Title: 7 CFR Part 4287-B, Servicing Business and Industry Guaranteed Loans.

OMB Control Number: 0570-0016.

Summary of Collection: The Business and Industry (B&I) program was legislated in 1972 under Section 310B of the Consolidated Farm and Rural Development Act, as amended (the Act). The purpose of the B&I program, as authorized by the Act, is to improve economic and environmental climate in rural communities, including pollution abatement and control. This purpose is achieved through bolstering the existing private credit structure through the guaranteeing of quality loans, which will provide lasting community benefits. The B&I program is administered by the Rural Business Service (RBS) through Rural Development State and sub-State offices serving each State. RBS will collect information using various forms from the lender and the borrower. This information is vital for making prudent financial decisions.

Need and Use of the Information: RBS will collect information to monitor the guaranteed loan portfolio to ensure that the lenders are adequately servicing the loans. RBS through its respective Business Programs Divisions in Washington, DC and its 47 State Offices throughout the United States will be the primary users of the information collected. If the information is not collected, RBS would not be able to make prudent credit decisions nor would the Agency be able to effectively monitor the lender's servicing activities and thus minimize losses under the program.

Solid Fertilizer Grade Ammonium Nitrate From the Russian Federation: Notice of Rescission of Antidumping Duty Administrative Review

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

FOR FURTHER INFORMATION CONTACT: Elizabeth Eastwood, AD/CVD

Operations, Office 2, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue NW., Washington, DC 20230; telephone: (202) 482-3874.

SUPPLEMENTARY INFORMATION:

Background

On April 10, 2012, the Department of Commerce (the Department) published in the **Federal Register** a notice of "Opportunity to Request Administrative Review" of the antidumping duty order on solid fertilizer grade ammonium nitrate (ammonium nitrate) from the Russian Federation (Russia) for the period of review (POR) of May 2, 2011, through March 31, 2012.¹ The Department received timely-filed requests from JSC Acron (Acron) and MCC EuroChem (EuroChem) (the respondents) in accordance with 19 CFR 351.213(b), for an administrative review of the antidumping duty order on ammonium nitrate from Russia. On May 29, 2012, the Department published a notice of initiation of an administrative review of the antidumping duty order on ammonium nitrate from Russia for Acron and EuroChem.² On the same date, we: (1) Issued the antidumping questionnaire to these companies; and (2) requested information from U.S. Customs and Border Protection (CBP) on imports of subject merchandise from these respondents during the POR, in accordance with our practice. In June 2012, we received the requested CBP information, which showed that neither Acron nor EuroChem had entries of subject merchandise during the POR. On June 5, 2012, we placed a memorandum on the administrative record of this case stating that our review of the CBP database showed no POR entries of subject merchandise by the respondents.³ We released the results of our CBP data query to the respondents and CF Industries, Inc. and El Dorado Chemical Company (collectively, the petitioners). We received no comments on the CBP data.

On June 20, 2012, Acron submitted its response to section A of the Department's antidumping questionnaire, which indicated that

Acron had a shipment of subject merchandise to the United States in March 2012; however, the entry documentation submitted with this response showed that the entry associated with this shipment was not made until after the end of the POR. See Acron's June 20, 2012, response at Exhibits 1 and 19.

On June 22, 2012, EuroChem submitted a partial response to section A of the Department's antidumping duty questionnaire, which stated that EuroChem also had a shipment of subject merchandise to the United States in March 2012. Unlike Acron, however, EuroChem provided a CBP 7501 form indicating that the entry associated with this shipment occurred on March 26, 2012. See EuroChem's June 22, 2012, submission at Exhibit 2. Because this information was not consistent with the underlying CBP data, on June 25, 2012, we queried the CBP database as to the status of the particular entry in question. According to the CBP database, although EuroChem submitted its entry documentation on March 26, 2012, the entry was not accepted by CBP as entered until after the end of the POR.

Because neither respondent had an entry of subject merchandise into the United States during the POR, on June 28, 2012, the Department placed a memorandum on the record notifying interested parties of its intent to rescind this administrative review.⁴ We invited parties to comment on our Intent to Rescind Memo. On July 9, 2012, we received comments from the respondents, and on July 16, 2012, we received rebuttal comments from the petitioners.

On August 24, 2012, we placed a memorandum on the record regarding EuroChem's entry date, to which EuroChem responded on September 4, 2012.

Rescission of Review

It is the Department's practice to rescind an administrative review pursuant to 19 CFR 351.213(d)(3) when there are no reviewable entries of subject merchandise during the POR subject to the antidumping duty order and for which liquidation is suspended.⁵ At the end of the

administrative review, the suspended entries are liquidated at the assessment rate computed for the review period. See 19 CFR 351.212(b)(1). Therefore, for an administrative review to be conducted, there must be a reviewable, suspended entry to be liquidated at the newly calculated assessment rate. As discussed in the Issues and Decision Memorandum (Decision Memo) accompanying this notice, we find that neither respondent made entries of subject merchandise during the POR. Therefore, we are rescinding this review of the antidumping duty order on ammonium nitrate from Russia pursuant to 19 CFR 351.213(d)(3).

Analysis of Comments Received

All issues raised in by parties to this administrative review in their comments are addressed in the Decision Memo, which is adopted by this notice. Parties can find a complete discussion of all issues and the corresponding recommendations in this public memorandum, which is on file electronically via IA ACCESS in the Central Records Unit, room 7046, of the main Department of Commerce building.

In addition, a complete version of the Decision Memo can be accessed directly on the Web at <http://ia.ita.doc.gov/frn/>. The paper copy and electronic version of the Decision Memo are identical in content.

This notice is published in accordance with section 751 of the Tariff Act of 1930, as amended, and 19 CFR 351.213(d)(4).

Dated: October 22, 2012.

Paul Piquado,

Assistant Secretary for Import Administration.
