part 814 have been approved under 0910–0231; and the collections of information under 21 CFR part 900 are approved under OMB control number 0910–0300.

In the Federal Register of December 28, 2011 (76 FR 81511), FDA published a 60-day notice requesting public comment on the proposed collection of information. No comments were received.

FDA estimates it will receive 50 requests annually from outside stakeholders requesting additional review of decisions and actions by CDRH employees. The Agency reached this estimate based on data collected about requests received over the last 2 years. FDA estimates it will take outside stakeholders approximately 8 hours to prepare a request based on the Agency’s experience with past requests.

Before the proposed information collection provisions contained in this guidance become effective, FDA will publish a notice in the Federal Register announcing OMB’s decision to approve, modify, or disapprove the information collection provisions. An Agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number.

FDA estimates the burden of this collection of information as follows:

<table>
<thead>
<tr>
<th>Guidance title</th>
<th>Number of respondents</th>
<th>Number of responses per respondent</th>
<th>Total annual responses</th>
<th>Average burden per response</th>
<th>Total hours</th>
</tr>

To register online, please visit http://www.afdo.org/confERENCE. (FDA has verified the Web site address, but is not responsible for subsequent changes to the Web site after this document publishes in the Federal Register.) The registrar will also accept payment through Visa and MasterCard credit cards. For more information on the public workshop, or for questions about registration, please contact AFDO at 717–757–2888, FAX: 717–650–3650, or email: afdo@afdo.org

The public workshop helps fulfill the Department of Health and Human Services’ and FDA’s important mission to protect the public health. The workshop will provide FDA-regulated drug and device entities with information on a number of topics concerning FDA requirements related to the production and marketing of drugs and/or devices. Topics for discussion include the following:

- Future of Combination Product Regulation.
- Unique Device Identifier Progress.
- Health Canada Update.
- The Safety of our Drugs and Devices—the Complex Reality.
- Nanotechnology.
- Drug and Medical Device Trends.
- Case for Quality (Center for Devices and Radiological Health) Presented by Steve Silverman.
- Working Luncheon Interactive Session—Lessons Learned From the Mistakes of Others.
- Complaint Handling—It’s Not Just About Compliance—It’s an Effective Business Driver.
- FDA’s Cosmetic Regulatory Agenda.
- Pilot Program for Abbreviated Drug Inspections.

FDA has made education of the drug and device manufacturing community a high priority to help ensure the quality of FDA-regulated drugs and devices.
