SUPPLEMENTARY INFORMATION:

Background

Under 49 U.S.C. 31136(e) and 31315, FMCSA may grant an exemption from the Federal Motor Carrier Safety Regulations for a 2-year period if it finds “such exemption would likely achieve a level of safety that is equivalent to or greater than the level that would be achieved absent such exemption.” FMCSA can renew exemptions at the end of each 2-year period. The 25 individuals listed in this notice have each requested such an exemption from the vision requirement in 49 CFR 391.41(b)(10), which applies to drivers of CMVs in interstate commerce.

Accordingly, the Agency will evaluate the qualifications of each applicant to determine whether granting an exemption will achieve the required level of safety mandated by statute.

The modified Tribal Transit Program continues to be a set-aside from the Formula Grants for Rural Areas program but now consists of a $25 million formula program and a $5 million discretionary grant program subject to the availability of appropriations. Formula factors include vehicle revenue miles and the number of low-income individuals residing on tribal lands. Discretionary funds are available annually on a competitive basis.
