United Kingdom—Follow-On Support for Tomahawk Weapon System (TWS)

The United Kingdom (UK) has requested a possible sale of follow-on support for the Tomahawk Weapon System (TWS) to include missile modifications, maintenance, spare and repair parts, system and test equipment, engineering support, communications equipment, technical assistance, personnel training/equipment, and other related elements of logistics support. The estimated cost is $170 million.

The United Kingdom is a major political and economic power and a key democratic partner of the U.S. in ensuring peace and stability around the world.

The proposed sale of follow-on support will allow the United Kingdom to continue life cycle support of its TWS and maintain operational effectiveness. The United Kingdom requests support for this capability to provide for the safety of its deployed troops, regional security, and interoperability with the United States. The United Kingdom will have no difficulty absorbing this follow-on support into its armed forces.

The proposed sale of this follow-on support and equipment will not alter the basic military balance in the region.

The principal contractors will be Raytheon Missile Systems Company in Tucson, Arizona; Lockheed Martin in Manassas, Virginia; Valley Forge, Pennsylvania, and Marlton, New Jersey; The Boeing Company in St. Louis, Missouri; BAE North America in San Diego, California; COMGLOBAL in San Jose, California; and SAIC in Springfield, Virginia and Patuxent River, Maryland. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will require the assignment of one (1) U.S. Government and two (2) contractor representatives to the United Kingdom for the duration of this case.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

POLICY JUSTIFICATION
NATO—C–17 Follow-On Support

An international consortium made up of allies in the North Atlantic Treaty Organization (NATO) together with Sweden and Finland, requests a possible sale of follow-on contractor logistics support for NATO Airlift Management Program C–17 aircraft, to include participation in the Global Reach Improvement Program, alternate mission equipment, publications and technical data, spare and repair parts, support equipment, personnel training and training equipment, U.S. Government and contractor technical assistance and other related elements of logistics support. The estimated cost is $300 million.

This proposed sale of contractor logistics support will contribute to the foreign policy and national security objectives of the United States by improving the military capabilities of NATO and furthering weapon system standardization and interoperability with U.S. forces. NATO allies have used C–17 aircraft to increase the capability, usability, and deployability of their forces.

The proposed sale of support will allow the NATO Airlift Management Program Office to continue to maintain and operate NATO C–17s in support of NATO missions.

This prime contractor will be The Boeing Company in Huntington Beach, California. There are no known offset agreements proposed in connection with this potential sale.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.
