In accordance with 34 CFR 75.105(b)(2)(iv), Priority 2 is from sections 651 through 655 of IDEA.

For FY 2012 and any subsequent year in which we make awards from the list of unfunded applicants from this competition, these priorities are absolute priorities. Under 34 CFR 75.105(c)(3), we consider only applications that meet both of these priorities.

These priorities are:

Priority 1—Effective and Efficient Delivery of Professional Development.

The Assistant Secretary for Special Education and Rehabilitative Services establishes a priority to assist SEAs in reforming and improving their systems for personnel (as that term is defined in section 651(b) of IDEA) preparation and professional development of individuals providing early intervention, educational, and transition services in order to improve results for children with disabilities.

In order to meet this priority an applicant must demonstrate in the SPDG State Plan it submits as part of its application under section 653(a)(2) of IDEA that its proposed project will—

(1) Use evidence-based (as defined in this notice) professional development practices that will increase implementation of evidence-based practices and result in improved outcomes for children with disabilities;

(2) Provide ongoing assistance to personnel receiving SPDG-supported professional development that supports the implementation of evidence-based practices with fidelity (as defined in this notice); and

(3) Use technology to more efficiently and effectively provide ongoing professional development to personnel, including to personnel in rural areas and to other populations, such as personnel in urban or high-need local educational agencies (LEAs) (as defined in this notice).

Absolute Priority 2—State Personnel Development Grants.

Statutory Requirements. To meet this priority, an applicant must meet the following statutory requirements:

1. State Personnel Development Plan.

An applicant must submit a State Personnel Development Plan that identifies and addresses the State and local needs for the personnel

preparation and professional development of personnel, as well as individuals who provide direct supplementary aids and services to children with disabilities, and that—

(a) Is designed to enable the State to meet the requirements of section 612(a)(14) and section 635(a)(8) and (9) of IDEA;

(b) Is based on an assessment of State and local needs that identifies critical aspects and areas in need of improvement related to the preparation, ongoing training, and professional development of personnel who serve infants, toddlers, preschoolers, and children with disabilities within the State, including—

(1) Current and anticipated personnel vacancies and shortages; and

(2) The number of preservice and inservice programs;

(c) Is integrated and aligned, to the maximum extent possible, with State plans and activities under the Elementary and Secondary Education Act of 1965, as amended (ESEA); the Rehabilitation Act of 1973, as amended; and the Higher Education Act of 1965, as amended (HEA);

(d) Describes a partnership agreement that is in effect for the period of the grant, which agreement must specify—

(1) The nature and extent of the partnership described in accordance with section 652(b) of IDEA and the respective roles of each member of the partnership, including, if applicable, an individual, entity, or agency other than the SEA that has the responsibility under State law for teacher preparation and certification; and

(2) How the SEA will work with other persons and organizations involved in, and concerned with, the education of children with disabilities, including the respective roles of each of the persons and organizations;

(e) Describes how the strategies and activities the SEA uses to address identified professional development and personnel needs will be coordinated with activities supported with other public resources (including funds provided under Part B and Part C of IDEA and retained for use at the State level for personnel and professional development purposes) and private resources;

(f) Describes how the SEA will align its personnel development plan with the plan and application submitted under sections 1111 and 2112, respectively, of the ESEA;

(g) Describes strategies the SEA will use to address the identified professional development and personnel needs and how such

strategies will be implemented, including—

(1) A description of the programs and activities that will provide personnel with the knowledge and skills to meet the needs of, and improve the performance and achievement of, infants, toddlers, preschoolers, and children with disabilities; and

(2) How such strategies will be integrated, to the maximum extent possible, with other activities supported by grants funded under section 662 of IDEA;

(h) Provides an assurance that the SEA will provide technical assistance to LEAs to improve the quality of professional development available to meet the needs of personnel who serve children with disabilities;

(i) Provides an assurance that the SEA will provide technical assistance to entities that provide services to infants and toddlers with disabilities to improve the quality of professional development available to meet the needs of personnel serving those children;

(j) Describes how the SEA will recruit and retain highly qualified teachers and other qualified personnel in geographic areas of greatest need;

(k) Describes the steps the SEA will take to ensure that poor and minority children are not taught at higher rates by teachers who are not highly qualified; and

(l) Describes how the SEA will assess, on a regular basis, the extent to which the strategies implemented have been effective in meeting the performance goals described in section 612(a)(15) of IDEA.

Competitive Preference Priority: This priority is from the notice of final priorities and definitions for this program, published elsewhere in this issue of the **Federal Register**. For FY 2012 and any subsequent year in which we make awards from the list of unfunded applicants from this competition, this priority is a competitive preference priority. Under 34 CFR 75.105(c)(2)(i) we award an additional three points to an application that meets this priority. We will award

points on an “all or nothing” basis (i.e., three points or zero points) to an applicant that addresses the competitive preference priority in its application based on whether the applicant meets the priority. These points are in addition to any points the application earns under the selection criteria. To be considered for the competitive preference, an applicant must state in its application that it is seeking to meet this competitive preference priority.

This priority is:

Competitive Preference Priority—Targeting Teachers’ Professional Development Needs Based on Student Growth.

The Assistant Secretary establishes a priority for projects that are designed to provide professional development targeted to meet specific needs of teachers identified by teacher evaluation systems that take into account student growth (as defined in this notice) as a significant factor in determining performance levels.

To meet this priority, an applicant must include, as part of its application, a plan describing how it will use the results of teacher evaluation systems to identify the professional development needs of teachers of students with disabilities to ensure that such teachers develop the knowledge and skills required to deliver evidence-based instruction to students with disabilities. The teacher evaluation systems used to make these determinations must be based on student growth in significant part, and must include students with disabilities.

The plan must describe the applicant’s timeline for using the results of evaluation systems to identify the professional development needs of teachers of students with disabilities. Under this timeline, the applicant must begin using the evaluation system results to identify the professional development needs of teachers of students with disabilities no later than the beginning of the third year of the grant’s project period.

- After you electronically submit your application, you will receive from Grants.gov an automatic notification of receipt that contains a Grants.gov tracking number. (This notification indicates receipt by Grants.gov only, not receipt by the Department.) The Department then will retrieve your application from Grants.gov and send a second notification to you by email. V. Application Review Information

1. *Selection Criteria:* The selection criteria for this program are from 34 CFR 75.210 and are listed in the application package.

2. *Review and Selection Process:* We remind potential applicants that in reviewing applications in any discretionary grant competition, the Secretary may consider, under 34 CFR 75.217(d)(3), the past performance of the applicant in carrying out a previous award, such as the applicant's use of funds, achievement of project objectives, and compliance with grant conditions. The Secretary may also consider whether the applicant failed to submit a timely performance report or submitted a report of unacceptable quality.

In addition, in making a competitive grant award, the Secretary also requires various assurances including those applicable to Federal civil rights laws that prohibit discrimination in programs or activities receiving Federal financial assistance from the Department of Education (34 CFR 100.4, 104.5, 106.4, 108.8, and 110.23).

3. *Additional Review and Selection Process Factors:*

In the past, the Department has had difficulty finding peer reviewers for certain competitions because so many individuals who are eligible to serve as peer reviewers have conflicts of interest. The Standing Panel requirements under section 682(b) of IDEA also have placed additional constraints on the availability of reviewers. Therefore, the Department has determined that, for some discretionary grant competitions, applications may be separated into two or more groups and ranked and selected

for funding within specific groups. This procedure will make it easier for the Department to find peer reviewers, by ensuring that greater numbers of individuals who are eligible to serve as reviewers for any particular group of applicants will not have conflicts of interest. It also will increase the quality, independence, and fairness of the review process, while permitting panel members to review applications under discretionary grant competitions for which they also have submitted applications. However, if the Department decides to select an equal number of applications in each group for funding, this may result in different cut-off points for fundable applications in each group.

4. *Special Conditions:* Under 34 CFR 74.14 and 80.12, the Secretary may impose special conditions on a grant if the applicant or grantee is not financially stable; has a history of unsatisfactory performance; has a financial or other management system that does not meet the standards in 34 CFR part 74 or 80, as applicable; has not fulfilled the conditions of a prior grant; or is otherwise not responsible.

VI. Award Administration Information

1. *Award Notices:* If your application is successful, we notify your U.S. Representative and U.S. Senators and send you a Grant Award Notification (GAN). We may notify you informally, also.

If your application is not evaluated or not selected for funding, we notify you.

2. *Administrative and National Policy Requirements:* We identify administrative and national policy requirements in the application package and reference these and other requirements in the *Applicable Regulations* section of this notice.

We reference the regulations outlining the terms and conditions of an award in the *Applicable Regulations* section of this notice and include these and other specific conditions in the GAN. The GAN also incorporates your approved application as part of your binding commitments under the grant.

3. *Reporting:* (a) If you apply for a grant under this competition, you must ensure that you have in place the necessary processes and systems to comply with the reporting requirements in 2 CFR part 170 should you receive funding under the competition. This does not apply if you have an exception under 2 CFR 170.110(b).

(b) At the end of your project period, you must submit a final performance report, including financial information, as directed by the Secretary. If you receive a multi-year award, you must

submit an annual performance report that provides the most current performance and financial expenditure information as directed by the Secretary under 34 CFR 75.118. The Secretary may also require more frequent performance reports under 34 CFR 75.720(c). For specific requirements on reporting, please go to www.ed.gov/fund/grant/apply/appforms/appforms.html.

4. *Performance Measures:* The goal of the SPDG Program is to reform and improve State systems for personnel preparation and professional development in early intervention, educational, and transition services in order to improve results for children with disabilities. The Department has revised the performance measures developed for this program pursuant to the Government Performance and Results Act of 1993 to better assess the success of the program in meeting these goals. The revised measures assess the extent to which:

- Projects use evidence-based professional development practices to support the attainment of identified competencies.
- Participants in SPDG professional development demonstrate improvement in implementation of SPDG-supported practices over time.
- Projects use SPDG professional development funds to provide follow-up activities designed to sustain the use of SPDG-supported practices.
- Highly qualified special education teachers who have participated in SPDG supported special education teacher retention activities remain as special education teachers two years after their initial participation in these activities.

Each grantee funded under this competition must collect and annually report data related to its performance on these measures in the project's annual and final performance report to the Department in accordance with section 653(d) of IDEA and 34 CFR 75.590. Applicants should discuss in the application narrative how they propose to collect performance data for these measures.

5. *Continuation Awards:* In making a continuation award, the Secretary may consider, under 34 CFR 75.253, the extent to which a grantee has made "substantial progress toward meeting the objectives in its approved application." This consideration includes the review of a grantee's progress in meeting the targets and projected outcomes in its approved application, and whether the grantee has expended funds in a manner that is consistent with its approved application and budget. In making a continuation

grant, the Secretary also considers whether the grantee is operating in compliance with the assurances in its approved application, including those applicable to Federal civil rights laws that prohibit discrimination in programs or activities receiving Federal financial assistance from the Department (34 CFR 100.4, 104.5, 106.4, 108.8, and 110.23).

Full Text of Announcement

I. Funding Opportunity Description

Purpose of Program: The purposes of this program are to (1) help address State-identified needs for highly qualified personnel in special education, related services, early intervention, and regular education to work with infants, toddlers, and children with disabilities; and (2) ensure that those personnel have the necessary skills and knowledge, derived from practices that have been determined through scientifically based research and experience, to be successful in serving those children.

Priority: In accordance with 34 CFR 75.105(b)(2)(iv), this priority is from allowable activities specified in the statute (see sections 662 and 681 of the Individuals With Disabilities Education Act (IDEA)).

Absolute Priority: For FY 2012 and any subsequent year in which we make awards from the list of unfunded applicants from this competition, this priority is an absolute priority. Under 34 CFR 75.105(c)(3), we consider only applications that meet this priority.

This priority is: *Center To Support the Development of Effective Educators To Serve Students With Disabilities.*

Background: The purpose of this priority is to fund a cooperative agreement to support the establishment and operation of a Center to Support the Development of Effective Educators To Serve Students with Disabilities (Center). The Center will provide

technical assistance (TA) to: (a) State educational agencies (SEAs) in reviewing and reforming certification or licensure standards, in collaboration with institutions of higher education (IHEs), local educational agencies (LEAs), and non-profit organizations with teacher and leader preparation programs (non-profit organizations), in order to ensure that these standards are derived from practices determined through evidence-based research and that they reflect the knowledge and skills necessary for teachers and leaders to be effective in serving students with disabilities in inclusive¹ classrooms and school settings; (b) IHEs, LEAs, and non-profit organizations to help them, in collaboration with SEAs, to restructure and improve teacher and leader preparation programs² in order to align program requirements with the reformed certification or licensure standards and ensure that program graduates have the knowledge and skills necessary to address the diverse needs of students with disabilities; and (c) SEAs and IHEs, LEAs, and non-profit organizations that are ready to evaluate and improve special education teacher preparation programs by using data on outcomes for students with disabilities in kindergarten through grade 12 (K-12) that are linked to data on special education teachers. Sources of the linked data would include, for example, statewide longitudinal data systems, other sources of objective third-party data, or district teacher evaluation systems. In 2010, America's schools educated just over 5.8 million students with disabilities, ages 6-21. Nearly 95 percent of these students spent part or all of their school day in general education classrooms; and 61 percent spent at least 80 percent of their school day in general education classrooms (www.IDEAdata.org). As students with disabilities spend an increasing amount of time in general education classrooms, all teachers and leaders must have the knowledge and skills necessary to address their diverse needs.

Meeting the diverse needs of students with disabilities in inclusive classrooms and school settings requires a complex combination of knowledge and skills, including the use of evidence-based practices (Blanton, Pugach, & Florian,

¹ For the purposes of this priority, "inclusive" or "inclusion" refers to an "active commitment to equity for all students" so as to "maximize the participation of all learners, by making learning opportunities relevant and high-quality." (NIUSI Leadscape, 2011).

² These teacher and leader preparation programs include programs that prepare teachers, school principals, and assistant principals in general and special education from kindergarten through grade 12.
