SUPPLEMENTARY INFORMATION: This proposal relates to deletions of certain area designations for total suspended particulate (TSP) in the State of Nevada. Specifically, EPA proposes to delete the attainment or unclassifiable areas for total suspended particulate in Clark County as well as the following nonattainment areas for total suspended particulate elsewhere within the State of Nevada: Carson Desert, Winnemucca Segment, Lower Reese Valley, Fernley Area, Mason Valley, and Clowers Area.

EPA is proposing this action under section 107(d)(4)(B) of the Clean Air Act based on the Agency’s determination that the TSP designations for these areas are no longer necessary.

In the Rules and Regulations section of this Federal Register, EPA is deleting these area designations in a direct final rule without prior proposal because the Agency views this as a non-controversial action and anticipates no adverse comments. A detailed rationale for the deletions is set forth in the preamble to the direct final rule. If EPA receives no adverse comments, EPA will not take further action on this proposed rule. If EPA receives adverse comments, EPA will publish a timely withdrawal of the direct final rule in the Federal Register to notify the public that the direct final rule will not take effect. EPA will address all public comments in a subsequent final rule based on this proposed rule. EPA will not institute a second comment period on this action.

Any parties interested in commenting must do so at this time. Please note that if EPA receives adverse comment on an amendment, paragraph, or section of this rule and if that provision may be severed from the remainder of the rule, EPA may adopt as final those provisions of the rule that are not the subject of an adverse comment. For additional information, please see the direct final rule of the same title which is located in the Rules and Regulations section of this Federal Register.

Dated: April 1, 2013.

Regional Administrator, Region IX.
