

**DEPARTMENT OF COMMERCE****National Oceanic and Atmospheric Administration**

RIN 0648-XC565

**Fisheries of the Gulf of Mexico; Southeast Data, Assessment, and Review (SEDAR); Public Meeting**

**AGENCY:** National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

**ACTION:** Notice of SEDAR 33 Gulf of Mexico Gag and Greater Amberjack Data Scoping Webinar.

**SUMMARY:** The SEDAR 33 assessment of the Gulf of Mexico gag and greater amberjack fisheries will consist of a series of workshops and supplemental webinars. This notice is for a data scoping webinar of the Data Workshop portion of the SEDAR process. See **SUPPLEMENTARY INFORMATION.**

**DATES:** The SEDAR 33 Data Scoping Webinar will be held on April 10, 2013. The webinar will begin at 1 p.m. and conclude no later than 5 p.m. EDT.

**ADDRESSES:**

*Meeting address:* The data scoping webinar will be held via GoToWebinar. The webinar is open to members of the public. Those interested in participating should contact Ryan Rindone at SEDAR (see **FOR FURTHER INFORMATION CONTACT**) to request an invitation providing webinar access information. Please request meeting information at least 24 hours in advance.

*SEDAR address:* 4055 Faber Place Drive, Suite 201, N. Charleston, SC 29405.

**FOR FURTHER INFORMATION CONTACT:** Ryan Rindone, SEDAR Coordinator; telephone: (813) 348-1630; email: [ryan.rindone@gulfcouncil.org](mailto:ryan.rindone@gulfcouncil.org).

**SUPPLEMENTARY INFORMATION:** The Gulf of Mexico, South Atlantic, and Caribbean Fishery Management Councils, in conjunction with NOAA Fisheries and the Atlantic and Gulf States Marine Fisheries Commissions, have implemented the Southeast Data, Assessment and Review (SEDAR) process, a multi-step method for determining the status of fish stocks in the Southeast Region. SEDAR is a three-step process including: (1) Data Workshop; (2) Assessment Process including a workshop and webinars; and (3) Review Workshop. The product of the Data Workshop is a data report which compiles and evaluates potential datasets and recommends which datasets are appropriate for assessment analyses. The product of the Assessment

Process is a stock assessment report which describes the fisheries, evaluates the status of the stock, estimates biological benchmarks, projects future population conditions, and recommends research and monitoring needs. The assessment is independently peer reviewed at the Review Workshop. The product of the Review Workshop is a Consensus Summary documenting panel opinions regarding the strengths and weaknesses of the stock assessment and input data. Participants for SEDAR Workshops are appointed by the Gulf of Mexico, South Atlantic, and Caribbean Fishery Management Councils and NOAA Fisheries Southeast Regional Office, Highly Migratory Species Management Division, and Southeast Fisheries Science Center. Participants include: data collectors and database managers; stock assessment scientists, biologists, and researchers; constituency representatives including fishermen, environmentalists, and non-governmental organizations (NGOs); international experts; and staff of Councils, Commissions, and state and federal agencies.

The items of discussion in the SEDAR 33 Data Scoping Webinar are as follows:

Panelists will review data determined to be pertinent in the assessment for Gulf of Mexico gag and greater amberjack prior to the Data Workshop.

Although non-emergency issues not contained in this agenda may come before this group for discussion, those issues may not be the subject of formal action during this meeting. Action will be restricted to those issues specifically identified in this notice and any issues arising after publication of this notice that require emergency action under section 305(c) of the Magnuson-Stevens Fishery Conservation and Management Act, provided the public has been notified of the intent to take final action to address the emergency.

**Special Accommodations**

This meeting is accessible to people with disabilities. Requests for auxiliary aids should be directed to the SEDAR office (see **ADDRESSES**) at least 10 business days prior to the meeting.

**Note:** The times and sequence specified in this agenda are subject to change.

Dated: March 12, 2013.

**Tracey L. Thompson,**

*Acting Deputy Director, Office of Sustainable Fisheries, National Marine Fisheries Service.*

**DEPARTMENT OF COMMERCE****United States Patent and Trademark Office****Deposit of Biological Materials**

**ACTION:** Proposed collection; comment request.

**SUMMARY:** The United States Patent and Trademark Office (USPTO), as part of its continuing effort to reduce paperwork and respondent burden, invites the general public and other Federal agencies to take this opportunity to comment on the continuing information collection, as required by the Paperwork Reduction Act of 1995, Public Law 104-13 (44 U.S.C. 3506(c)(2)(A)).

**DATES:** Written comments must be submitted on or before May 14, 2013.

**ADDRESSES:** You may submit comments by any of the following methods:

- *Email:*

*InformationCollection@uspto.gov.*

Include "0651-0022 comment" in the subject line of the message.

- *Mail:* Susan K. Fawcett, Records Officer, Office of the Chief Information Officer, United States Patent and Trademark Office, P.O. Box 1450, Alexandria, VA 22313-1450.

- *Federal Rulemaking Portal:* <http://www.regulations.gov>.

**FOR FURTHER INFORMATION CONTACT:**

Requests for additional information should be directed to Raul Tamayo, Legal Advisor, Office of Patent Legal Administration, United States Patent and Trademark Office, P.O. Box 1450, Alexandria, VA 22313-1450; by telephone at 571-272-7728; or by email to [Raul.Tamayo@uspto.gov](mailto:Raul.Tamayo@uspto.gov) with "Paperwork" in the subject line. Additional information about this collection is also available at <http://www.reginfo.gov> under "Information Collection Review."

**SUPPLEMENTARY INFORMATION:****I. Abstract**

The deposit of biological materials as part of a patent application is required by 35 U.S.C. 2(b)(2) and outlined in 37 CFR 1.801-1.809. Every patent must contain a description of the invention sufficient to enable a person (knowledgeable in the relevant science), to make and use the invention as specified by 35 U.S.C. 112. The term "biological material" is defined by 37 CFR 1.801 as including material that is capable of self-replication, either directly or indirectly. When the invention involves a biological material, sometimes words and figures are not sufficient to satisfy the statutory requirement for patentability under 35
