SUPPLEMENTARY INFORMATION: The Commission is reopening the comment period for its January 9, 2013 (78 FR 1779) Notice of Proposed Rulemaking (NPRM) until April 1, 2013. In the NPRM, the Commission proposed to amend the Energy Labeling Rule (“Rule”) (16 CFR part 305) by updating ranges of comparability and unit energy cost figures for many EnergyGuide labels. The Commission also sought comment on a proposed exemption request by the Association of Home Appliance Manufacturers (AHAM) to help consumers compare the labels on refrigerators and clothes washers after the implementation of upcoming changes to the Department of Energy test procedures for those products. On March 7, 2013, the California Investor Owned Utilities (CA IOUs), citing unforeseeable circumstances that prevented the group from filing comments by the March 1, 2013 deadline, petitioned the Commission to reopen the comment period for the Proposed Rule for the Appliance Labeling Rule. In response, the Commission reopening the comment period to April 1, 2013. This action is reasonable for it will help ensure a full record in the proceeding and should not unduly delay this proceeding.

Interested parties are invited to submit written comments electronically or in paper form. Comments should refer to “Energy Label Ranges, Matter No. R611004” to facilitate the organization of comments. Please note that your comment, including your name and your state, will be placed on the public record of this proceeding, including on the publicly accessible FTC Web site, at http://www.ftc.gov/os/publiccomments.shtm.

Because comments will be made public, they should not include any sensitive personal information, such as any individual’s Social Security Number; date of birth; driver’s license number or other state identification number, or foreign country equivalent; passport number; financial account number; or credit or debit card number. Comments also should not include any sensitive health information, such as medical records or other individually identifiable health information. In addition, comments should not include trade secret or any commercial or financial information which is obtained from any person and which is privileged or confidential as provided in Section 6(f) of the Federal Trade Commission Act (FTC Act, 15 U.S.C. 46(f)), and FTC Rule 4.10(a)(2) (16 CFR 4.10(a)(2)).

Comments containing matter for which confidential treatment is requested must be filed in paper form, must be clearly labeled Confidential, and must comply with FTC Rule 4.9(c).

Because paper mail addressed to the FTC is subject to delay due to heightened security screening, please consider submitting your comments in electronic form. Comments filed in electronic form should be submitted using the following weblink: https://ftcpublic.commentworks.com/ftc/energylabelranges (and following the instructions on the web-based form). To ensure that the Commission considers an electronic comment, you must file it on the web-based form at the weblink https://ftcpublic.commentworks.com/ftc/energylabelranges. If this Notice appears at http://www.regulations.gov/#/home, you may also file an electronic comment through that Web site. The Commission will consider all comments that regulations.gov forwards to it. You may also visit the FTC Web site at http://www.ftc.gov to read the Notice and the news release describing it.

A comment filed in paper form should include the Energy Label Ranges, Matter No. R611004 reference both in the text and on the envelope, and should be mailed or delivered to the following address: Federal Trade Commission, Office of the Secretary, Room H–135 (Annex U), 600 Pennsylvania Avenue NW., Washington, DC 20580. The FTC is requesting that any comment filed in paper form be sent by e-mail or overnight service, if possible, because U.S. postal mail in the Washington area and at the Commission
is subject to delay due to heightened security precautions.

The FTC Act and other laws that the Commission administers permit the collection of public comments to consider and use in this proceeding as appropriate. The Commission will consider all timely and responsive public comments that it receives, whether filed in paper or electronic form. Comments received will be available to the public on the FTC Web site, to the extent practicable, at http://www.ftc.gov/os/publiccomments.shtm. As a matter of discretion, the FTC makes every effort to remove home contact information for individuals from the public comments it receives before placing those comments on the FTC Web site. More information, including routine uses permitted by the Privacy Act, may be found in the FTC’s privacy policy, at http://www.ftc.gov/ftc/privacy.htm.

AGENCY: Food and Drug Administration, HHS.

ACTION: Notice of availability.

SUMMARY: The Food and Drug Administration (FDA or we) is announcing the availability of a draft guidance entitled “Guidance for Industry: Purchasing Reef Fish Species Associated With the Hazard of Ciguatera Fish Poisoning.” The draft guidance, when finalized, will advise primary seafood processors who purchase reef fish how to minimize the risk of ciguatera fish poisoning (CFP) from fish that they distribute. The draft guidance is intended to help protect the public health by reducing the risk of CFP.

DATES: Although you can comment on any guidance at any time (see 21 CFR 10.115(g)(5)), to ensure that FDA considers your comment on the draft guidance before we begin work on the final version of the guidance, submit either electronic or written comments on the draft guidance by May 28, 2013.

ADDRESSES: Submit electronic comments on the draft guidance to http://www.regulations.gov. Karen Swajian, Division of Seafood Safety, Center for Food Safety and Applied Nutrition (HFS–325), Food and Drug Administration, 5100 Paint Branch Pkwy., College Park, MD 20740. Send two self-addressed adhesive labels to assist that office in processing your request. We are announcing the availability of the draft guidance entitled “Guidance for Industry: Purchasing Reef Fish Species Associated With the Hazard of Ciguatera Fish Poisoning.” The draft guidance is intended for primary seafood processors who purchase reef fish such as grouper, amberjack, snapper, lionfish, king mackerel, and barracuda. The draft guidance recommends that primary seafood processors take measures to minimize the risk of CFP from fish that they distribute. This draft guidance is an update to and complements information from the guidance document entitled “Fish and Fishery Products Hazards and Controls Guidance” (the Guide) (Ref. 1), which helps the seafood processing industry develop seafood Hazard Analysis and Critical Control Point programs. The Guide identifies food safety hazards, including CFP, which are associated with fish and fishery products, and provides examples of recommended preventive measures to minimize the likelihood of the hazard’s occurrence. Table 3–2 in the Guide provides a list of fish species currently associated with CFP. The draft guidance adds to the list of reef fish species associated with CFP.

The draft guidance is being issued consistent with our good guidance practices regulation (21 CFR 10.115). The draft guidance, when finalized, will represent our current thinking on this topic. It does not create or confer any rights for or on any person and does not operate to bind FDA or the public. An alternative approach may be used if such approach satisfies the requirements of the applicable statutes and regulations.
