### SUPPLEMENTARY INFORMATION:

**Additions:**

On 2/8/2013 (78 FR 9386–9387); 2/22/2013 (78 FR 12296–12297); 3/1/2013 (78 FR 13868–13869); and 3/8/2013 (78 FR 15000), the Committee for Purchase From People Who Are Blind or Severely Disabled published notices of proposed additions to the Procurement List.

After consideration of the material presented to it concerning capability of qualified nonprofit agencies to provide the products and services and impact of the additions on the current or most recent contractors, the Committee has determined that the products and services listed below are suitable for procurement by the Federal Government under 41 U.S.C. 8501–8506 and 41 CFR 51–2.4.

#### Regulatory Flexibility Act Certification

I certify that the following action will not have a significant impact on a substantial number of small entities. The major factors considered for this certification were:

1. The action will not result in any additional reporting, recordkeeping or other compliance requirements for small entities other than the small organizations that will furnish the products and services to the Government.
2. The action will result in authorizing small entities to furnish the products and services to the Government.
3. There are no known regulatory alternatives which would accomplish the objectives of the Javits-Wagner-O’Day Act (41 U.S.C. 8501–8506) in connection with the products and services proposed for addition to the Procurement List.

Final Environmental Impact Statement for the Construction and Operation of an Infantry Platoon Battle Course at Pōhakuloa Training Area, Hawai‘i

AGENCY: Department of the Army, DoD.
ACTION: Notice of availability.

SUMMARY: The U.S. Army Pacific (USARPAC) and U.S. Army Garrison, Hawai‘i, (USAG–HI) propose to construct and operate a modern Infantry Platoon Battle Course (IPBC) and associated infrastructure that is compliant with current Army training requirements at Pōhakuloa Training Area (PTA), Hawai‘i. The proposed IPBC would support the live-fire collective training needs of the Army, Army Reserve, and Hawai‘i Army National Guard, as well as other Service components that are stationed or train in Hawai‘i.

Two alternatives were analyzed in the Draft Programmatic Environmental Impact Statement (PEIS), Southwest of Range 20, is not operationally feasible and has been eliminated from the Final EIS. The Army also considered a No Action Alternative to not build the IPBC. For all alternatives (except for the No Action), the IPBC would be used for 242 training days per year.

The Army identified and analyzed environmental and socioeconomic impacts associated with the proposed IPBC. The major potential environmental impacts are to air quality, cultural sites, threatened and endangered species, encountering munitions and explosives of concern, and igniting wildfires. Cultural resources could also be significantly impacted. The Army consulted with the USFWS on potential mitigation measures to protect federally-listed species. The USFWS issued a Biological Opinion (BO) pursuant to Section 7 of the Endangered Species Act on January 11, 2013. The Army also consulted with the State Historic Preservation Division, Advisory Council on Historic Preservation, and other consulting parties, including Native Hawaiian organizations, about potential effects on cultural resources and mitigation of those effects. The Army and the consulting parties are in the process of signing a Programmatic Agreement (PA) pursuant to Section 106 of the National Historic Preservation Act. The PA establishes how the remaining steps to the Section 106 consultation will be completed and the mitigation measures for the potential adverse effects on cultural resources. The PA will be signed prior to the Army issuing a Record of Decision for the proposed action.

DATES: The waiting period for the Final EIS will end 30 days after publication of the NOAA in the Federal Register by the U.S. Environmental Protection Agency.
