DEPARTMENT OF HOMELAND SECURITY

Coast Guard

33 CFR Part 165  
[Docket No. USCG–2013–0323]

RIN 1625–AA00

Safety Zone; High Water Conditions; Illinois River

AGENCY: Coast Guard, DHS.

ACTION: Temporary final rule.

SUMMARY: The Coast Guard is establishing a temporary safety zone on the Illinois River from Mile Marker 187.2 to Mile Marker 285.9. This zone is intended to place restrictions on vessels due to current extreme high-water conditions. This safety zone is necessary to protect the general public, levee systems, vessels, and tows from the hazards associated with flood waters and potential catastrophic failure of the Marseilles Dam.

DATES: This rule will be enforced with actual notice from April 26, 2013, until May 9, 2013. This rule is effective in the Code of Federal Regulations from May 9, 2013 until May 31, 2013.

ADDRESSES: Comments and material received from the public, as well as documents indicated in this preamble as being available in the docket, are part of docket USCG–2013–0323 and are available online at www.regulations.gov. This material is also available for inspection or copying at two locations: The Docket Management Facility (M–210), U.S. Department of Transportation, West Building Ground Floor, Room W12–140, 1200 New Jersey Avenue SE., Washington, DC 20590, between 9 a.m. and 5 p.m., Monday through Friday, except Federal holidays and the U.S. Coast Guard Sector Lake Michigan, 2420 South Lincoln Memorial Drive, Milwaukee, WI 53207, between 8 a.m. and 3 p.m., Monday through Friday, except Federal holidays.

FOR FURTHER INFORMATION CONTACT: If you have questions on this rule, contact MST1 Joseph McCollum, Prevention Department, Coast Guard Sector Lake Michigan, Milwaukee, WI at (414) 747–7148 or by email at Joseph.P.Mccollum@USCG.mil. If you have questions on viewing or submitting material to the docket, call Barbara Hairston, Program Manager, Docket Operations, telephone 202–366–9826.

A. Regulatory History and Information

On April 18, 2013, in light of dangerously high water conditions, the Coast Guard established a safety zone on the Illinois River from Mile Marker 187.2 to Mile Marker 285.9 (see USCG–2013–0323 docket for a copy of the previous regulation). The safety zone restricted recreational and commercial vessel transits in the zone without the permission of the Captain of the Port Lake Michigan. The safety zone has been effective and enforced since April 18, 2013 and expires on April 30, 2013. The Coast Guard is issuing this temporary final rule without prior notice and opportunity to comment pursuant to authority under section 4(a) of the Administrative Procedure Act (APA) (5 U.S.C. 553(b)). This provision authorizes an agency to issue a rule without prior notice and opportunity to comment when the agency for good cause finds that those procedures are “impracticable, unnecessary, or contrary to the public interest.” Under 5 U.S.C. 553(b)(B), the Coast Guard finds that good cause exists for not publishing a notice of proposed rulemaking (NPRM) with respect to this rule because doing so would be impracticable. The Coast Guard is issuing this rule in response to an immediate and emergency situation which involves river flooding—an act of nature. Thus, delaying the effective date of this rule to wait for a comment period to run would be impracticable because it would inhibit the Coast Guard’s ability to protect persons and vessels from the hazards, which are discussed further below, associated with extreme high water on the Illinois River.

Under 5 U.S.C. 553(d)(3), the Coast Guard finds that good cause exists for making this rule effective less than 30 days after publication in the Federal Register. For the same reasons discussed in the preceding paragraph, waiting for 30 day notice period to run would be impracticable and contrary to the public interest.

B. Basis and Purpose

Heavy and extended periods of rain during the first half of the month of April have resulted in dangerously high
waters within the Illinois River. High-water conditions are hindering navigation due to excessive debris and rapidly-flowing water. Current high-water conditions also threaten to damage critical infrastructure including river levees.

On April 18, 2013, as a result of these conditions, the Coast Guard established a safety zone on the Illinois River from Mile Marker 187.2 to Mile Marker 285.9 restricting recreational vessel transit and commercial vessel fleeting in the safety zone without the permission of the Captain of the Port. Since April 18, seven barges broke loose from their tow during an approach to the Marseilles Lock canal and lodged against the Marseilles Dam. Salvage operations are underway to recover the barges and a structural survey of the dam needs to be completed. In order to protect vessel traffic above the dam and ensure that salvage operations remain unimpeded a safety zone between mile marker 244 and mile marker 252 is being enforced to prohibit all vessels that are not directly engaged in the salvage operations. In response to these changes and to allow commerce to resume on the river, the Captain of the Port is issuing this temporary final rule. Enforcement of the restrictions in the prior temporary safety zone will be suspended.

The Captain of the Port, Sector Lake Michigan, has established the restrictions named within this regulation in response to the safety risks presented by the high water conditions, the potentially compromised dam, and ongoing salvage operations. The safety risks associated with these conditions include loss of vessel control, sinking, swamping, collisions, and allisions.

C. Discussion of Rule

The Captain of the Port, Sector Lake Michigan, has determined that a safety zone is necessary to mitigate the aforementioned safety risks. Thus, this rule establishes a safety zone that encompasses all waters of the Illinois River from Mile Marker 187.2 to Mile Marker 285.9. This rule will place restrictions on certain vessels so that no recreational vessel may transit this portion of the Illinois River. Furthermore, this rule will prohibit commercial vessels from transiting an area of the safety zone in which salvage operations are being conducted except by permission of the Captain of the Port, Sector Lake Michigan. This rule is effective and will be enforced from April 26, 2013, until May 31, 2013. The Coast Guard of Sector Lake Michigan will notify the public that this safety zone is being enforced by all appropriate means to the affected segments of the public including publication in the Federal Register as practicable, in accordance with 33 CFR 165.7(a). Such means of notification may also include, but are not limited to Broadcast Notice to Mariners or Local Notice to Mariners.

All persons and vessels shall comply with the instructions of the Captain of the Port, Sector Lake Michigan, or his or her designated on-scene representative. Entry into, transiting, or anchoring within the safety zone is prohibited unless authorized by the Captain of the Port, Sector Lake Michigan, or his or her designated on-scene representative. The Captain of the Port, Sector Lake Michigan, or his or her designated on-scene representative may be contacted via VHF Channel 16 or by contacting the Coast Guard Sector Lake Michigan Command Center at (414) 747–7182.

E. Regulatory Analysis

We developed this rule after considering numerous statutes and executive orders related to rulemaking. Below we summarize our analyses based on these statutes or executive orders.

1. Regulatory Planning and Review

This rule is not a significant regulatory action under section 3(f) of Executive Order 12866, Regulatory Planning and Review, as supplemented by Executive Order 13563, Improving Regulation and Regulatory Review, and does not require an assessment of potential costs and benefits under section 6(a)(3) of Executive Order 12866 or under section 1 of Executive Order 13563. The Office of Management and Budget has not reviewed it under that Order. It is not “significant” under the regulatory policies and procedures of the Department of Homeland Security (DHS). We conclude that this rule is not a significant regulatory action because we anticipate that it will have minimal impact on the economy, will not interfere with other agencies, will not adversely alter the budget of any grant or loan recipients, and will not raise any novel legal or policy issues. The safety zone created by this rule will be relatively small and enforced for a relatively short amount of time. Also, this safety zone is designed to minimize its impact on navigable waters. Furthermore, the safety zone has been designed to allow vessels to transit unrestricted to portions of the waterways not affected by the safety zones. Thus, restrictions on vessel movements within that particular area are expected to be minimal. Under certain conditions, moreover, vessels may still transit through the safety zone when permitted by the Captain of the Port, Sector Lake Michigan. On the whole, the Coast Guard expects insignificant adverse impact to mariners from the activation of this safety zone.

2. Impact on Small Entities

The Regulatory Flexibility Act of 1980 (RFA), 5 U.S.C. 601–612, as amended, requires federal agencies to consider the potential impact of regulations on small entities during rulemaking. The term “small entities” comprises small businesses, not-for-profit organizations that are independently owned and operated and are not dominant in their fields, and governmental jurisdictions with populations of less than 50,000. The Coast Guard certifies under 5 U.S.C. 605(b) that this rule would not have a significant economic impact on a substantial number of small entities. This rule will affect the following entities, some of which might be small entities: The owners or operators of vessels intending to transit or anchor within the portions of the Illinois River to which this regulation applies.

This safety zone will not have a significant economic impact on a substantial number of small entities for the following reasons: This rule will be enforced for a limited time during dangerous high-water conditions on the Illinois River. If you think that your business, organization, or governmental jurisdiction qualifies as a small entity and that this rule would have a significant economic impact on it, please submit a comment (see ADDRESSES) explaining why you think it qualifies and how and to what degree this rule would economically affect it.

3. Assistance for Small Entities

Under section 213(a) of the Small Business Regulatory Enforcement Fairness Act of 1996 (Pub. L. 104–121), we want to assist small entities in understanding this rule to that they can better evaluate its effects on them. If this rule would affect your small business, organization, or governmental jurisdiction and you have questions concerning its provisions or options for compliance, please contact the person listed in the FOR FURTHER INFORMATION CONTACT section above.

Small businesses may send comments on the actions of Federal employees who enforce, or otherwise determine compliance with, Federal regulations to the Small Business and Agriculture Regulatory Enforcement Ombudsman and the Regional Small Business Regulatory Fairness Boards. The Ombudsman evaluates these actions annually and rates each agency’s
responsiveness to small business. If you wish to comment on actions by employees of the Coast Guard, call 1–888–REG–FAIR (1–888–734–3247). The Coast Guard will not retaliate against small entities that question or complain about this rule or any policy or action of the Coast Guard.

4. Collection of Information
This rule calls for no new collection of information under the Paperwork Reduction Act of 1995 (44 U.S.C. 3501–3520).

5. Federalism
A rule has implications for federalism under Executive Order 13132. Federalism, if it has a substantial direct effect on the States, on the relationship between the national government and the States, or on the distribution of power and responsibilities among the various levels of government, We have analyzed this rule under that Order and determined that this rule does not have implications for federalism.

6. Unfunded Mandates Reform Act
The Unfunded Mandates Reform Act of 1995 (2 U.S.C. 1531–1538) requires Federal agencies to assess the effects of their discretionary regulatory actions. In particular, the Act addresses actions that may result in the expenditure by a State, local, or tribal government, in the aggregate, or by the private sector of $100,000,000 (adjusted for inflation) or more in any one year. Though this rule would not result in such an expenditure, we do discuss the effects of this rule elsewhere in this preamble.

7. Taking of Private Property
This rule will not affect the taking of private property or otherwise have taking implications under Executive Order 12630, Governmental Actions and Interference with Constitutionally Protected Property Rights.

8. Civil Justice Reform
This rule meets applicable standards in sections 3(a) and 3(b)(2) of Executive Order 12988, Civil Justice Reform, to minimize litigation, eliminate ambiguity, and reduce burden.

9. Protection of Children
We have analyzed this rule under Executive Order 13045, Protection of Children from Environmental Health Risks and Safety Risks. This rule is not an economically significant rule and would not create an environmental risk to health or risk to safety that might disproportionately affect children.

10. Indian Tribal Governments
This rule does not have tribal implications under Executive Order 13175. Consultation and Coordination with Indian Tribal Governments, because it does not have a substantial direct effect on one or more Indian tribes, on the relationship between the Federal Government and Indian tribes, or on the distribution of power and responsibilities between the Federal Government and Indian tribes.

11. Energy Effects
This action is not a “significant energy action” under Executive Order 13211, Actions Concerning Regulations That Significantly Affect Energy Supply, Distribution, or Use.

12. Technical Standards
This rule does not use technical standards. Therefore, we did not consider the use of voluntary consensus standards.

13. Environment
We have analyzed this rule under Department of Homeland Security Management Directive 023–01 and Commandant Instruction M16475.1D, which guide the Coast Guard in complying with the National Environmental Policy Act of 1969 (NEPA) (42 U.S.C. 4321–4370f), and have determined that this action is one of a category of actions that do not individually or cumulatively have a significant effect on the human environment. This rule involves the establishment of a safety zone, and thus, paragraph 34(g) of figure 2–1 in Commandant Instruction M16475.1D applies.

An environmental analysis checklist supporting this determination and a Categorical Exclusion Determination are available in the docket where indicated under ADDRESSES.

List of Subjects in 33 CFR Part 165
Harbors, Marine safety, Navigation (water), Reporting and record keeping requirements, Security measures, Waterways.

For the reasons discussed in the preamble, the Coast Guard amends 33 CFR part 165 as follows:

PART 165—REGULATED NAVIGATION AREAS AND LIMITED ACCESS AREAS

1. The authority citation for part 165 continues to read as follows:

2. Add § 165.T09–0323 to read as follows:

(a) Location. All waters of the Illinois River from Mile Marker 187.2 to Mile Marker 285.9.
(b) Effective Period. This safety zone will be effective and enforced from April 26, 2013, until May 31, 2013.
(c) Regulations. (1) Recreational vessels are prohibited from entering, transiting, or anchoring within this safety zone unless authorized by the Captain of the Port, Sector Lake Michigan.
(2) All vessels are prohibited from laying up on levees.
(3) Commercial vessels are authorized to transit, anchor, and conduct operations within this safety zone except from Mile Marker 244 to Mile Marker 252. Commercial vessels intending to transit this area must receive authorization from the Captain of the Port Sector Lake Michigan, or his designated representative. The Captain of the Port, Sector Lake Michigan or his on-scene representative may be contacted via VHF Channel 16, or by calling (630) 336–0300. Vessel operators given permission to enter or operate in the safety zone must comply with all directions given to them by the Captain of the Port, Sector Lake Michigan, or his on-scene representative. The “on-scene representative” of the Captain of the Port, Sector Lake Michigan is any Coast Guard commissioned, warrant or petty officer who has been designated by the Captain of the Port, Sector Lake Michigan to act on his behalf.

Dated: April 26, 2013.
M.W. Sibley,
Captain, U.S. Coast Guard, Captain of the Port, Sector Lake Michigan.

Coast Guard

33 CFR Part 165
[Docket No. USCG–2012–0199]

Safety Zone; Chicago Harbor, Navy Pier Southeast, Chicago, IL

AGENCY: Coast Guard, DHS.

ACTION: Notice of enforcement of regulation.

SUMMARY: The Coast Guard will enforce the Navy Pier Southeast Safety Zone in Chicago Harbor during specified periods
