SUPPLEMENTARY INFORMATION: Exports of electric power proposed to be exported to Mexico will be surplus energy purchased from electric utilities, Federal power marketing agencies, and other entities within the United States. The existing international transmission facilities to be utilized by RBC Energy are regulated by the Department of Energy (DOE) pursuant to sections 301(b) and 402(f) of the Department of Energy Organization Act (42 U.S.C. 7151(b), 7172(f)) and require authorization under section 202(e) of the FPA (16 U.S.C. 824a(e)). The current export authority in Order No. EA–328 will expire on September 26, 2012. On July 26, 2012, RBC Energy filed an application with DOE for renewal of that authority for an additional five-year term.
