The Department seeks extension of the current approval to collect this information. An extension is necessary because the LMRDA explicitly requires the reporting and establishes the frequency of the required filings. The information collected by OLMS is used by union members to help self-govern their unions, by workers making decisions regarding their collective bargaining rights, by the general public, and as research material for both outside researchers and within the Department. The information is also used to assist the Department and other government agencies in detecting improper practices on the part of labor organizations, their officers and/or representatives, and is used by Congress in oversight and legislative functions.

The total burden for the Labor Organization and Auxiliary Reports information collection is summarized as follows:

**Type of Review:** Extension.

**Agency:** DOL—OLMS.

**Title of Collection:** Labor Organization and Auxiliary Reports.

**OMB Control Number:** 1245–0003.

**Affected Public:** Private Sector—businesses or other for-profits, farms, not-for-profit institutions, and individuals or households.

**Total Estimated Number of Responses:** 31,499.

**Total Estimated Annual Burden Hours:** 4,582,111.

**Total Estimated Annual Other Costs Burden:** $0.

Comments submitted in response to this notice will be summarized and/or included in the request for the Office of Management and Budget (OMB) approval of the information collection request; they will also become a matter of public record. The Department notes that it has a pending rulemaking concerning two of the reports included in the Labor Organization and Auxiliary Reports information collection: the Form LM–10 Employer Report and the Form LM–20 Agreement and Activities Report filed by labor relations consultants. See 76 FR 37792. The Department received comments on those estimates during the rulemaking, and it will respond to such comments in any final rule issued, as well as in any separate request for amendment to the information collection submitted to OMB in the context of that rulemaking.

Andrew R. Davis,

[FR Doc. 2013–08050 Filed 4–5–13; 8:45 am]
II. Desired Focus of Comments
The Mine Safety and Health Administration (MSHA) is soliciting comments concerning the proposed extension of the information collection related to high-voltage continuous mining machine standards for underground coal mines. MSHA is particularly interested in comments that:
- Evaluate whether the collection of information is necessary for the proper performance of the functions of the agency, including whether the information has practical utility;
- Evaluate the accuracy of the MSHA’s estimate of the burden of the collection of information, including the validity of the methodology and assumptions used;
- Suggest methods to enhance the quality, utility, and clarity of the information to be collected; and
- Address the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology (e.g., permitting electronic submissions of responses), to minimize the burden of the collection of information on those who are to respond.

The public may examine publicly available documents, including the public comment version of the supporting statement, at MSHA, Office of Standards, Regulations, and Variances, 1100 Wilson Boulevard, Room 2350, Arlington, VA 22209–3939. OMB clearance requests are available on MSHA’s Web site at http://www.msha.gov under “Federal Register Documents” on the right side of the screen by selecting “New and Existing Information Collections and Supporting Statements”. The document will be available on MSHA’s Web site for 60 days after the publication date of this notice. Comments submitted in writing or in electronic form will be made available for public inspection on regulations.gov. Because comments will not be edited to remove any identifying or contact information, MSHA cautions the commenter against including any information in the submission that should not be publicly disclosed.

Questions about the information collection requirements may be directed to the person listed in the FOR FURTHER INFORMATION section of this notice.

III. Current Actions
The information obtained from mine operators is used by MSHA during inspections to determine compliance with safety and health standards. MSHA has updated the data in respect to the number of respondents and responses, as well as the total burden hours and burden costs supporting this information collection request.

MSHA does not intend to publish the results from this information collection and is not seeking approval to either display or not display the expiration date for the OMB approval of this information collection.

There are no certification exceptions identified with this information collection and the collection of this information does not employ statistical methods.

Summary
Type of Review: Revision of a currently approved information collection.
Agency: Mine Safety and Health Administration.
Title: High-Voltage Continuous Mining Machines Standards for Underground Coal Mines.
OMB Number: 1219–0140.
Affected Public: Business or other for-profit.
Cite/Reference/Form/etc.: 30 CFR 75.829, 75.831, and 75.832.
Total Number of Respondents: 5.
Frequency: Various.
Total Number of Responses: 2,980.
Total Burden Hours: 384 hours.
Total Other Annual Cost Burden: $0.
Comments submitted in response to this notice will be summarized and included in the request for Office of Management and Budget approval of the information collection request; they will also become a matter of public record.

George F. Triebisch,
Certifying Officer.

DEPARTMENT OF LABOR

Department of Energy Facilities Covered Under the Energy Employees Occupational Illness Compensation Program Act of 2000, as Amended
AGENCY: Office of Workers’ Compensation Programs, Labor.
ACTION: Notice of revision of listing of covered Department of Energy facilities.

SUMMARY: The Office of Workers’ Compensation Programs (OWCP) is publishing a list of Department of Energy (DOE) facilities covered under the Energy Employees Occupational Illness Compensation Program Act of 2000, as amended (EEOICPA). This notice revises and republishes the listing of DOE facilities that was last published by OWCP on March 6, 2012 (77 FR 13360) to include an additional determination made on this subject through April 5, 2013.

FOR FURTHER INFORMATION CONTACT:
Rachel P. Leiton, Director, Division of Energy Employees’ Occupational Illness Compensation Programs, Office of Workers’ Compensation Programs, U.S. Department of Labor, Room C–3321, 200 Constitution Avenue NW., Washington, DC 20210. Telephone: 202–693–0081 (this is not a toll-free number).

ADDRESSES: OWCP welcomes comments regarding this list. Individuals who wish to suggest changes to this list may provide information to OWCP at the following address: U.S. Department of Labor, Office of Workers’ Compensation Programs, Division of Energy Employees Occupational Illness Compensation, Room C–3321, 200 Constitution Avenue NW., Washington, DC 20210. You may also suggest changes to this list by email at DEEOIC-Public@dol.gov. You should include “DOE facilities list” in the subject line of any email containing comments on this list.

SUPPLEMENTARY INFORMATION:
I. Background
The Energy Employees Occupational Illness Compensation Program Act of 2000, as amended (42 U.S.C. 7384 et seq.), was originally enacted on October 30, 2000, and the primary responsibility for administering EEOICPA was assigned to the Department of Labor (DOL) by Executive Order 13179 (65 FR 77487). In section 2(c)(vii) of that Executive Order, DOE was directed to publish a list in the Federal Register of Atomic Weapons Employer (AWE) facilities, DOE facilities, and facilities owned and operated by a Beryllium Vendor (as those terms are defined in sections 73841(5), 73841(12) and 73841(6) of EEOICPA, respectively). Pursuant to this direction, DOE published a list of these three types of facilities covered under EEOICPA on January 17, 2001 (66 FR 4003), and subsequently revised and republished the entire list on June 11, 2001 (66 FR 31218), December 27, 2002 (67 FR 79068), July 21, 2003 (68 FR 43095) and August 23, 2004 (69 FR 51825). In subsequent notices published on November 30, 2005 (70 FR 71815), June 28, 2007 (72 FR 35448), April 9, 2009 (74 FR 16191), August 3, 2010 (75 FR 45608), May 26, 2011 (76 FR 30695), February 6, 2012 (77 FR 3781) and February 11, 2013 (78 FR 9678). DOE further revised the August 23, 2004 list by formally removing a total of 16 AWE
