

pursuant to Rule 19b-4(f)(6)(iii),<sup>13</sup> the Commission may designate a shorter time if such action is consistent with the protection of investors and the public interest. The Exchange has asked the Commission to waive the 30-day operative delay so that the proposal may become operative immediately upon filing. The Commission believes that waiving the 30-day operative delay is consistent with the protection of investors and the public interest because doing so will allow the Pilot Program to continue without interruption in a manner that is consistent with the Commission's prior approval of the extension and expansion of the Pilot Program and will allow the Exchange and the Commission additional time to analyze the impact of the Pilot Program. Accordingly, the Commission designates the proposed rule change as operative upon filing with the Commission.<sup>14</sup>

At any time within 60 days of the filing of the proposed rule change, the Commission summarily may temporarily suspend such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Act.

### SUPPLEMENTARY INFORMATION:

#### I. Background and Authority

The Regional Energy Resource Council is governed by the Federal Advisory Committee Act (5 U.S.C. Appendix 2), which sets forth standards for the formation and use of advisory committees. The Council will advise

TVA on its energy resource activities and the priorities among competing objectives and values. TVA's energy resource activities include constructing and operating various supply-side resources, including fossil-fueled power plants, nuclear plants, hydroelectric dams, and renewable resources; the development and management of demand-side resources, including energy efficiency; the design, construction, and operation of power delivery systems; and the integration of all of these energy resources into plans for meeting future demands for electricity in the TVA region.

#### II. Structure

The Council will consist of up to 20 members. Members of the Council will be chosen to ensure objectivity and balance in representation of a broad range of diverse views and interests, including environmental, industrial, business, consumer, educational, and community leadership interests. All members of the Council shall be persons possessing demonstrated professional or personal qualifications relevant to TVA's energy resource activities.

The Governors of Alabama, Georgia, Kentucky, Mississippi, North Carolina, Tennessee, and Virginia will each be asked to nominate a member to the Council, taking into account the need for a balanced and diverse membership. The Tennessee Valley Public Power Association and the Tennessee Valley Industrial Committee will each be asked to nominate members to represent the interests of distributors of TVA power and direct-served customers of TVA, respectively. The Council will also include at least two members representing each of the following interests: Non-governmental entity focused on environmental and/or energy issues, chamber of commerce or economic and community development, and academic or research center. TVA will appoint up to three additional members to ensure a balanced representation of a broad range of views. Members shall be considered representatives of the group, organization, or other entity identified by TVA in making the membership appointment.

In order to capture a broad range of fresh perspectives and advice in subsequent terms of the Council, TVA shall appoint not more than 14 of the Council members from the stakeholders who served on the Council during its previous term. This restriction shall not limit the ability of the Governors to re-nominate their appointees who served on the previous term of the Council.
