AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule.

SUMMARY: EPA is proposing to approve a revision to the South Coast portion of the California State Implementation Plan (SIP). FOR FURTHER INFORMATION CONTACT: Cara Peck, EPA Region IX, (415) 972–3382, peck.cara@epa.gov.

SUPPLEMENTARY INFORMATION: This proposal addresses the following local rule: SCAQMD Rule 463 Organic Liquid Storage. In the Rules and Regulations section of this Federal Register, we are approving this local rule in a direct final action without prior proposal because we believe these SIP revisions are not controversial. If we receive adverse comments, however, we will publish a timely withdrawal of the direct final rule and address the comments in subsequent action based on this proposed rule.

We do not plan to open a second comment period, so anyone interested in commenting should do so at this time. If we do not receive adverse comments, no further activity is planned. For further information, please see the direct final action.

Endangered and Threatened Wildlife and Plants; 12-Month Finding on a Petition To List the Rosemont Talussnail as Endangered or Threatened

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice of 12-month petition finding.

SUMMARY: We, the U.S. Fish and Wildlife Service (Service), announce a 12-month finding on a petition to list the Rosemont talussnail as endangered or threatened and to designate critical habitat under the Endangered Species Act of 1973, as amended (Act). After a review of the best available scientific information, we find that listing the Rosemont talussnail as an endangered or threatened species is not warranted, and, therefore, we are removing this species from the candidate list.

SUPPLEMENTARY INFORMATION: Background

Section 4(b)(3)(B) of the Act (16 U.S.C. 1531 et seq.) requires that, for any petition to revise the Federal Lists of Endangered and Threatened Wildlife and Plants that contains substantial scientific or commercial information that listing the species may be warranted, we make a finding within 12 months of the date of receipt of the petition. In this finding, we will determine that the petitioned action is: (1) Not warranted, (2) warranted, or (3) warranted, but the immediate proposal of a regulation implementing the petitioned action is precluded by other pending proposals to determine whether species are endangered or threatened, and expeditious progress is being made to add or remove qualified species from the Federal Lists of Endangered and Threatened Wildlife and Plants. Section 4(b)(3)(C) of the Act requires that we treat a petition for which the requested action is found to be warranted but precluded as though resubmitted on the date of such finding, that is, requiring a
