

periods of time greater than one day typically will not be a leveraged multiple (+200%), the inverse (−100%), or a leveraged inverse multiple (−200%) of the period return of the applicable benchmark and may differ significantly from these multiples. The Exchange's Information Circular, as well as the applicable registration statement, will provide information regarding the suitability of an investment in such securities.

III. Discussion and Commission's Findings

The Commission has carefully reviewed the proposed rule change and finds that it is consistent with the requirements of Section 6 of the Act¹⁶ and the rules and regulations thereunder applicable to a national securities exchange.¹⁷ In particular, the Commission finds that the proposal is consistent with Section 6(b)(5) of the Act,¹⁸ which requires, among other things, that the Exchange's rules be designed to prevent fraudulent and manipulative acts and practices, to promote just and equitable principles of trade, to foster cooperation and coordination with persons engaged in facilitating transactions in securities, to remove impediments to and perfect the mechanism of a free and open market and a national market system, and, in general, to protect investors and the public interest.

The Commission notes that the proposal is narrowly tailored to conform BATS's listing criteria for Index Fund Shares to the analogous criteria of another national securities exchange.¹⁹ The Commission notes that it has previously approved the same criteria in question and believes that BATS's proposal will benefit investors by increasing competition among markets listing and trading exchange-traded funds, to the benefit of investors and other market participants.

In addition, the Commission notes the following with respect to Index Fund Shares listed and traded under Exchange Rule 14.11(c), as proposed to be amended:

(1) Prior to the commencement of trading, the Exchange will inform Members in an Information Circular of the special characteristics, risks, and other information associated with trading Index Fund Shares;

(2) The Exchange represents that Index Fund Shares are deemed to be equity securities and, as such, trading in Index Fund Shares are subject to the Exchange's existing rules governing the trading of equity securities and that it has appropriate rules to facilitate transactions in Index Fund Shares during all trading sessions;

(3) Trading of Index Fund Shares on the Exchange are subject to the Exchange's surveillance procedures for derivative products, and the Exchange believes that its surveillance procedures are adequate to address any concerns about the trading of Index Fund Shares on the Exchange. Further, the Exchange represents that it may obtain information via ISG from other exchanges who are members or affiliates of the ISG or with which the Exchange has entered into a comprehensive surveillance sharing agreement;

(4) Trading in the securities will be subject to trading halts caused by extraordinary market volatility pursuant to Rule 11.18 or by the halt or suspension of the trading of the current underlying asset or assets. Trading in Index Fund Shares may also be halted because of market conditions or for reasons that, in the view of the Exchange, make trading in the securities inadvisable. These may include: (a) The extent to which trading in the underlying asset or assets is not occurring; or (b) whether other unusual conditions or circumstances detrimental to the maintenance of a fair and orderly market are present. Moreover, if the applicable Intraday Indicative Value, value of the underlying index, or the value of the underlying asset or assets is not being disseminated as required, the Exchange may halt trading during the day in which such interruption to the dissemination occurs. If the interruption to the dissemination of the applicable Intraday Indicative Value, value of the underlying index, or the value of the underlying asset or assets persists past the trading day in which it occurred, the Exchange will halt trading no later than the beginning of the trading day following the interruption. In addition, if the Exchange becomes aware that the NAV with respect to a series of the securities is not disseminated to all market participants at the same time, it will halt trading in such series until such time as the NAV is available to all market participants.

(5) The Commission also notes that the listing standards applicable to Index Fund Shares currently permit the listing and trading of Index Fund Shares that seek leveraged, inverse, or inverse leveraged returns on a daily basis. Prior to the commencement of trading of any

inverse, leveraged, or inverse leveraged securities, the Exchange will inform its Members of the suitability requirements under Exchange Rule 3.7 in the Information Circular, as discussed in more detail above, as well as reference the FINRA Regulatory Notices regarding sales practice and customer margin requirements for FINRA members applicable to inverse, leveraged, and inverse leveraged securities and options on such securities.

The Commission also believes that the Exchange's proposal to correct a typographical error in the numbering of its rules is consistent with Section 6(b)(5) of the Act as this should allow for greater clarity and accuracy of the Exchange's listing rules.

This approval order is based on all of the Exchange's representations.

IV. Conclusion

It is therefore ordered, pursuant to Section 19(b)(2) of the Act,²⁰ that the proposed rule change (SR-BATS-2012-030) be, and it hereby is, approved.

For the Commission, by the Division of Trading and Markets, pursuant to delegated authority.²¹

Kevin M. O'Neill,

Deputy Secretary.
