(v) Summary of claimed subject matter. A concise explanation of the subject matter defined in each of the independent claims involved in the appeal, which shall refer to the specification by column and line number, and to the drawing(s), if any, by reference characters. For each independent claim involved in the appeal and for each dependent claim argued separately under the provisions of paragraph (c)(1)(vii) of this section, every means plus function and step plus function, as permitted under 35 U.S.C. 112(f), must be identified and the structure, material, or acts described in the specification as corresponding to each claimed function must be set forth with reference to the specification by page and line number, and to the drawing, if any, by reference characters.

(ii) Related Appeals, Interferences, and trials. A statement identifying by application, patent, appeal, interference, or trial number all other prior and pending appeals, interferences or judicial proceedings known to respondent, the respondent’s legal representative, or assignee which may be related to, directly affect or be directly affected by or have a bearing on the Board’s decision in the pending appeal. Copies of any decisions rendered by a court or the Board in any proceeding identified under this paragraph must be included in an appendix as required by paragraph (b)(1)(ix) of this section.

§ 41.77 Decisions and other actions by the Board.

(a) The Patent Trial and Appeal Board, in its decision, may affirm or reverse each decision of the examiner on all issues raised on each appealed claim, or remand the reexamination proceeding to the examiner for further consideration. The reversal of the examiner’s determination not to make a rejection proposed by the third party requester constitutes a decision adverse to the patentability of the claims which are subject to that proposed rejection which will be set forth in the decision of the Patent Trial and Appeal Board as a new ground of rejection under paragraph (b) of this section. The affirmation of the rejection of a claim on any of the grounds specified constitutes a general affirmation of the decision of the examiner on that claim, except as to any ground specifically reversed.

(2) For each involved claim that contains a means-plus-function or step-plus-function limitation in the form permitted under 35 U.S.C. 112(f), file an annotated copy of the claim indicating in bold face between braces {{ }} the specific portions of the specification that describe the structure, material, or acts corresponding to each claimed function.

(ii) Unpatentability for lack of written description under 35 U.S.C. 112(a) of an involved application claim where the applicant suggested, or could have suggested, an interference under § 41.202(a).

Television Broadcasting Services; Greenville, NC

AGENCY: Federal Communications Commission.

ACTION: Final rule.

SUMMARY: The Commission has before it a petition for rulemaking filed by ION Media Greenville License, Inc. (“ION”), the licensee of WEPX–TV, channel 51, Greenville, North Carolina, requesting the substitution of channel 26 for channel 51 at Greenville. While the Commission instituted a freeze on the acceptance of full power television rulemaking petitions requesting channel substitutions in May 2011, it subsequently announced that it would lift the freeze to accept such petitions for rulemaking seeking to relocate from channel 51 pursuant to a voluntary relocation agreement with Lower 700 MHz A Block licensees. In addition, according to ION, this channel substitution serves the public interest as it will increase the station’s service area by almost 100,000 persons.

DATES: This rule is effective August 6, 2012.
