acres are on public land under the jurisdiction of the BLM and 568 acres are on private land under the jurisdiction of Kern County. The Project, if approved, would require approximately 418 acres of the private land portion of the Project site to be rezoned to be consistent with the Kern County Zoning Ordinance Wind Energy Combining District.

The BLM’s purpose and need for the Project is to respond to AWD’s application for a ROW grant to construct, operate, maintain, and decommission a wind-energy facility on public lands in compliance with FLPMA, BLM ROW regulations, and other applicable requirements. The BLM will decide whether to grant, grant with modification, or deny a ROW on public lands to AWD for the proposed Project. The BLM is proposing to amend the CDCA Plan by designating the project area as either available or unavailable for wind-energy projects. The CDCA Plan (1980, as amended), while recognizing the potential compatibility of wind-energy generation facilities with other uses on public lands, requires that all sites proposed for power generation or transmission not already identified in the plan be considered through the plan amendment process. In order for the BLM to grant a ROW for this Project, the CDCA Plan would need to be amended.

In addition to the proposed action (106 turbines) and a no action alternative, the BLM is analyzing an alternative layout configuration and two reduced footprint (97 and 87 turbines) alternatives. The proposed plan amendment/final EIS also analyzes two “no project” alternatives that reject the Project but amend the CDCA Plan to find the project area either (1) Suitable for future wind energy generation projects; or (2) Unsuitable for future wind energy generation projects. The BLM has selected Alternative C (97 turbines) as the preferred alternative in the proposed plan amendment/final EIS.

The proposed plan amendment/final EIS evaluates the potential impacts of the Project and the cumulative effects on air quality and greenhouse gas emissions, biological resources including Golden Eagles and California Condors, special status species, cultural resources, geology and soils, hazards and hazardous materials, hydrology and water quality, land use, noise, recreation, traffic, visual resources, lands with wilderness characteristics, and areas with high potential for renewable energy development.

A Notice of Availability of the draft proposed plan amendment/final EIS/environmental impact report (EIR) for the Project was published on June 29, 2012 followed by a BLM/Kern County joint public meeting on August 1, 2012 in Mojave, California. A Notice of Intent to prepare a plan amendment/EIS/EIR for the Project was published in the Federal Register on July 15, 2011 (76 FR 41817) followed by a joint public scoping meeting with Kern County in Mojave, California, on August 4, 2011. The County completed its California Environmental Quality Act (CEQA) review process and has already certified its EIR for the Project. For additional information about or copies of the Project’s certified EIR, interested members of the public should contact Kern County. As a result of the County’s certification of the EIR, the BLM is releasing its final EIS document as a NEPA document; it is no longer a joint NEPA/CEQA document.

Comments on the draft plan amendment/EIS/EIR received from the public and internal BLM review were considered and incorporated as appropriate into the proposed plan amendment/final EIS. Public comments resulted in the addition of clarifying text, but did not significantly change proposed actions or land use plan decisions analyzed here.

Instructions for filing a protest with the BLM Director regarding the proposed plan amendment/final EIS may be found in the “Dear Reader” Letter of the proposed plan amendment/final EIS and at 43 CFR 1610.5–2. Emailed and faxed protests will not be accepted as valid protests unless the protesting party also provides the original letter by either regular or overnight mail postmarked by the close of the protest period. Under these conditions, the BLM will consider the emailed or faxed protest as an advance copy and it will receive full consideration. If you wish to provide the BLM with such advance notification, please direct faxed or emailed protests to the attention of the BLM protest coordinator at 202–245–0028 or bhudgens@blm.gov.

All protests must be in writing and mailed to the appropriate address, as set forth in the ADDRESSES section above.

Before including your phone number, email address, or other personal identifying information in your protest, you should be aware that your entire protest—including your personal identifying information—may be made publicly available at any time. While you can ask us in your protest to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

History and Description of the Remains

At unknown dates, human remains representing, at minimum, eight individuals were removed from unknown sites most likely located in the state of Washington. The University of Washington, Department of Anthropology, houses a teaching collection of human remains, collected through various means and by many individuals over time, including from archaeological sites, coroners, and donations from the public. The remains of the eight individuals described in this notice exhibit severe intentional cranial modification, which is a common Native American practice seen throughout Washington. No known individuals were identified. The two associated funerary objects are one unmodified stone and one lot of shells, twigs, and roots.

Determinations Made by the University of Washington, Department of Anthropology

Officials of the University of Washington, Department of Anthropology, have determined that:
• Based on cranial morphology and dental traits, the human remains are Native American.
• Pursuant to 25 U.S.C. 3001(2), a relationship of shared group identity cannot be reasonably traced between the Native American human remains and any present-day Indian tribe.
• According to final judgments of the Indian Claims Commission, the land from which the Native American human remains and associated funerary objects were removed is the aboriginal land of the Coeur D’Alene Tribe (previously listed as the Coeur D’Alene Reservation, Idaho); Confederated Tribes and Bands of the Yakama Nation; Confederated Tribes of the Chehalis Reservation; Confederated Tribes of the Colville Reservation; Confederated Tribes of the Umatilla Indian Reservation; Confederated Tribes of the Columbia River Reservation, Oregon; Cowitz Indian Tribe; Hoh Indian Tribe (previously listed as the Hoh Indian Tribe of the Hoh Indian Reservation, Washington); Jamestown S’Klallam Tribe; Kalispel Indian Community of the Kalispel Reservation; Lower Elwha Tribal Community (previously listed as the Lower Elwha Tribal Community of the Lower Elwha Reservation, Washington); Lummi Tribe of the Lummi Reservation; Makah Indian Tribe of the Makah Indian Reservation; Muckleshoot Indian Tribe (previously listed as the Muckleshoot Tribe of the Muckleshoot Reservation, Washington); Nez Perce Tribe (previously listed as Nez Perce Tribe of Idaho); Nisqually Indian Tribe (previously listed as the Nisqually Indian Tribe of the Nisqually Reservation, Washington); Nooksack Indian Tribe; Port Gamble Band of S’Klallam Indians (previously listed as the Port Gamble Indian Community of the Port Gamble Reservation, Washington); Puypeart Tribe of the Puypeart Reservation; Quinault Indian Nation (previously listed as the Quinault Tribe of the Quinault Reservation, Washington); Samish Indian Nation (previously listed as the Samish Indian Tribe, Washington); Skokomish Indian Tribe (previously listed as the Skokomish Indian Tribe of the Skokomish Reservation, Washington); Snoqualmie Indian Tribe (previously listed as the Snoqualmie Tribe, Washington); Spokane Tribe of the Spokane Reservation; Squaxin Island Tribe of the Squaxin Island Reservation; Stillaguamish Tribe of Indians of Washington (previously listed as the Stillaguamish Tribe of Washington); Suquamish Indian Tribe of the Port Madison Reservation; Swinomish Indians of the Swinomish Reservation of Washington; Tulalip Tribes of Washington (previously listed as the Tulalip Tribes of the Tulalip Reservation, Washington); Upper Skagit
referred to as “The Aboriginal Land Tribes”).
• Multiple lines of evidence, including treaties, Acts of Congress, and Executive Orders, indicate that the land from which the Native American human remains and the associated funerary object were removed is the aboriginal land of The Aboriginal Land Tribes.
• Other credible lines of evidence, indicate that the land from which the Native American human remains and the associated funerary object were removed is the aboriginal land of The Aboriginal Land Tribes; Confederated Tribes of the Warm Springs Reservation of Oregon; and the Wanapum Band of Priest Rapids, a non-Federally recognized Indian group.
