**Federal Acquisition Regulation; Submission for OMB Review; Delivery Schedules**

**AGENCY:** Department of Defense (DOD), General Services Administration (GSA), and National Aeronautics and Space Administration (NASA).

**ACTION:** Notice of request for public comments regarding an extension to an existing OMB clearance.

**SUMMARY:** Under the provisions of the Paperwork Reduction Act, the Regulatory Secretariat will be submitting to the Office of Management and Budget (OMB) a request to review and approve an extension of a previously approved information collection requirement concerning delivery schedules. A notice was published in the Federal Register at 77 FR 10529, on February 22, 2012. One respondent submitted public comments. Public comments are particularly invited on: whether this collection of information is necessary for the proper performance of functions of the Federal Acquisition Regulation (FAR), and whether it will have practical utility; whether our estimate of the public burden of this collection of information is accurate, and based on valid assumptions and methodology; ways to enhance the quality, utility, and clarity of the information to be collected; and ways in which we can minimize the burden of the collection of information on those who are to respond, through the use of appropriate technological collection techniques or other forms of information technology.

**DATES:** Submit comments on or before October 1, 2012.

**ADDRESSES:** Submit comments identified by Information Collection 9000–0043, Delivery Schedules by any of the following methods:
- Regulations.gov: http://www.regulations.gov. Submit comments via the Federal eRulemaking portal by searching the OMB control number. Select the link “Submit a Comment” that corresponds with “Information Collection 9000–0043, Delivery Schedules”. Follow the instructions provided at the “Submit a Comment” screen. Please include your name, company name (if any), and “Information Collection 9000–0043, Delivery Schedules” on your attached document.

**Instructions:** Please submit comments only and cite Information Collection 9000–0043, Delivery Schedules, in all correspondence related to this collection. All comments received will be posted without change to http://www.regulations.gov, including any personal and/or business confidential information provided.

**SUPPLEMENTARY INFORMATION:**

**A. Purpose**

The time of delivery or performance is an essential contract element and must be clearly stated in solicitations and contracts. The contracting officer may set forth a required delivery schedule or may allow an offeror to propose an alternate delivery schedule, for other than those for construction and architect-engineering, by inserting in solicitations and contracts a clause, substantially the same as either FAR 52.211–8, Time of Delivery, or FAR 52.211–9, Desired and Required Time of Delivery. These clauses allow the contractor to fill-in their proposed delivery schedule. The information is needed to assure supplies or services are obtained in a timely manner.

**B. Discussion and Analysis**

One respondent submitted public comments on the extension of the previously approved information collection. The analysis of the public comments is summarized as follows:

**Comment:** The respondent commented that the extension of the information collection would violate the fundamental purposes of the Paperwork Reduction Act because of the burden it puts on the entity submitting the information and the agency collecting the information.

**Response:** In accordance with the Paperwork Reduction Act (PRA), agencies can request OMB approval of an existing information collection. The PRA requires that agencies use the Federal Register notice and comment process, to extend OMB’s approval, at least every three years. This extension, to a previously approved information collection, pertains to the delivery schedule clauses 52.211–8 and 52.211–9. The purpose of these clauses is to permit a contractor submitting a proposal to an agency to voluntarily submit an alternate delivery schedule. These clauses have existed substantially the same since the inception of the FAR. Further, these clauses are not required clauses but rather optional clauses that are used infrequently in contracts and collect a small amount of information. Therefore, these clauses impose a minimal reporting burden on the public. The delivery schedule clauses do not put an added cost on the Federal Government because this information is a fundamental requirement already being provided as a part of a solicitation by the contracting officer. Also, the information being collected pertaining to the delivery schedule is beneficial to the public because it allows a contractor to submit an alternate delivery schedule, including an earlier delivery schedule, that may make a proposal more competitive. Not granting this extension would consequently eliminate two fundamental FAR clauses that impose little burden on the public or the agency collecting the information in accordance with the PRA while providing a benefit to the public.

**Comment:** The respondent commented that the agency did not accurately estimate the public burden challenging that the agency’s methodology for calculating it is insufficient and inadequate and does...
not reflect the total burden. For this reason, the respondent provided that the agency should reassess the estimated total burden hours and revise the estimate upwards to be more accurate, as was done in FAR Case 2007–006. The same respondent also provided that the burden of compliance with the information collection requirement greatly exceeds the agency’s estimate and outweighs any potential utility of the extension.

Response: Serious consideration is given, during the open comment period, to all comments received and adjustments are made to the paperwork burden estimate based on reasonable considerations provided by the public. This is evidenced, as the respondent notes, in FAR Case 2007–006 where an adjustment was made from the total preparation hours from three to 60. This change was made considering particularly the hours that would be required for review within the company, prior to release to the Government.

The burden is prepared taking into consideration the necessary criteria in OMB guidance for estimating the paperwork burden put on the entity submitting the information. For example, consideration is given to an entity reviewing instructions; using technology to collect, process, and disclose information; adjusting existing practices to comply with requirements; searching data sources; completing and reviewing the response; and transmitting or disclosing information. The estimated burden hours for a collection are based on an average between the hours that a simple disclosure by a very small business might require and the much higher numbers that might be required for a very complex disclosure by a major corporation. Also, the estimated burden hours should only include projected hours for those actions which a company would not undertake in the normal course of business. Careful consideration went into assessing the estimated burden hours for this collection, and it is determined that an upward adjustment is not required at this time. However, at any point, members of the public may submit comments for further consideration, and are encouraged to provide data to support their request for an adjustment.

C. Annual Reporting Burden

Responses: 3,440.
Responses per Respondent: 5.
Annual Responses: 17,200.
Hours per Response:.167.
Total Burden Hours: 2,872.
