NUCLEAR REGULATORY COMMISSION

[NRC-2013-0040; Docket Nos. 50-334 and 50-412; License Nos. DPR-66 and NPF-73; EA-12-254]

In the Matter of FirstEnergy Nuclear Operating Co. (Beaver Valley Units 1 and 2); Confirmatory Order Modifying License

I

FirstEnergy Nuclear Operating Company (FENOC, the licensee) is the

holder of Renewed Facility Operating License Nos. DPR-66 and NPF-73 issued by the U.S. Nuclear Regulatory Commission (NRC) pursuant to part 50 of Title 10 of the *Code of Federal Regulations* (10 CFR), "Domestic Licensing of Production and Utilization Facilities," on November 5, 2009. The licenses authorize the operation of the Beaver Valley Power Station, Units 1 and 2 (Beaver Valley, facility), in accordance with conditions specified therein. The facility is located on the licensee's site in Shippingport, Pennsylvania.

II

On December 22, 2005, FENOC notified the NRC of its intent to transition the facility to the National Fire Protection Association (NFPA) Standard 805 fire protection program in accordance with 10 CFR 50.48(c). Under this initiative, the NRC has exercised enforcement discretion for most fire protection noncompliances that are identified during the licensee's transition to NFPA 805, and for certain existing identified noncompliances that reasonably may be resolved at the completion of transition. NFPA 805 was adopted in 10 CFR 50.48(c) as an alternative fire protection rule, which is one path to resolving longstanding fire protection issues. To receive enforcement discretion for these noncompliances, the licensee must meet the specific criteria, as stated in Section 9.1, "Enforcement Discretion for Certain Fire Protection Issues (10 CFR 50.48)," of the "NRC Enforcement Policy," dated June 7, 2012, and submit an acceptable license amendment application by the date, as specified in the licensee's commitment letter. In a letter dated June 29, 2011, FENOC committed to submit their license amendment application by September 30, 2012.

III

In a public meeting held on August 1, 2012, between the NRC and FENOC, the licensee described its progress for transitioning Beaver Valley to NFPA 805. FENOC also notified the NRC that the development of a high-quality application will require more time than originally anticipated and that they will be unable to meet their previously committed submittal date of September 30, 2012. FENOC expressed a desire to continue enforcement discretion, and a willingness to commit to the new submittal date.

In a letter dated August 29, 2012, FENOC reiterated the current transition strategy for Beaver Valley, and notified the NRC that FENOC will submit its license amendment request (LAR) no
