Committee Management Officer.

INFORMATION CONTACT

You may access publicly available documents online in the NRC Library at http://www.nrc.gov/adams.html. To begin the search, select “ADAMS Public Documents” and then select “Begin Web-based ADAMS Search.” For problems with ADAMS, please contact the NRC’s Public Document Room (PDR) reference staff at 1–800–397–4209, 301–415–4737, or by email to pdr.resource@nrc.gov. The ADAMS accession number for each document.

NUCLEAR REGULATORY COMMISSION

Notice of Availability.

SUMMARY: The U.S. Nuclear Regulatory Commission (NRC) is announcing the availability of Technical Specifications (TSs) Task Force (TSTF) Traveler TSTF–426, Revision 5, “Revise or Add Actions To Preclude Entry Into LCO 3.0.3—RITSTF Initiatives 6B & 6C,” and the Consolidated Line Item Improvement Process.

ADDRESS: Please refer to Docket ID NRC–2013–0007 when contacting the NRC about the availability of information regarding this document. You may access information related to this document, which the NRC possesses and is publicly available, using any of the following methods:
- NRC’s Agencywide Documents Access and Management System (ADAMS): You may access publicly available documents online in the NRC Library at http://www.nrc.gov/adams.html. To begin the search, select “ADAMS Public Documents” and then select “Begin Web-based ADAMS Search.”

FOR FURTHER INFORMATION CONTACT: Carol Gallagher; telephone: 301–492–3668; email: Carol.Gallagher@nrc.gov. For technical questions, contact the individual(s) listed in the FOR FURTHER INFORMATION CONTACT section of this document.
document referenced in this notice (if that document is available in ADAMS) is provided the first time that a document is referenced. TSTF–426, Revision 5, includes a model application and is available in ADAMS under Accession No. ML113260461. The model safety evaluation (SE) for plant-specific adoption of TSTF–426, Revision 5, is available in ADAMS under Accession No. ML13036A381. Minor editorial comments were received from the Notice of Opportunity for Public Comment announced in the Federal Register on January 17, 2013 (76 FR 3921); all comments were incorporated.

- NRC’s PDR: You may examine and purchase copies of public documents at the NRC’s PDR, Room O1–F21, One White Flint North, 11555 Rockville Pike, Rockville, Maryland 20852.

SUPPLEMENTARY INFORMATION: TSTF–426, Revision 5, is applicable to all Combustion Engineering-designed nuclear power plants. The change revises various TSs to add a Condition for loss of redundant features representing a loss of safety function for a system or component included within the scope of the plant TSs. It would replace Required Actions requiring either a default shutdown or explicit LCO 3.0.3 entry with a Required Action based on the risk significance for the system’s degraded condition. This STS improvement is part of the CLIIP.

The NRC staff has reviewed the model application for TSTF–426 and has found it acceptable for use by licensees. Licensees opting to apply for this TS change are responsible for reviewing the NRC’s staff SE and the applicable technical bases, providing any necessary plant-specific information, and assessing the completeness and accuracy of their license amendment request (LAR). The NRC will process each amendment application responding to the Notice of Availability according to applicable NRC rules and procedures.

The proposed changes do not prevent licensees from requesting an alternate approach or proposing changes other than those proposed in TSTF–426, Revision 5. However, significant deviations from the approach recommended in this notice or the inclusion of additional changes to the license require additional NRC staff review. This may increase the time and resources needed for the review or result in NRC staff rejection of the LAR. Licensees desiring significant deviations or additional changes should instead submit an LAR that does not claim to adopt TSTF–426, Revision 5.

Dated at Rockville, Maryland, this 20th day of May 2013.

For the Nuclear Regulatory Commission.

Anthony J. Mendiola,
Chief, Licensing Processes Branch, Division of Policy and Rulemaking, Office of Nuclear Reactor Regulation.

SECURITIES AND EXCHANGE COMMISSION

Collection of Information; Comment Request

Extension: Rule 17a–7, SEC File No. 270–147, OMB Control No. 3235–0131.

Rule 17a–7 requires a non-resident broker-dealer (generally, a broker-dealer with its principal place of business in a place not subject to the jurisdiction of the United States) registered or applying for registration pursuant to Section 15 of the Exchange Act to maintain—in the United States—complete and current copies of books and records required to be maintained under any rule adopted under the Exchange Act and furnish to the Commission a written notice specifying the address where the copies are located. Alternatively, Rule 17a–7 provides that non-resident broker-dealers may file with the Commission a written undertaking to furnish the requisite books and records to the Commission upon demand within 14 days of the demand.

There are approximately 51 non-resident brokers and dealers. Based on the Commission’s experience, the Commission estimates that the average amount of time necessary to comply with Rule 17a–7 is one hour per year. Accordingly, the total burden is approximately 51 hours per year. Assuming an average cost per hour of approximately $269 for a compliance manager, the total internal cost of compliance for the respondents is approximately $13,719 per year.

Written comments are invited on: (a) Whether the collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the Commission’s estimate of the burden of the collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology. Consideration will be given to comments and suggestions submitted in writing within 60 days of this publication.

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information under the PRA unless it displays a currently valid OMB control number. Please direct your written comments to: Thomas Bayer, Director/Chief Information Officer, Securities and Exchange Commission, c/o Remi Pavlik-Simon, 6432 General Green Way, Alexandria, Virginia 22312, or send an email to: PRA_Mailbox@sec.gov.

Dated: May 23, 2013.

Kevin M. O’Neill,
Deputy Secretary.

SECURITIES AND EXCHANGE COMMISSION

[Investment Company Act Release No. 30539; 812–13877]

ASA Gold and Precious Metals Limited; Notice of Application

May 22, 2013.

AGENCY: Securities and Exchange Commission (“Commission”).

ACTION: Notice of application under section 7(d) of the Investment Company Act of 1940 (the “Act”).
