

use in the usual and customary ordinary course of their business. It is expected that the required disclosure will be performed using automated data systems that FCMs maintain and use in the usual and customary ordinary course of their business but that certain additional functionality will need to be added to these systems to perform the required disclosure. Because of the novel character of proposed section 22.11, it is not possible to make a precise estimate of the paperwork burden. The necessary modifications to, and maintenance of, systems may require a range of between 20 and 40 hours of work annually.

The recordkeeping required by section 22.12 involves information that Collecting FCMs and DCOs will receive pursuant to section 22.11 or that they generate and use in the usual and customary ordinary course of their business. It is expected that the required recordkeeping will be performed using automated data systems that Collecting FCMs and DCOs maintain and use in the usual and customary ordinary course of their business but that certain additional functionality will need to be added to these systems to perform the required disclosure. Because of the novel character of section 22.12, it is not possible to make a precise estimate of the paperwork burden. The necessary modifications to, and maintenance of, systems may require a range of between 20 and 40 hours of work annually. It is expected that the required recordkeeping will be performed by approximately 100 entities. The total annual burden for section 22.11 therefore is estimated at 2,000 to 4,000 hours.

Section 22.16 would apply to the same estimated 100 entities as sections 22.2(g), 22.5(a), and 22.11. The required disclosure would have to be made once each time a swaps customer begins to be cleared through a particular DCO or collecting FCM and each time a DCO or collecting FCM through which a customer's swaps are cleared changes it polices on the matters covered by the disclosure. It is expected that each disclosure would require about 0.2 hours of staff time by staff. It is uncertain what average number of swaps customers FCMs will have, and what average number of disclosures will be required for each customer annually. Assuming an average of 500 customers per FCM and two disclosures per customer per year, the estimated total annual burden would be 200 hours.

There are estimated to be no capital costs or operating and maintenance costs associated with this collection.

Dated September 26, 2012.

Sauntia S. Warfield,

Assistant Secretary of the Commission.

C. What should I consider as I prepare my comments for the EPA?

You may find the following suggestions helpful for preparing your comments:

D. How may I participate in this meeting?

You may participate in this meeting by following the instructions in this section. To ensure proper receipt by the EPA, it is imperative that you identify Docket ID number EPA-HQ-ORD-2012-0718 in the subject line on the first page of your request.

1. *Oral comments.* Requests to present oral comments will be accepted up to Thursday, October 25, 2012. To the extent that time permits, interested persons who have not pre-registered may be permitted by the Chair of the HSRB to present oral comments at the meeting. Each individual or group wishing to make brief oral comments to the HSRB is strongly advised to submit their request (preferably via email) to Jim Downing or Lu-Ann Kleibacker, under **FOR FURTHER INFORMATION CONTACT** no later than noon, Eastern Time, Thursday, October 25, 2012, in order to be included on the meeting agenda and to provide sufficient time for the HSRB Chair and HSRB Designated Federal Official to review the meeting agenda to provide an appropriate public comment period. Oral comments before the HSRB are generally limited to five minutes per individual or organization. Please note that this includes all individuals appearing either as part of, or on behalf of, an organization. While it is our intent to hear a full range of oral comments on the science and ethics issues under discussion, it is not our intent to permit organizations to expand the time limitations by having numerous individuals sign up separately to speak on their behalf. If additional time is available, further public comments may be possible.

2. *Written comments.* Submit your written comments prior to the meeting. For the Board to have the best opportunity to review and consider your comments as it deliberates on its report, you should submit your comments at

least five business days prior to the beginning of this meeting. If you submit comments after this date, those comments will be provided to the Board members, but you should recognize that the HSRB members may not have adequate time to consider those comments prior to making a decision. Thus, if you plan to submit written comments, the agency strongly encourages you to submit such comments no later than noon, Eastern Time, Thursday, October 25, 2012. You should submit your comments using the instructions in Section I., under subsection C., "What Should I Consider as I Prepare My Comments for the EPA?" In addition, the agency also requests that persons submitting comments directly to the docket also provide a copy of their comments to Jim Downing or Lu-Ann Kleibacker listed under **FOR FURTHER INFORMATION CONTACT**. There is no limit on the length of written comments for consideration by the HSRB.

E. Background

The HSRB is a Federal advisory committee operating in accordance with the Federal Advisory Committee Act 5 U.S.C. App. 2 § 9. The HSRB provides advice, information, and recommendations to the EPA on issues related to scientific and ethical aspects of human subjects research. The major objectives of the HSRB are to provide advice and recommendations on: (1) Research proposals and protocols; (2) reports of completed research with human subjects; and (3) how to strengthen EPA's programs for protection of human subjects of research. The HSRB reports to the EPA Administrator through the Agency's Science Advisor.

1. *Topics for discussion.* At its meeting on November 1, 2012, EPA's Human Studies Review Board will consider scientific and ethical issues surrounding this topic:

a. A completed study report from the Antimicrobial Exposure Assessment Task Force II (AEATF) in which the dermal and inhalation exposure of professional janitorial workers was monitored as they poured liquid antimicrobial pesticide products from conventional or reduced-splash containers into different sizes and types of source containers. EPA seeks the advice of the HSRB on the scientific soundness of this completed research and on its appropriateness for use in estimating exposure that results from pouring liquid antimicrobial pesticide products. EPA also seeks the advice of the HSRB on whether available information supports a determination

that the study was conducted in substantial compliance with subparts K and L of 40 CFR part 26.

2. *Meeting minutes and reports.* Minutes of the meeting, summarizing the matters discussed and recommendations, if any, made by the advisory committee regarding such matters, will be released within 90 calendar days of the meeting. Such minutes will be available at <http://www.epa.gov/osa/hsrb/> and <http://www.regulations.gov>. In addition, information regarding the Board's final meeting report will be found at <http://www.epa.gov/osa/hsrb/> or from the person listed under **FOR FURTHER INFORMATION CONTACT**.

Dated: September 25, 2012.

Glenn Paulson,
Science Advisor.
