SUPPLEMENTARY INFORMATION:

I. Meeting

OSHA is hosting an open informal public meeting of the U.S. Interagency GHS Coordinating Group to provide interested groups and individuals with an update on GHS-related issues and an opportunity to express their views orally and in writing for consideration in developing U.S. Government positions for the upcoming UNSCEGHS meeting. The public is invited to attend without prior notification.

The Meeting Agenda, in general, is as follows:

• Discussion of working papers for the 24th Session of the UNSCEGHS
• Update on UNSCEGHS correspondence group activity
• Discussion of the program of work for the 2013–2014 biennium

II. Background

The GHS was formally adopted by the United Nations Committee of Experts on the Transport of Dangerous Goods and on the Globally Harmonized System of Classification and Labelling of Chemicals in December 2002. The GHS is a single, harmonized system for classification of chemicals according to their health, physical, and environmental effects. It also provides harmonized communication elements, including labels and safety data sheets. The GHS is considered to be a living document and is regularly revised and updated as necessary to reflect new technology and scientific developments or to provide additional explanatory text. OSHA incorporated the GHS 3rd revision into its Hazard Communication Standard on March 26th of this year, 77 FR 17574, and intends to update the standard from time to time through rulemaking in order to remain consistent with any revisions to the GHS as appropriate under the OSHA Act. The UNSCEGHS is responsible for maintaining and updating the GHS. The U.S. has been an active member of the UNSCEGHS for many years, and OSHA currently serves as the head of the U.S. delegation for this Sub-committee.

In preparation for the bi-annual meetings of the UNSCEGHS, the U.S. Interagency GHS Coordinating Group meets to discuss issues related to the GHS and to develop a coordinated U.S. position on issues and proposals regarding the GHS. The U.S. Interagency Coordinating Group consists of U.S. agencies that regulate in the area of chemical hazard communication and includes the Department of Transportation (DOT), the Environmental Protection Agency (EPA), the Consumer Product Safety Commission (CPSC), and OSHA.

Information on the work of the UNSCEGHS, including meeting agendas, reports, and documents from previous sessions, can be found on the United Nations Economic Commission for Europe (UNECE) Transport Division Web site located at the following web address: http://www.unece.org/trans/danger/publi/ghs/ghs_welcome_e.html. The UNSCEGHS bases its decisions on Working Papers. The Working Papers for the 24th session of the UNSCEGHS are located at http://www.unece.org/trans/main/dgdb/dgsubc4/c42012.html. Informal Papers submitted to the UNSCEGHS provide information for the subcommittee and are used either as a mechanism to provide information to the subcommittee or as the basis for future Working Papers. Informal Papers for the 24th session of the UNSCEGHS are located at: http://www.unece.org/trans/main/dgdb/dgsubc4/c4inf24.html.
