SUPPLEMENTARY INFORMATION:

Executive Summary

I. Purpose of the Regulatory Action

To establish DoD policy, assign responsibilities, and prescribe procedures for implementation and use of the multi-disciplinary Family Advocacy Command Assistant Team to respond to allegations of child sexual abuse in DoD-sanctioned childcare and youth activities.

a. The need for the regulatory action and how the action will meet that need.

Child sexual abuse allegations in DoD-sanctioned childcare and youth activities require a coordinated community response between law enforcement, child protection agencies, and the setting from which the allegation arose. Local teams who may not be sufficiently resourced to conduct large scale investigations and coordinate an effective multi-level response can request the deployment and support of the FACAT to foster cooperation among the DoD, other Federal agencies, and responsible civilian authorities when addressing allegations of child sexual abuse in DoD-sanctioned activities; promote timely and comprehensive reporting of all allegations; and actively seek prosecution of alleged perpetrators to the fullest extent of the law.

b. Succinct statement of legal authority for the regulatory action (explaining, in brief, the legal authority laid out later in the preamble).

Section 1794 of title 10, United States Code (U.S.C.) requires the Secretary of Defense to maintain a special task force to respond to allegations of widespread child abuse at a military installation. The task force shall be composed of personnel from appropriate disciplines, including, medicine, psychology, and child development. This task force will provide assistance to the commander of the installation, and to parents at the installation, to effectively deal with the allegations.

II. Summary of the Major Provisions of the Regulatory Action in Question

a. This regulatory action establishes a DoD multi-disciplinary Family Advocacy Command Assistant Team (FACAT) to support local installation personnel in responding to extramilitary child sexual abuse allegations in DoD sanctioned childcare and youth activities.

b. The deployment of the FACAT provides a coordinated and comprehensive DoD response to assist the Military Department upon DoD Component request to address allegations when local resources are limited.

c. The goal of the FACAT is to foster cooperation among the DoD, other Federal agencies, and responsible civilian authorities when addressing allegations of extramilitary child sexual abuse in DoD-sanctioned activities, to ensure the timely and comprehensive reporting of all incidents to the appropriate authorities, and to seek prosecution of alleged perpetrators to the fullest extent of the law when appropriate.

III. Costs and Benefits

The benefit to the Department and to the public is to provide safe and secure environments for children of DoD personnel and their families by promoting a coordinated community response to allegations of child sexual abuse arising in DoD-sanctioned childcare and youth activities settings.

The deployment of the FACAT to support local communities ensures that alleged offenders are identified, assessed, investigated, and prosecuted to the full extent of the law. Further, the multidisciplinary and well-coordinated approach promotes the identification of all potential child victims and provides a safe and secure setting for these children to be interviewed, assessed, and supported.

Per Section 1794 of Title 10, United States Code, this rule has an internal reporting requirement that will cost the Department of Defense $600 annually. Costs for this program include salaries of government employees, training costs of approximately $30,000 every three years, and up to $15,000 to deploy a FACAT of five team members per response. There were no FACATs deployed in FY 2011, and there was one FACAT deployed in FY 2010. The cost of the FY 2010 deployment was approximately $7,500.
