General Management Plan, Draft Environmental Impact Statement, Big Thicket National Preserve, Texas

ACTION: Notice of Availability.

SUMMARY: Pursuant to the National Environmental Policy Act of 1969, 42 U.S.C. 4332(2)(C), the National Park Service announces the availability of a Draft Environmental Impact Statement for the General Management Plan, Big Thicket National Preserve, Texas.

ADDRESSES: Information will be available for public review and comment online at <http://parkplanning.nps.gov/BITH>, in the office of the Superintendent, Doug Neighbor, 6044 FM 420, Kountze, TX 77625, 409-951-6801, and at the following location: Fire Management Office, 860 CR 1040, Woodville, TX 75997.

SUPPLEMENTARY INFORMATION: The document describes four management alternatives for Big Thicket National Preserve, including a no-action alternative and the National Park Service preferred alternative. The anticipated environmental impacts of those alternatives are also analyzed. *Alternative 1*, the no-action alternative, would extend existing conditions and management trends into the future. This alternative serves as a basis of comparison for evaluating the action alternatives. *Alternative 2*, the NPS preferred alternative, would support a broad ecosystem approach for preserve management using partnerships and collaboration. This alternative recognizes the challenges associated with management of cross-boundary resource issues and the importance of

encouraging partnerships to address and resolve resource issues. The National Park Service would proactively engage in regional planning and policy efforts for the benefit of resource protection, compatible visitor use, and other issues both within and outside the preserve boundaries. Initiatives that advance the long-term protection of the preserve's natural resources would receive the primary focus of management attention and funding. Appropriate visitor uses and experiences would also be improved and expanded. Preserve staff would expand and encourage new partnership agreements with outside public and private organizations. *Alternative 3* would emphasize natural resource preservation and research while providing self-reliant recreational opportunities. *Alternative 4* would seek to increase the importance of the preserve and the National Park Service to the people in the communities of southeast Texas and to visitors from all over the world.
