SUMMARY: To prevent a lapse in comprehensive primary care services for persons living with HIV/AIDS, HRSA will provide a one-time noncompetitive Ryan White HIV/AIDS Program Part C funds award to the Genesis Health Group (GHG), Davenport, Iowa.

SUPPLEMENTARY INFORMATION: The amount of the award to ensure ongoing HIV medical services is $429,112. Authority: Section 2651 of the Public Health Service Act, 42 U.S.C. 300ff–51

CFDA Number: 93.918

Project period: The period of support for this award is 15 months, explained below in further detail.

Justification for the Exception to Competition: The Community Health Care, Davenport, Iowa (Grant Number: H76HA00212) announced the relinquishment of their Part C grant on January 31, 2013. To prevent a lapse in HIV medical care, grant funds of $429,112 are to be awarded to GHG to provide interim HIV medical care. The $429,112 represents a proportional share of the last award to the Community Health Care to cover 15 months of HIV medical primary care services until the service area is competed for by July 1, 2014.

FOR FURTHER INFORMATION CONTACT: John Fanning, Public Health Analyst, Division of Community Based Programs/Southern Branch, HRSA, by mail at 5600 Fishers Lane, Rockville, MD 20857; by email at jfanning@hrsa.gov; or by phone at (301) 443–0493.

Dated: May 17, 2013.

Proposed Collection; 60-day Comment Request: Autism Spectrum Disorder Research Portfolio Analysis

SUMMARY: In compliance with the requirement of Section 3506(c)(2)(A) of the Paperwork Reduction Act of 1995, for opportunity for public comment on proposed data collection projects, the National Institute of Mental Health (NIMH), the National Institutes of Health (NIH) will publish periodic summaries of proposed projects to be submitted to the Office of Management and Budget (OMB) for review and approval.

Written comments and/or suggestions from the public and affected agencies are invited to address one or more of the following points: (1) Whether the proposed collection of information is necessary for the proper performance of the function of the agency, including whether the information will have practical utility; (2) The accuracy of the agency’s estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used; (3) The quality, utility, and clarity of the information to be collected; and (4) Minimize the burden of the collection of information on those who are to respond, including the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

To Submit Comments and For Further Information: To obtain a copy of the data collection plans and instruments, submit comments in writing, or request
Proposed Collection: Autism Spectrum Disorder (ASD) Research Portfolio Analysis, 0925—NEW—
National Institute of Mental Health (NIMH), National Institutes of Health (NIH).

Need and Use of Information Collection: The purpose of the ASD portfolio analysis is to collect research funding data from U.S. and international ASD research funders, to assist the Interagency Autism Coordinating Committee (IACC) in fulfilling the requirements of the Combating Autism Act, and to inform the committee and interested stakeholders of the funding landscape and current directions for ASD research. Specifically, these analyses will examine the extent to which current funding and research topics align with the IACC Strategic Plan for ASD Research. The findings will help guide future funding priorities by outlining current gaps and opportunities in ASD research as well as serving to highlight annual activities and research progress.

OMB approval is requested for three years. There are no costs to respondents other than their time. The total estimated annualized burden hours are 419.
