We intend to issue liquidation instructions to CBP 15 days after publication of the final results of this review.

Cash Deposit Requirements

The following deposit requirements will be effective upon publication of the notice of final results of administrative review for all shipments of CTL plate from Korea entered, or withdrawn from warehouse, for consumption on or after the date of publication as provided by section 751(a)(2) of the Act: (1) The cash deposit rate for companies subject to this review will be the rate established in the final results of this administrative review; (2) for merchandise exported by manufacturers or exporters not covered in this review but covered in a prior segment of the proceeding, the cash deposit rate will continue to be the company-specific rate published for the most recent period; (3) if the exporter is not a firm covered in this review, a prior review, or the original investigation but the manufacturer is, the cash deposit rate will be the rate established for the most recent period for the manufacturer of the merchandise; (4) the cash deposit rate for all other manufacturers or exporters will continue to be 0.98 percent,7 the all-others rate established in the less-than-fair-value investigation, adjusted for the export-subsidy rate in the companion countervailing duty investigation. These cash deposit requirements, when imposed, shall remain in effect until further notice.

Notification to Importers

This notice serves as a preliminary reminder to importers of their responsibility under 19 CFR 351.402(f)(2) to file a certificate regarding the reimbursement of antidumping duties prior to liquidation of the relevant entries during this review period. Failure to comply with this requirement could result in the Department’s presumption that reimbursement of antidumping duties occurred and the subsequent assessment of double antidumping duties.

The Department is issuing and publishing these results in accordance with sections 751(a)(1) and 777(i)(1) of the Act.

Dated: January 14, 2013.

Paul Piquado
Assistant Secretary for Import Administration.

Appendix

List of Topics Discussed in the Preliminary Decision Memorandum

Scope of the Order
Preliminary Determination of No Reviewable Entries
Rates for Respondents Not Selected for Individual Examination
Comparisons to Normal Value
Product Comparisons
Date of Sale
Level of Trade/CEP Offset
Construction Export Price
Normal Value
A. Overrun Sales
B. Selection of Comparison Market
C. Affiliated Party Transactions and Arm’s Length Test
D. Cost of Production
1. Calculation of Cost of Production
2. Test of Comparison Market Sales Prices
3. Results of the COP Test
E. Constructed Value
F. Calculation of Normal Value Based on Comparison Market Prices
Currency Conversion

Chlorinated Isocyanurates From the People’s Republic of China: Final Results of Antidumping Duty Administrative Review; 2010–2011

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

SUMMARY: On July 16, 2012, the Department of Commerce (the Department) published the preliminary results of an administrative review of the antidumping duty order on chlorinated isocyanurates (chlorinated isos) from the People’s Republic of China (PRC). The period of review (POR) for this administrative review was June 1, 2010, through May 31, 2011. We invited interested parties to comment on our Preliminary Results. Based on our analysis of the comments received, we have made changes to the margin calculations. Therefore, the final results differ from the preliminary results. The final dumping margins for this review

5 In these preliminary results, the Department applied the assessment rate calculation method adopted in Antidumping Proceedings: Calculation of the Weighted-Average Dumping Margin and Assessment Rate in Certain Antidumping Duty Proceedings: Final Modification, 77 FR 8101 (February 14, 2012) (Final Modification for Reviews).

6 See Final Modification for Reviews, 77 FR at 8102.

are listed in the “Final Results of Review” section below.

DATES: Effective Date: January 22, 2013.

FOR FURTHER INFORMATION CONTACT: Emily Halle or Andrew Huston, AD/CVD Operations, Office 6, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue NW., Washington, DC 20230; telephone: (202) 482–0176 or (202) 482–4261, respectively.

SUPPLEMENTARY INFORMATION:
Background

Since the publication of the Preliminary Results, the following events have occurred. On August 6, 2012, Zhucheng Taisheng Chemical Co., Ltd. (Zhucheng) timely filed surrogate value information. 2 On September 5, 2012, China Chemical Corporation and Occidental Chemical Corporation (Petitioners), Hebei Jiheng Chemical Company, Ltd. (Jiheng), and Juancheng Kangtai Chemical Co., Ltd. (Kangtai) timely filed surrogate value information. 3 Petitioners submitted rebuttal surrogate value comments on September 17, 2012. 4 The Department conducted verification of Jiheng from October 15 through 19, 2012, and released the verification report on November 21, 2012. 5 On December 3, 2012, Jiheng, Kangtai, Zhucheng, and Petitioners filed case briefs. Jiheng, Kangtai and Petitioners filed rebuttal briefs on December 10, 2012. In response to timely requests from Petitioners and Jiheng to hold a public hearing, 6 the Department conducted a public hearing on December 21, 2012. 7 On September 4, 2012, the Department extended the deadline for the final results of review to January 12, 2013. 8 As explained in the memorandum from the Assistant Secretary for Import Administration, the Department has exercised its discretion to toll deadlines for the duration of the closure of the Federal Government from October 29 through October 30, 2012. 9 Thus, all deadlines in this segment of the proceeding have been extended by two days. The revised deadline for the final results of this review is now January 14, 2012.

Scope of the Order

The products covered by the order are chlorinated isocyanurates (chlorinated isos), which are derivatives of cyanuric acid, described as chlorinated s-triazine triones. Chlorinated isos are currently classifiable under subheadings 2933.69.6015, 2933.69.6021, 2933.69.6050, 3808.40.50, 3808.50.40 and 3808.94.5000 of the Harmonized Tariff Schedule of the United States (HTSUS). The HTSUS subheadings are provided for convenience and customs purposes only; the written product description of the scope of the order is dispositive.

Analysis of Comments Received

All issues raised in the case and rebuttal brief comments by parties in this review are addressed in the Decision Memorandum, which is hereby adopted by this notice. A list of the issues that parties raised and to which we responded in the Decision Memorandum is attached to this notice as an appendix. The Decision Memorandum is a public document and is on file electronically via Import Administration’s Antidumping and Countervailing Duty Centralized Electronic Service System (IA ACCESS). IA ACCESS is available to registered users at http://iaaccess.trade.gov and in the Central Records Unit (CRU), room 7046 of the main Department of Commerce building. In addition, a complete version of the Decision Memorandum can be accessed directly on the internet at http://www.trade.gov/ia/. The signed Decision Memorandum and the electronic versions of the Decision Memorandum are identical in content.

Changes Since the Preliminary Results

The Department has made several adjustments to our analysis and programming language. First, we now determine that sodium hypochlorite is comparable merchandise. 10 Second, we are selecting the Philippines as the primary surrogate country to value the respondents’ factors of production. 11 Therefore, for all surrogate values, with certain exceptions, we are relying on Philippine data, including the surrogate value for labor and the surrogate financial ratios. We are also adjusting the calculation of the respondents’ ammonia gas and sulfuric acid by-products. Finally, for Jiheng, we are adding several freight expenses to its raw materials input valuations. 12

Separate Rates

In proceedings involving non-market economy (NME) countries, the Department begins with a rebuttable presumption that all companies within the country are subject to government control and, thus, should be assigned a single antidumping duty deposit rate. It is the Department’s policy to assign all exporters of subject merchandise in an NME country this single rate unless an exporter can demonstrate that it is sufficiently independent to be eligible.

11 See Decision Memorandum.

for a separate rate. In the Preliminary Results, the Department found that Jiheng, Kangtai, Nanning Chemical Industry Co., Ltd. (Nanning), and Zhucheng demonstrated their eligibility for separate rate status. No parties commented on these separate rate eligibility determinations. Thus, for these final results, we continue to find that the evidence placed on the record of this review by Jiheng, Kangtai, Nanning and Zhucheng demonstrates both a de jure and de facto absence of government control, with respect to their exports of the merchandise under review, and, thus, that these companies are eligible for separate rate status.

Rate for Non-Selected Companies

The separate rate shall be an amount equal to the weighted average of the calculated weighted-average dumping margins established for mandatory respondents, excluding any zero and de minimis margins, and any margins determined entirely on adverse facts available. In this review, the Department calculated company-specific rates for the two mandatory respondents. Using a weighted average of these two company-specific rates to calculate a separate rate would risk disclosure of the mandatory respondents’ business proprietary information. Therefore, the Department used a simple average of these two company specific rates to calculate a separate rate, which is 34.08 percent.

Final Results of Review

We determine that the following weighted-average dumping margins exist for the period June 1, 2010, through May 31, 2011.

<table>
<thead>

Assessment Rates

Pursuant to section 751(a)(2)(A) of the Act and 19 CFR 351.212(b), the Department will determine, and U.S. Customs and Border Protection (CBP) shall assess, antidumping duties on all appropriate entries of subject merchandise in accordance with the final results of this review. Where we do not have entered values for all U.S. sales to a particular importer/customer, we calculate a per-unit assessment rate by aggregating the antidumping duties due for all U.S. sales to that importer (or customer) and dividing this amount by the total quantity sold to that importer (or customer). To determine whether the duty assessment rates are de minimis, in accordance with the requirement set forth in 19 CFR 351.106(c)(2), we calculated importer-(or customer-) specific ad valorem ratios based on the estimated entered value. Where an importer- (or customer-) specific ad valorem rate is zero or de minimis, we will instruct CBP to liquidate appropriate entries without regard to antidumping duties. Based on this methodology, no respondent had a de minimis rate. For the two non-reviewed separate respondents, we will direct CBP to assess duties on an ad valorem basis at a rate equal to the margins indicated above. The Department intends to issue assessment instructions directly to CBP 15 days after the publication of this notice.

The Department recently announced a refinement to its assessment practice in NME cases. Pursuant to this refinement in practice, for entries that were not reported by companies examined during this review, the Department will instruct CBP to liquidate such entries at the NME-wide rate. In addition, if the Department determines that an exporter under review had no shipments of the subject merchandise, any suspended entries that entered under that exporter’s case number (i.e., at that exporter’s rate) will be liquidated at the NME-wide rate.

Cash Deposit Requirements

The following cash deposit requirements will be effective upon publication of the final results of this administrative review for all shipments of the subject merchandise entered, or withdrawn from warehouse, for consumption on or after the publication date, as provided for by section 751(a)(2)(C) of the Act: (1) For the exporters listed above, the cash deposit rate will be the rate established in the final results of this review (except, if the rate is zero or de minimis, i.e., less than 0.5 percent, a zero cash deposit rate will be required for that company); (2) for previously investigated or reviewed PRC and non-PRC exporters not listed above that have separate rates, the cash deposit rate will continue to be the exporter-specific rate published for the most recent period; (3) for all PRC exporters of subject merchandise that have not been found to be entitled to a separate rate, the cash deposit rate will be the PRC-wide rate of 285.63 percent; and (4) for all non-PRC exporters of subject merchandise which have not received their own rate, the cash deposit rate will be the rate applicable to the PRC exporter(s) that supplied that non-PRC exporter. These deposit requirements, when imposed, shall remain in effect until further notice.

Notification to Importers

This notice also serves as a final reminder to importers of their responsibility under 19 CFR 351.402(f)(2) to file a certificate regarding the reimbursement of antidumping duties prior to liquidation of the relevant entries during this review period. Failure to comply with this requirement could result in the Department’s presumption that reimbursement of antidumping duties occurred and the subsequent assessment of double antidumping duties.

Notification to Interested Parties

This notice also serves as a reminder to parties subject to administrative protective order (APO) of their responsibility concerning the return or destruction of propriety information disclosed under APO in accordance with 19 CFR 351.305(a)(3), which continues to govern business proprietary information in this segment of the proceeding. Timely written notification of the return/destruction of APO materials or conversion to judicial protective order is hereby requested. Failure to comply with regulations and terms of an APO is a violation which is subject to sanction.

Disclosure

In accordance with 19 CFR 351.224(b), we intend to disclose the calculations performed for these final results to parties in this proceeding within five days of the date of publication of this notice.

Certain Steel Threaded Rod From the People’s Republic of China: Amended Final Results of Antidumping Duty Administrative Review; 2010–2011

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

DATES: Effective Date: January 22, 2013.

FOR FURTHER INFORMATION CONTACT: Jerry Huang, AD/CVD Operations, Office 9, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue NW., Washington DC 20230; telephone: (202) 482–4047.

SUPPLEMENTARY INFORMATION:

Background
On November 9, 2012, the Department of Commerce (“Department”) published in the Federal Register the final results of the administrative review of the antidumping duty order on certain steel threaded rod from the People’s Republic of China (“PRC”). On November 13, 2012, Vulcan Threaded Products Inc. (“Petitioner”) filed timely allegations that the Department made various ministerial errors in the Final Results and requested, pursuant to 19 CFR 351.224, that the Department correct the alleged ministerial errors. No other party submitted ministerial error allegations. On November 19, 2012, RMB Fasteners Ltd. and IFI & Morgan Ltd., and their affiliated producer Jiaxing Brother Standard Part Co., Ltd., (collectively “RMB/IFI Group”) submitted rebuttal comments on Petitioner’s ministerial error allegations.

Before the Department could take action on the alleged ministerial errors, RMB/IFI Group filed a summons and complaint with the U.S. Court of International Trade (“CIT”) challenging the Final Results, which vested the CIT with jurisdiction over the administrative proceeding. On December 28, 2012, the CIT granted the Department leave to publish amended final results to correct certain ministerial errors.

Scope of the Order

The merchandise covered by the order is steel threaded rod. Steel threaded rod is certain threaded rod, bar, or stud, of carbon quality steel, having a solid, circular cross section, of any diameter, in any straight length, that have been forged, turned, cold-drawn, cold-rolled, machine straightened, or otherwise cold-finished, and into which threaded grooves have been applied. Certain steel threaded rod subject to the order is currently classifiable in the Harmonized Tariff Schedule of the United States (“HTSUS”) at subheadings 7318.15.5051, 7318.15.5056, 7318.15.5090, and 7318.15.2095. Although the HTSUS subheading is provided for convenience and customs purposes, the written description of the merchandise is dispositive.

Amended Final Results

Section 751(h) of the Tariff Act of 1930, as amended (“the Act”), defines “ministerial error” as including “errors in addition, subtraction, or other arithmetical function, clerical errors resulting from inaccurate copying, duplication, or the like, and any other type of unintentional error which the administering authority considers ministerial.” After analyzing Petitioner and RMB/IFI Group’s comments, we have determined, in accordance with section 751(h) of the Act and 19 CFR 351.224(e), that we made certain ministerial errors in the final results with respect to our calculation of freight and brokerage charges, as well as not including the cost of packing labor for RMB/IFI Group.

For a detailed discussion of these ministerial errors, as well as the Department’s analysis of these errors, see Ministerial Errors Memo. In accordance with section 751(h) of the Act and 19 CFR 351.224(e), we are amending the Final Results of this administrative review of certain steel threaded rod from the PRC. The dumping margins for the period of review for these amended final results are as follows:

<table>
<thead>
<tr>
<th>Exporter</th>
<th>Weighted-average margin (percent)</th>
</tr>
</thead>
<tbody>
<tr>
<td>RMB Fasteners Ltd. and IFI &amp; Morgan Ltd. (&quot;RMB/IFI Group&quot;)</td>
<td>21.15</td>
</tr>
<tr>
<td>PRC-wide Entity</td>
<td>206.00</td>
</tr>
</tbody>
</table>

These amended final results and notice are issued and published in accordance with sections 751(h), and 777(i)(1) of the Act, and 19 CFR 351.224(e).

Dated: January 14, 2013.

Paul Piquado,
Assistant Secretary for Import Administration.
