The benefits of the Disability and Rehabilitation Research Projects and Centers Programs have been well established over the years in that similar projects have been completed successfully. This proposed priority would generate new knowledge through research and development. The new RERCs would generate, disseminate, and promote the use of new information that would improve the options for individuals with disabilities to fully participate in their communities.

ACTION: Proposed rule.

SUMMARY: EPA Region 10 proposes to approve a modification to the State of Oregon’s approved Municipal Solid Waste Landfill Program. On March 22, 2004, EPA issued final regulations allowing research, development, and demonstration (RD&D) permits to be issued to certain municipal solid waste landfills by approved states. SUPPLEMENTARY INFORMATION: In the Rules section of this Federal Register, the EPA is approving modifications to Oregon’s Municipal Solid Waste Landfill program to allow for Research, Development, and Demonstration permits through a direct final rule without prior proposal, because the EPA views this as a noncontroversial action and anticipates no adverse comments to this action. Unless we receive written adverse comments which oppose this approval during the comment period, the direct final rule will become effective on the date it establishes, and we will not take further action on this proposal. If the EPA receives written adverse comments, the direct final rule will be withdrawn and all public comments received will be addressed in a subsequent final rule.
The EPA will not institute a second comment period on this action. Any parties interested in commenting on this action should do so at this time. For additional information, see the direct final rule which is located in the Rules section of this Federal Register.

Authority: This action is issued under the authority of sections 2002, 4005 and 4010(c) of the Solid Waste Disposal Act, as amended, 42 U.S.C. 6902, 6945 and 6949(a).

Endangered and Threatened Wildlife and Plants; Listing and Designation of Critical Habitat for Taylor’s Checkerspot Butterfly, Streaked Horned Lark, and Four Subspecies of Mazama Pocket Gopher

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Proposed rule; reopening of comment period.

SUMMARY: We, the U.S. Fish and Wildlife Service (Service), announce the reopening of the comment period on our October 11, 2012 (77 FR 61938), proposal to list Taylor’s checkerspot butterfly as endangered and streaked horned lark as threatened and to designate critical habitat, and on our December 11, 2012 (77 FR 73770), proposal to list four subspecies of Mazama pocket gopher (Olympia, Tenino, Yelm, and Roy Prairie) and to designate critical habitat, under the Endangered Species Act of 1973, as amended (Act). We also announce the availability of a draft economic analysis (DEA) of the proposed critical habitat designations and an amended required determinations section of the proposed designations. The draft economic analysis addresses the potential economic impacts of critical habitat designation for all six subspecies (collectively, the “prairie species”) under consideration in these rulemakings. In addition, we are providing information that we inadvertently omitted from the preamble to the October 11, 2012, proposed rule (77 FR 61938) to list Taylor’s checkerspot butterfly as endangered and streaked horned lark as threatened and to designate critical habitat. We are reopening the comment periods to allow all interested parties an opportunity to comment simultaneously on the proposed rules, the associated DEA, and our amended required determinations. Comments previously submitted on these proposed rulemakings do not need to be resubmitted, as they will be fully considered in preparation of the final rules. We also announce a public hearing and three public information workshops on our proposed rules and associated documents.

DATES: Written Comments: We will consider comments received on postmarked on or before May 3, 2013. Please note comments submitted electronically using the Federal eRulemaking Portal (see ADDRESSES) must be received by 11:59 p.m. Eastern Time on the closing date. Any comments that we receive after the closing date may not be considered in the final decisions on these actions.

Public Information Workshops: We will hold three public information workshops. Two in Olympia, Washington, for all six subspecies, on Tuesday, April 16, 2013, from 3 p.m. to 5 p.m. and from 6 p.m. to 8 p.m.; and another in Salem, Oregon, for Taylor’s checkerspot butterfly and streaked horned lark, on Wednesday, April 17, 2013, from 6 p.m. to 8 p.m. (see ADDRESSES).

Public Hearing: We will hold a public hearing in Lacey, Washington, on Thursday, April 18, 2013, from 3 p.m. to 5 p.m. and continuing from 6 p.m. to 8 p.m. (see ADDRESSES).
