

Anaya, Special Rapporteur on the rights of Indigenous peoples in the United Nations Office of the High Commissioner for Human Rights. A copy of the agenda will be posted at <http://www.epa.gov/ofacmo/nacgac-page.htm>.

DATES: The NAC/GAC will hold a public teleconference on Friday, February 15, 2013, from 12:30 p.m. to 1:30 p.m. Eastern Standard Time.

ADDRESSES: The meeting will be held at the U.S. EPA East Building, 1201 Constitution Ave. NW., Room 1132, Washington, DC 20004.

FOR FURTHER INFORMATION CONTACT: Oscar Carrillo, Designated Federal Officer, carrillo.oscar@epa.gov, 202-564-0347, U.S. EPA, Office of Federal Advisory Committee Management and Outreach (1601-M), 1200 Pennsylvania Avenue NW., Washington, DC 20460.

SUPPLEMENTARY INFORMATION: Requests to make oral comments or to provide written comments to NAC/GAC should be sent to Oscar Carrillo at carrillo.oscar@epa.gov by Thursday, February 7, 2013. The meeting is open to the public, with limited seating on a first-come, first-served basis. Members of the public wishing to participate in the teleconference should contact Oscar Carrillo at carrillo.oscar@epa.gov or (202) 564-0347 by February 7, 2013.

Meeting Access: For information on access or services for individuals with disabilities, please contact Oscar Carrillo at 202-564-0347 or carrillo.oscar@epa.gov. To request accommodation of a disability, please contact Oscar Carrillo, preferably at least 10 days prior to the meeting, to give EPA as much time as possible to process your request.

Dated: January 24, 2013.

Oscar Carrillo,
Designated Federal Officer.

ENVIRONMENTAL PROTECTION AGENCY

[FRL-9775-1]

Clean Air Act Operating Permit Program; Petition for Objection to State Operating Permit for Noranda Alumina, LLC

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of final action.

SUMMARY: This document announces that the EPA Administrator has responded to a citizen petition asking

EPA to object to an operating permit (Permit Number 2453-V2) issued by the Louisiana Department of Environmental Quality (LDEQ). Specifically, the Administrator has denied the March 28, 2011 petition, submitted by the Louisiana Environmental Action Network (LEAN), Sierra Club, and O'Neil Couvillion (the Petitioners), to object to the operating permit issued on February 15, 2011 to Noranda Alumina, LLC, for the operation of the alumina production plant located in Gramercy, St James Parish, Louisiana. Sections 307(b) and 505(b)(2) of the Act provide that a petitioner may ask for judicial review of those portions of the petition which EPA denies in the United States Court of Appeals for the appropriate circuit. Any petition for review shall be filed within 60 days from the date this notice appears in the **Federal Register**, pursuant to section 307 of the Act.

ADDRESSES: You may review copies of the final Order, the petition, and other supporting information at EPA Region 6, 1445 Ross Avenue, Dallas, Texas 75202-2733.

EPA requests that if at all possible, you contact the individual listed in the **FOR FURTHER INFORMATION CONTACT** section to view copies of the final Order, petition, and other supporting information. You may view the hard copies Monday through Friday, from 9:00 a.m. to 3:00 p.m., excluding Federal holidays. If you wish to examine these documents, you should make an appointment at least 24 hours before the visiting day. Additionally, the final Order for Noranda Alumina LLC is available electronically at: http://www.epa.gov/region07/air/title5/petitiondb/petitions/noranda_response2011.pdf.

FOR FURTHER INFORMATION CONTACT: Brad Touns at (214) 665-7258, email address: touns.brad@epa.gov or the above EPA, Region 6 address.

SUPPLEMENTARY INFORMATION: The CAA affords EPA a 45-day period to review, and object to as appropriate, a Title V operating permit proposed by State permitting authorities. Section 505(b)(2) of the CAA authorizes any person to petition the EPA Administrator, within 60 days after the expiration of this review period, to object to a Title V operating permit if EPA has not done so. Petitions must be based only on objections to the permit that were raised with reasonable specificity during the public comment period provided by the State, unless the petitioner demonstrates that it was impracticable to raise these issues during the comment period or the grounds for the issue arose after this period.

EPA received a petition from the Petitioners dated March 28, 2011, requesting that EPA object to the issuance of the Title V operating permit to Noranda Alumina LLC (Noranda), for the operation of the alumina production plant in Gramercy, St. James Parish, Louisiana for the following reasons: (1) The Title V Permit fails to incorporate applicable PSD requirements because: LDEQ violated the PSD public participation requirements; certain stack tests show the NO_x emissions exceed PSD thresholds, yet the Title V Permit fails to include applicable PSD requirements for NO_x emissions; LDEQ failed to support its conclusion that emissions from the yield improvement project do not trigger PSD review; and LDEQ failed to apply Best Available Control Technology to NO_x emissions from the yield improvement project; (2) LDEQ failed to include emission limits for PM_{2.5} emissions; and (3) the Title V Permit fails to include a case-specific Maximum Achievable Control Technology Standard for Noranda's Industrial Boilers.

On December 14, 2012, the Administrator issued an Order denying the petition. The Order explains the reasons behind EPA's conclusion to deny the petition.

Dated: January 17, 2013.

Ron Curry,

Regional Administrator, Region 6.
