

- compliance with the applicable efficiency standard if necessary to resolve an interference conflict with a current or future microwave link pursuant to 47 CFR 101.115(c);
- The applicant uses equipment that is capable of readily being upgraded to comply with the applicable payload capacity requirement, and provide a certification in its application that its equipment complies with this requirement;
  - Each end of the link is located in a rural area (county or equivalent having population density of 100 persons per square mile or less);
  - Each end of the link is in a county with a low density of links in the 4, 6, 11, 18 and 23 GHz bands;
  - Neither end of the link is contained within a recognized antenna farm; and
  - The applicant describes its proposed service and explains how relief from the efficiency standards will facilitate providing that service (e.g., by eliminating the need for an intermediate hop) as well as the steps needed to come into compliance should an interference conflict emerge.

There is no change to the existing third party disclosure requirements. Additionally, Part 101 rule section require various information to be reported to the Commission; coordinated with third parties; posting requirements; notification requirements to the public; and recordkeeping requirements maintained by the applicant. This information is needed to determine the technical, legal and other qualifications of applications to operate a station in the public and private operational fixed services.

The information submitted to the Commission is used to determine compliance with 47 U.S.C. sections 309 and 310.

Federal Communications Commission.
