SUPPLEMENTARY INFORMATION:

Background

This proposed rule provides updates to the DOSAR Government Property coverage to correspond with current FAR requirements and to implement Department of State policies regarding Government Property. The proposed rule would make the following changes:

- Update DOSAR Part 645, Government Property to conform to the current version of FAR Part 45. FAR Part 45 was completely revised and re-structured in 2007. Part 45 has been updated since, most recently in April 2012. DOSAR Part 645 was last updated in 1999, and is therefore out of date.

- Add a new DOSAR provision and clause regarding management and reporting of Government-furnished and contractor-acquired property. The provision at DOSAR 652.245-70, Status of Property Management System, was inadvertently left out of the previously approved information collection and it is now being added to update the DOSAR rule. The provision requests information from offerors regarding their property management systems in order to comply with FAR 45.201(c), which says that the solicitation shall require all offerors to submit a description of the offeror's property management system, plan, and any customary commercial practices, voluntary consensus standards, or industry-leading practices and standards to be used by the offeror in managing Government property. Additionally, the Department must be able to determine if there will be a need for a review of the prospective contractor's property control system. The new clause at DOSAR 652.245-71, Accounting for Government Property, requests quarterly reporting of U.S. Department of State capitalized property which consists of the following:

- Highway motor vehicles and aircraft, regardless of cost, that are provided by the Government or acquired by a contractor for the Government;
- Software exceeding \$500,000 in value, including labor costs to develop, that is provided by the Government or acquired by a contractor for the account of the Government; and
- Personal property greater than \$25,000 (and not included in the above list) that is provided by the Government or acquired by the contractor for the account of the Government. The personal property must be complete

within itself; must not lose its identity or become a component part of other property when put into use; and is of a durable nature with an estimated useful life expectancy to exceed two years.

This clause is being added due to the need to obtain current data to support the Department of State (DOS) financial statements. From a financial accounting perspective, DOS must have a way of keeping track of its capital assets; therefore, this clause requires reporting of all personal property that meets the criteria for capitalization, as set forth in the Foreign Affairs Manual (FAM) at 4 FAM 734.2.

Regulatory Findings

Administrative Procedure Act

In accordance with provisions of the Administrative Procedure Act, the Department is publishing this proposed rule and inviting public comment.

Regulatory Flexibility Act

The Department of State, in accordance with the Regulatory Flexibility Act (5 U.S.C. 605(b)), has reviewed this regulation and, by approving it, certifies that this rule will not have a significant economic impact on a substantial number of small entities. This determination was based on the fact that the reporting requirements are targeted at a very narrow segment of government property and based on a determination that there are only 14 contractors who are currently subject to the reporting requirements of the clause. Only four of these are small business concerns. Thus, it was concluded that the rule will not have a significant economic impact on a substantial number of small entities.

Unfunded Mandates Act of 1995

This rule will not result in the expenditure by State, local, and tribal governments, in the aggregate, or by the private sector, of \$100 million or more in any year and it will not significantly or uniquely affect small governments. Therefore, no actions were deemed necessary under the provisions of the Unfunded Mandates Act of 1995.

Small Business Regulatory Enforcement Fairness Act of 1996

This rule is not a major rule as defined by the Small Business Regulatory Enforcement Act of 1996 (5 U.S.C. 801 *et seq.*). This rule will not result in an annual effect on the economy of \$100 million or more; a major increase in costs or prices; or significant adverse effects on competition, employment, investment, productivity, innovation, or on the ability of United States-based

companies to compete with foreign-based companies in domestic and import markets. This determination was based on the fact that the reporting requirements are targeted at a very narrow segment of government property, and on a determination that there are only 14 contractors who are currently subject to the reporting requirements of the clause. The rule does not place new requirements on contract performance, but merely addresses reporting of existing information.

Executive Orders 12866 and 13563

Executive Orders (E.O.) 12866 and 13563 direct agencies to assess costs and benefits of available regulatory alternatives and, if regulation is necessary, to select regulatory approaches that maximize net benefits (including potential economic, environmental, public health and safety effects, distributive impacts and equity). E.O. 13563 emphasized the importance of quantifying both costs and benefits, of reducing costs, of harmonizing rules, and of promoting flexibility. The Department of State does not consider this rule to be a "significant regulatory action" under Executive Order 12866, section 3(f), Regulatory Planning and Review.

In addition, the Department is exempt from Executive Order 12866 except to the extent that it is promulgating regulations in conjunction with a domestic agency that are significant regulatory actions. The Department has nevertheless reviewed the regulation to ensure its consistency with the regulatory philosophy and principles set forth in the Executive Orders and finds that the benefits of the proposed rule outweigh any costs.

Executive Order 13132

This rule will not have substantial direct effects on the States, on the relationship between the national government and the States, or on the distribution of power and responsibilities among the various levels of government. Therefore, in accordance with section 6 of Executive Order 13132, it is determined that this rule does not have sufficient federalism implications to require consultations or warrant the preparation of a federalism summary impact statement.

Executive Order 13175

The Department has determined that this rulemaking will not have tribal implications, will not impose substantial direct compliance costs on Indian tribal governments, and will not pre-empt tribal law. Accordingly, the

requirements of Executive Order 13175 do not apply to this rulemaking.

Paperwork Reduction Act

The Paperwork Reduction Act of 1980 (44 U.S.C. Chapter 35) applies, because the proposed rule imposes information collection requirements that require the approval of the Office of Management and Budget under 44 U.S.C. 3501 *et seq.*

The Department of State is seeking OMB approval for the information collection described below.

- *Title of Information Collection:* Department of State Acquisition Regulation (DOSAR) 652.245-70, Status of Property Management System
- *OMB Control Number:* 1405-0050
- *Type of Request:* Revision of Currently Approved Collection
- *Originating Office:* Bureau of Administration, Office of Procurement Executive, Policy Division (A/OPE/PD)
- *Form Number:* None
- *Respondents:* Business and other for-profit and not-for-profit organizations wishing to receive Department of State contracts.
- *Estimated Total Number of Respondents:* 3,466
- *Estimated Total Number of Responses:* 9,330
- *Average Time Per Response:* 30 hours
- *Total Estimated Burden Time:* 275,984
- *Frequency:* On Occasion
- *Obligation to Respond:* Required to Obtain or Retain a Benefit

The total number of responses was increased by fourteen from 9,316 to 9,330. As a result of this change, the total estimated burden was increased from 275,970 hours to 275,984 hours. The increase in the responses and the burden is due to the impact of this DOSAR provision.

The Department will accept comments from the public up to September 27, 2013.

Direct requests for additional information regarding the collection listed in this notice, including requests for copies of the proposed collection instrument and supporting documents, to Ella Ramirez, Senior Procurement Analyst, who may be reached at (703) 516-1693, or at RamirezIM2@state.gov.

Abstract of proposed collection:

The proposed rule will update the Department of State Acquisition

Regulation (DOSAR) to conform to recent Federal Acquisition Regulation (FAR) changes, and adds a new DOSAR provision, 652.245-70, regarding reporting on the status of offeror's property management systems. Respondents are offerors on solicitations for contracts under which specified government property will be provided. This is an existing IC, 1405-0050, Department of State Acquisition Regulation (DOSAR) 652.245-70, Status of Property Management System. This provision was inadvertently left out of the previously approved Information Collection package. The new provision is being inserted into the DOSAR and concurrently added into the current IC. The new DOSAR provision (and IC requirement) asks for procedures for government property management (transportation, software, personal property). Over the course of the last two fiscal years (FY 11 and FY 12), only four solicitations were issued under which this new reporting was required, and on those solicitations, an average of 2.3 submissions was received. Based on conversations with a sample of submitters, we estimate that approximately 1.0 hour is required to research, document and incorporate the information into the proposal.

We are soliciting public comments to permit the Department to:

- Evaluate whether the proposed information collection is necessary for the proper functions of the Department.
- Evaluate the accuracy of our estimate of the time and cost burden for this proposed collection, including the validity of the methodology and assumptions used.
- Enhance the quality, utility, and clarity of the information to be collected.
- Minimize the reporting burden on those who are to respond, including the use of automated collection techniques or other forms of information technology.

Please note that comments submitted in response to this Notice are public record. Before including any detailed personal information, you should be aware that your comments as submitted, including your personal information, will be available for public review.
