Submission for OMB Review; Comment Request

Title: Federal Tax Offset, Administrative Offset, and Passport Denial.

OMB No.: 0970–0161.

Description: The Federal Tax Offset, Administrative Offset, and Passport Denial programs collect past-due child support by intercepting certain federal payments, including federal tax refunds, of parents who have been ordered to pay child support and who are behind in paying the debt. The program is a cooperative effort among the Department of the Treasury’s Financial Management Service, the federal Office of Child Support Enforcement (OCSE), and state child support enforcement (CSE) agencies. The Passport Denial program reports noncustodial parents who owe child support above a threshold to the Department of State, which will then deny passports to these individuals. On an ongoing basis, CSE agencies submit to OCSE the names, Social Security numbers, and the amount(s) of past-due child support of people who are delinquent in making child support payments.

Representatives: State IV–D Agencies.

BILLING CODE 4184–01–P
and families who have experienced maltreatment, exposure to violence, and/or trauma. This funding opportunity announcement (FOA) and other discretionary spending this fiscal year are designed to ensure that effective interventions are in place to build skills and capacities that contribute to the healthy, positive, and productive functioning of families.

Children, youth, and families who have experienced maltreatment, exposure to violence, and/or trauma are impacted along several domains, each of which must be addressed in order to foster social and emotional well-being and promote healthy, positive functioning:

- **Understanding Experiences:** A fundamental aspect of the human experience is the development of a world view through which one’s experiences are understood. Whether that perspective is generally positive or negative impacts how experiences are interpreted and integrated. For example, one may approach a challenge as a surmountable, temporary obstacle if his or her frame includes a sense that “things will turn out alright.” On the contrary, negative experiences can color how future experiences are understood. Ongoing exposure to family violence might lead children, youth, and adults to believe that relationships are generally hostile in nature and affect their ability to enter into and stay engaged in safe and healthy relationships. Interventions should seek to address how children, youth, and adults’ frames have happened to them in the past and shape their beliefs about the future.

- **Developmental Tasks:** People grow physically and psychosocially along a fairly predictable course, encountering normal challenges and establishing competencies as they pass from one developmental stage to another. However, adverse events have a marked effect on the trajectory of normal social and emotional development, delaying the growth of certain capacities, and, in many cases, accelerating the maturation of others. Intervention strategies must be attuned to the developmental impact of negative experiences and address related strengths and deficits to ensure children, youth, and families develop along a healthy trajectory.

- **Coping Strategies:** The methods that children, youth, and families develop to manage challenges both large and small are learned in childhood, honed in adolescence, and practiced in adulthood. Those who have been presented by stressors and opportunities to overcome them with appropriate encouragement and support are more likely to have an array of positive, productive coping strategies available to them as they go through life. For children, youth, and families who grew up in or currently live in unsafe, unpredictable environments, the coping strategies that may have been protective in the unsafe environments may not be appropriate for safer, more regulated situations. Interventions should help children, youth, and families transform maladaptive coping methods into healthier, more productive strategies.

- **Protective Factors:** A wealth of research has demonstrated that the presence of certain contextual factors (e.g., supportive relatives, involvement in after-school activities) and characteristics (e.g., self-esteem, relationship skills) can moderate the impacts of past and future negative experiences. These protective factors are fundamental to resilience; building them is integral to successful intervention with children, youth, and families.

The skills and capacities in these areas support children, youth, and families as challenges, risks, and opportunities arise. In particular, each domain impacts the capacity of children, youth, and families to establish and maintain positive relationships with caring adults and supportive peers. The necessity of these relationships to social and emotional well-being and lifelong success in school, community, and at home cannot be overstated and should be central to all interventions with vulnerable children, youth, and families.

An important component of promoting social and emotional well-being includes addressing the impact of trauma, which can have a profound effect on the overall functioning of children, youth, adults, and families. ACYF promotes a trauma-informed approach, which involves understanding and responding to the symptoms of chronic interpersonal trauma and traumatic stress across the domains outlined above, as well as the behavioral and mental health sequelae of trauma.

ACYF anticipates a continued focus on social and emotional well-being as a critical component of its overall mission to ensure positive outcomes for all children, youth, adults, and families.

**Annual State Domestic Violence Coalition Grantee Meeting**

Coalitions must send up to two representatives to the annual grantee meeting. Subsequent correspondence will advise Coalitions of the date, time, and location of their grantee meeting.

**Role of State Coalitions**

FVPSA directs Coalitions to work with family violence, domestic violence, and dating violence service programs and providers of direct services to encourage appropriate and comprehensive responses to family violence, domestic violence, and dating violence against adults or youth within the State involved, specifically including training and technical assistance and conducting State needs assessments (section 10411(d)(1)). Coalitions are required to coordinate and collaborate with the State FVPSA Administrators, community-based programs, and culturally specific organizations, including those serving racial and ethnic minorities, to plan and conduct State needs assessments and participate in State planning processes. These assessments are particularly important, not just, to identify and assess service gaps, but to include a diversity of stakeholders in the planning and decision-making process for needs assessments and to inform State planning. Coalitions must also participate in the planning and monitoring of the distribution of FVPSA subgrants and contracts and the administration of the grant programs and projects awarded by the States to eligible entities (section 10411(d)(2)). Coalitions thus play an important role in helping programs develop and continue practices consistent with FVPSA guidance, including the promotion of trauma-informed services that help facilitate the social and emotional well-being of both victims and their children. Coalitions must include activities to ensure that programs maintain confidentiality and provide widely accessible services consistent with best practices in the field and applicable Federal, State, tribal, and local requirements, as well as helping programs comply with the FVPSA data collection and outcome measurement requirements. Each of these issues is described below:

- **Client Confidentiality**

  Coalitions have an important role in helping programs develop and continue practices consistent with FVPSA guidance. Programs funded by FVPSA must establish and implement policies and protocols for maintaining the safety, privacy, and confidentiality of adult, youth, and child victims of family violence, domestic violence, and dating violence, and their families (section 10406(c)(5)). Because it is required that the confidentiality of individuals receiving FVPSA services be protected, Coalitions must include activities to
ensure that local programs maintain confidentiality consistent with best practices in the field and applicable Federal, State, tribal, and local requirements. It is also highly recommended that the Coalition coordinate and collaborate with the State involving activities to assist programs in maintaining confidentiality requirements pursuant to section 10406(c)(3).

The FVPSA nondisclosure of confidential and private information provisions also mean that domestic violence programs must maintain confidentiality of records pertaining to any individual provided domestic violence services. As a result, individual identifiers in client records may not be disclosed when providing statistical data on program activities and program services. In the annual grantee Performance Progress Report (SF–PPR), States, tribes, and their subgrantees must collect unduplicated data for each program rather than unduplicated data across programs or statewide. No client-level data should be shared with a third party, regardless of encryption, hashing or other data security measures, without a written, time-limited release as described in section 10406(c)(5)(B)(ii).

b. Coordinated and Accessible Services

It is essential that community service providers, including those serving or representing underserved communities, are involved in the design and improvements of intervention and prevention activities to ensure that services are welcoming and accessible. Coordination and collaboration among victim services providers; community-based, culturally specific, and faith-based services providers; housing and homeless services providers; and, Federal, State, tribal, and local public officials and agencies is needed to provide more responsive and effective services to victims of family violence, domestic violence, and dating violence, and their dependents. As coalitions undertake these activities, it is expected that the communities and populations noted above will be included in coalition boards, committees, and other activities to ensure they are part of the decision making to create and maintain fully coordinated and accessible services.

To promote a more effective response to family violence, domestic violence, and dating violence, HHS requires the designated Coalitions receiving funds under this grant announcement to collaborate with tribes and tribal organizations. FVPSA-funded State grantees, service providers, and community-based organizations, to address the needs of family violence, domestic violence, and dating violence victims, and their dependents, who are members of racial and ethnic minority populations and underserved populations (section 10411(d)(3)); examples of such underserved populations include, but are not limited to, the Lesbian, Gay, Bisexual, and Transgender (LGBT) communities; adolescents; male victims; human trafficking victims; and immigrants.

Coalition training and technical assistance priorities should focus on building the capacity of domestic violence programs within the State to provide inclusive and culturally relevant services for the underserved populations identified in their planning. All populations identified in planning should also be a part of determining the training and technical assistance priorities to improve the capacity of programs to serve such populations.

ACYF/FYSB also strongly encourages Coalitions to consider the needs of LGBT youth and adults and how their programming and, therefore, the training and technical assistance provided member programs, will be inclusive and non-stigmatizing for program participants from these communities.

To serve victims most in need and to comply with Federal law, services must be widely accessible. Services must not discriminate on the basis of age, disability, sex, race, color, national origin, or religion (section 10406(c)(2)). The HHS Office for Civil Rights provides guidance to grantees in complying with civil rights laws that prohibit discrimination on these bases. Please see www.hhs.gov/ocr/civilrights/understanding/index.html. HHS also provides guidance to recipients of Federal financial assistance on meeting the legal obligation to take reasonable steps to provide meaningful access to federally assisted programs by persons with limited English proficiency. Please see www.hhs.gov/ocr/civilrights/resources/laws/revisedlep.html.

Additionally, HHS provides guidance regarding access to HHS-funded services for immigrant survivors of domestic violence. Please see www.hhs.gov/ocr/civilrights/resources/specialtopics/origin/domesticviolencefactsheet.html.

Services must also be provided on a voluntary basis; receipt of emergency shelter or housing must not be conditioned on participation in supportive services (section 10408(d)(2)).

c. Trauma-Informed Programming

ACYF promotes a trauma-informed approach, which involves understanding and responding to the symptoms of chronic interpersonal trauma and traumatic stress across the lifespan. Coalitions are uniquely situated to provide support to domestic violence programs in order to ensure that trauma-informed interventions are at the core of working with victims and their children. As Coalitions plan their training and technical assistance priorities, they must include responses that help support trauma-informed services among their member programs to ensure positive outcomes for all service populations. Coalitions must also coordinate and collaborate with the Domestic Violence Resource Network (the FVPSA-funded National Resource, Special Issue Resource, and Culturally-Specific Resource Centers) to inform their knowledge and practices to promote trauma-informed interventions among their member programs.

II. Award Information

Subject to the availability of Federal appropriations and as authorized by the FVPSA (section 10403), HHS will make available in FY 2013, 2014, and 2015 grants to the designated, statewide, domestic violence Coalitions described in this announcement. Each year, one grant will be available for one Coalition in each of the 50 States, the District of Columbia, the Commonwealth of Puerto Rico, and the Virgin Islands, Northern Mariana Islands, and American Samoa) is also eligible for a grant award under this announcement.

Length of Project Periods

Coalitions may apply for one grant annually with an accompanying 12-month budget narrative and SF–424. The project period is 24 months under this FOA for each fiscal year. Coalitions must address their anticipated activities for a 2-year project period: (FY 2013) October 1, 2012–September 30, 2014; (FY 2014) October 1, 2013–September 30, 2015; (FY 2015) October 1, 2014–September 30, 2016. FVPSA will continue to disperse funds annually pursuant to annual applications and award processes.

Expenditure Period

The FVPSA funds may be used for expenditures on or after October 1 of each fiscal year for which they are granted and will be available for expenditure through September 30 of the following fiscal year; i.e., FY 2013 funds may be used for expenditures from October 1, 2012, through September 30, 2014; (FY 2014) October
III. Eligibility Information

In accordance with sections 10402(11) and 10411(c)(1), to be eligible for grants under this FOA an organization must be designated as a statewide, private, 501(c)(3) nonprofit, non-governmental domestic violence coalition as of the date of this announcement. A list of the designated State domestic violence coalitions is found in Appendix D. Designated coalitions must continue to meet the following criteria:

The membership of the Coalition includes a majority of the primary-purpose domestic violence service providers in the State (a Coalition may include representatives of Indian tribes and tribal organizations as defined in the Indian Self-Determination and Education Assistance Act). A primary-purpose domestic violence service provider is one that operates a project of demonstrated effectiveness, carried out by a nonprofit, nongovernmental, private entity or a tribe or tribal organization, that has as its project’s primary purpose the operation of shelters for victims of domestic violence and their dependents; or provides counseling, advocacy, or self-help services to victims of domestic violence;

The board membership of the Coalition is representative of the primary-purpose domestic violence service providers in the State and may include representatives of the communities in which the services are being provided in the State; in order for statewide needs assessments and other organizational and State planning to be fully informed directly by stakeholders from diverse communities, it is expected that the Coalition board will reflect the cultural, racial, and ethnic populations that the Coalition serves throughout the State;

The purpose of the Coalition is to provide education, support, and technical assistance to the primary-purpose domestic violence service providers and providers of direct services in the State in order to establish and maintain shelter and supportive services for victims of domestic violence and their dependents;

The Coalition serves as an information clearinghouse, primary point of contact, and resource center on domestic violence for the State and supports the development of policies, programs, and procedures to enhance domestic violence intervention and prevention in the State.

Additional Information on Eligibility

DUNS Number Requirement

Data Universal Numbering System (DUNS) Number is the nine-digit, or thirteen-digit (DUNS + 4), number established and assigned by Dun and Bradstreet, Inc. (D&B) to uniquely identify business entities.

All applicants and sub-recipients must have a DUNS number at the time of application. In order to be considered for a grant or cooperative agreement, a DUNS number is required whether an applicant is submitting a paper application or using the Government-wide electronic portal, www.Grants.gov. A DUNS number is required for every application for a new award or renewal/continuation of an award, including applications or plans under formula, entitlement, and block grant programs. A DUNS number may be acquired at no cost online at http://fedgov.dnb.com/webform. To acquire a DUNS number by phone, contact the D&B Government Customer Response Center:

Alaska and Puerto Rico: 1–800–234–3867 (Select Option 2, then Option 1)

Monday–Friday 7 a.m. to 8 p.m., CST

The process to request a DUNS Number by telephone will take between 5 and 10 minutes.

SAM Requirement (www.Sam.gov)

The System for Award Management (SAM) at www.sam.gov is a new system that consolidates the capabilities of a number of systems that support Federal procurement and award processes. Phase 1 of SAM includes the capabilities previously provided via Central Contractor Registration (CCR)/Federal Agency Registration (FedReg), Online Representations and Certifications Application (ORCA), and the Excluded Parties List System (EPLS).

SAM is the Federal registrar database and repository into which an entity must provide information required for the conduct of business as a recipient. The former CCR Web site is no longer available. All information previously held in the Central Contractor Registration (CCR) system has been migrated to SAM.gov.

Applicants are strongly encouraged to register at SAM well in advance of the application due date. Registration at SAM.gov must be updated annually.

Note: It can take 24 hours or more for updates to registrations at SAM.gov to take effect. An entity’s registration will become active after 3–5 days. Therefore, check for active registration well before the application due date and deadline. An applicant can view their registration status by visiting http://www.hhs.gov/CCRSearch/Search.aspx and searching by their organization’s DUNS number.

HHS requires all entities that plan to apply for, and ultimately receive, Federal grant funds from any HHS Agency, or receive subawards directly from recipients of those grant funds to:

• Be registered in at Sam.gov prior to submitting an application or plan;

• Maintain an active registration at www.sam.gov with current information at all times during which it has an active award or an application or plan under consideration by an HHS agency; and

• Provide its active DUNS number in each application or plan it submits to an HHS agency.

ACF is prohibited from making an award to an applicant has not complied with these requirements. If, at the time an award is ready to be made, if the intended recipient has not complied with these requirements, ACF:

• May determine that the applicant is not qualified to receive an award; and

• May use that determination as a basis for making an award to another applicant.

Additionally, all first-tier subaward recipients (i.e., direct subrecipients) must have an active DUNS number at the time the subaward is made.

IV. Application Requirements

This section includes application requirements for FVPSA grants for Coalitions, as follows:

Content of Application Submission

The Coalition application must be signed by the Executive Director of the Coalition or the official designated as responsible for the administration of the grant. The application must contain the following information:

(1) A description of the process and anticipated outcomes (including timelines and specific activities that lead to desired outcomes) of utilizing these Federal funds to work with family violence, domestic violence, and dating violence service programs and providers of direct services to encourage appropriate and comprehensive responses to family violence, domestic violence, and dating violence against adults or youth within the State,

Note: It can take 24 hours or more for updates to registrations at SAM.gov to take effect. An entity’s registration will become active after 3–5 days. Therefore, check for active registration well before the application due date and deadline. An applicant can view their registration status by visiting http://www.hhs.gov/CCRSearch/Search.aspx and searching by their organization’s DUNS number.

HHS requires all entities that plan to apply for, and ultimately receive, Federal grant funds from any HHS Agency, or receive subawards directly from recipients of those grant funds to:

• Be registered in at Sam.gov prior to submitting an application or plan;

• Maintain an active registration at www.sam.gov with current information at all times during which it has an active award or an application or plan under consideration by an HHS agency; and

• Provide its active DUNS number in each application or plan it submits to an HHS agency.

ACF is prohibited from making an award to an applicant has not complied with these requirements. If, at the time an award is ready to be made, if the intended recipient has not complied with these requirements, ACF:

• May determine that the applicant is not qualified to receive an award; and

• May use that determination as a basis for making an award to another applicant.

Additionally, all first-tier subaward recipients (i.e., direct subrecipients) must have an active DUNS number at the time the subaward is made.

Washington, DC 20024

**V. Award Administration Information**

**Administrative and National Policy Requirements**

Awards issued under this announcement are subject to the uniform administrative requirements and cost principles of 45 CFR Part 74 (Awards and Subawards to Institutions of Higher Education, Hospitals, Other Nonprofit Organizations, and Commercial Organizations) or 45 CFR Part 92 (Grants and Cooperative Agreements to State, Local, and Tribal Governments). The Code of Federal Regulations (CFR) is available at www.gpo.gov.

An application funded with the release of Federal funds through a grant award, does not constitute, or imply, compliance with Federal regulations. Funded organizations are responsible for ensuring that their activities comply with all applicable Federal regulations.

**Equal Treatment for Faith-Based Organizations**

Grantees are also subject to the requirements of 45 CFR 87.1(c), Equal Treatment for Faith-Based Organizations, which says, 

“Organizations that receive direct financial assistance from the [Health and Human Services] Department under any Department program may not engage in inherently religious activities such as worship, religious instruction, or proselytization, as part of the programs or services funded with direct financial assistance from the Department.” Therefore, organizations must take steps to completely separate the presentation of any program with religious content from the presentation of the Federally funded program by time or location in such a way that it is clear that the two programs are separate and distinct. If separating the two programs by time but presenting them in the same location, one program must completely end before the other program begins.

A faith-based organization receiving HHS funds retains its independence from Federal, State, and local governments, and may continue to carry out its mission, including the definition, practice, and expression of its religious beliefs. For example, a faith-based organization may use space in its facilities to provide secular programs or services funded with Federal funds without removing religious art, icons, scriptures, or other religious symbols. In addition, a faith-based organization that receives Federal funds retains its authority over its internal governance, and it may retain religious terms in its organization’s name, select its board members on a religious basis, and include religious references in its organization’s mission statements and other governing documents in accordance with all program requirements, statutes, and other applicable requirements governing the conduct of HHS-funded activities.

Regulations pertaining to the Equal Treatment for Faith-Based Organizations, which includes the prohibition against Federal funding of inherently religious activities, “Understanding the Regulations Related to the Faith-Based and Neighborhood Partnerships Initiative” are available at www.hhs.gov/partnerships/about/regulations/. Additional information, resources, and tools for faith-based organizations is available through The Center for Faith-based and Neighborhood Partnerships Web site at www.hhs.gov/partnerships/index.html and at the Administration for Children & Families: Toolkit for Faith-based and Community Organizations.

**Requirements for Drug-Free Workplace**

The Drug-Free Workplace Act of 1988 (41 U.S.C. 8102 et seq.) requires that all organizations receiving grants from any Federal agency agree to maintain a drug-free workplace. By signing the application, the Authorizing Official agrees that the grantee will provide a drug-free workplace and will comply with the requirement to notify ACF if an employee is convicted of violating a criminal drug statute. Failure to comply with these requirements may be cause for debarment. Government-wide requirements for Drug-Free Workplace for Financial Assistance are found in 2 CFR part 182; HHS implementing regulations are set forth in 2 CFR 382.400. All recipients of ACF grant funds must comply with the requirements in Subpart B—

Requirements for Recipients Other Than Individuals, 2 CFR 382.225. The rule is available at http://ecfr.gpoaccess.gov/cgi/t/text/text-idx?c=ecfr;sid=18b5801410be6d416dc258875ff7b7ec;rgn=div2;view=text;node=20091112%3A1.1;idno=49;cc=ecfr.

**Debarment and Suspension**

HHS regulations published in 2 CFR part 376 implement the government-wide debarment and suspension system guidance (2 CFR part 180) for HHS’ non-procurement programs and activities. “Non-procurement transactions” include, among other things, grants, cooperative agreements, scholarships, fellowships, and loans. ACF implements the HHS Debarment and Suspension regulations as a term and condition of award. Grantees may decide the method and frequency by which this determination is made and may check the Excluded Parties List System (EPLS) located at www.sam.gov/, although checking the EPLS is not required. More information is available at www.acf.hhs.gov/grants/grants_resources.html.

**Pro-Children Act**

The Pro-Children Act of 2001, 20 U.S.C. 7181 through 7184, imposes restrictions on smoking in facilities where federally funded children’s services are provided. HHS grants are subject to these requirements only if they meet the Act’s specified coverage. The Act specifies that smoking is prohibited in any indoor facility (owned, leased, or contracted for) used for the routine or regular provision of kindergarten, elementary, or secondary education or library services to children under the age of 18. In addition, smoking is prohibited in any indoor facility or portion of a facility (owned, leased, or contracted for) used for the routine or regular provision of federally funded health care, day care, or early childhood development, including Head Start services, to children under the age of 18. The statutory prohibition also applies if such facilities are constructed, operated, or maintained with Federal funds. The statute does not apply to children’s services provided in private residences, facilities funded solely by Medicare or Medicaid funds, portions of facilities used for inpatient drug or alcohol treatment, or facilities where WIC coupons are redeemed. Failure to comply with the provisions of the law may result in the imposition of a civil monetary penalty of up to $1,000 per violation and/or the imposition of an administrative compliance order on the responsible entity.
VI. Reporting Requirements
