III. Statutory and Executive Order Reviews.

I. What should I consider as I prepare my comments for EPA?

When submitting comments, remember to:

1. Identify the rulemaking by docket number and other identifying information (subject heading, **Federal Register** date and page number).

2. Follow directions—EPA may ask you to respond to specific questions or organize comments by referencing a Code of Federal Regulations (CFR) part or section number.

3. Explain why you agree or disagree; suggest alternatives and substitute language for your requested changes.

4. Describe any assumptions and provide any technical information and/or data that you used.

5. If you estimate potential costs or burdens, explain how you arrived at your estimate in sufficient detail to allow for it to be reproduced.

6. Provide specific examples to illustrate your concerns, and suggest alternatives.

7. Explain your views as clearly as possible, avoiding the use of profanity or personal threats.

8. Make sure to submit your comments by the comment period deadline identified.

II. What action is EPA taking?

On February 6, 2013, EPA proposed to approve revisions to Part 1, Definitions; Part 2, Air Use Approval; and Part 19, New Source Review for Sources Impacting Nonattainment Areas, into the State of Michigan's SIP (78 FR 8485). With this notice, EPA is withdrawing our proposed action to approve the revisions to Michigan Part 2, Air Use Approval, into the Michigan SIP. The proposed approval of the Michigan Part 1 and Part 19 rules remains as proposed in the February 6, 2013, rulemaking action.

EPA is also proposing to rescind Michigan rule 336.1220 from the Michigan SIP. On March 6, 2013, Michigan submitted a letter to EPA regarding their March 24, 2009, submittal and its request to rescind rule 336.1220. This rule contains Michigan's current permitting rule for major sources of air pollution located in nonattainment areas. This rule is being rescinded and replaced with Part 19 which contains rules reflecting current Federal permitting requirements for major sources of air pollution in nonattainment areas. The new rules reflect all recent changes to Federal nonattainment area New Source Review rules that were promulgated by EPA. On

December 31, 2002, EPA published revisions to the Federal Prevention of Significant Deterioration and nonattainment area New Source Review regulations in 40 CFR Parts 51 and 52 (67 FR 80186). These revisions are commonly referred to as "NSR Reform" regulations and became effective on March 3, 2003. EPA is now soliciting comments on the proposed rescission of rule 336.1220 from the Michigan SIP.

III. Statutory and Executive Order Reviews

Under the Clean Air Act, the Administrator is required to approve a SIP submission that complies with the provisions of the Clean Air Act and applicable Federal regulations. 42 U.S.C. 7410(k); 40 CFR 52.02(a). Thus, in reviewing SIP submissions, EPA's role is to approve state choices, provided that they meet the criteria of the Clean Air Act. Accordingly, this action merely approves state law as meeting Federal requirements and does not impose additional requirements beyond those imposed by state law. For that reason, this action:

- Is not a "significant regulatory action" subject to review by the Office of Management and Budget under Executive Order 12866 (58 FR 51735, October 4, 1993);
- Does not impose an information collection burden under the provisions of the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*);
- Is certified as not having a significant economic impact on a substantial number of small entities under the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*);
- Does not contain any unfunded mandate or significantly or uniquely affect small governments, as described in the Unfunded Mandates Reform Act of 1995 (Pub. L. 104-4);
- Does not have Federalism implications as specified in Executive Order 13132 (64 FR 43255, August 10, 1999);
- Is not an economically significant regulatory action based on health or safety risks subject to Executive Order 13045 (62 FR 19885, April 23, 1997);
- Is not a significant regulatory action subject to Executive Order 13211 (66 FR 28355, May 22, 2001);
- Is not subject to requirements of Section 12(d) of the National Technology Transfer and Advancement Act of 1995 (15 U.S.C. 272 note) because application of those requirements would be inconsistent with the Clean Air Act; and
- Does not provide EPA with the discretionary authority to address, as appropriate, disproportionate human

health or environmental effects, using practicable and legally permissible methods, under Executive Order 12898 (59 FR 7629, February 16, 1994).

In addition, this rule does not have tribal implications as specified by Executive Order 13175 (65 FR 67249, November 9, 2000), because the SIP is not approved to apply in Indian country located in the state, and EPA notes that it will not impose substantial direct costs on tribal governments or preempt tribal law.

FEDERAL COMMUNICATIONS COMMISSION

47 CFR Part 90

[PS Docket No. 09-19; RM-11514; RM-11531; FCC 13-98]

Travelers' Information Stations

AGENCY: Federal Communications Commission.

ACTION: Proposed rule.

SUMMARY: In this *Further Notice of Proposed Rulemaking*, the Commission proposes an amendment to part 90 of the Commission's rules pertaining to public safety Travelers' Information Stations (TIS), which Public Safety Pool-eligible entities operate to transmit noncommercial, travel-related information over AM band frequencies to motorists on a localized basis. The Commission proposes to delete the portion of the Commission's rules which require the filtering of TIS audio frequencies above 3 kHz.

DATES: Submit comments on or before September 18, 2013. Submit reply comments October 3, 2013.

ADDRESSES: You may submit comments, identified by PS Docket No. 09-19; RM-11514; RM-11531, by any of the following methods:

I. Introduction

Currently, the Commission authorizes Public Safety Pool-eligible entities to use Travelers' Information Stations (TIS) to transmit noncommercial, travel-related information over AM band frequencies to motorists on a localized basis. In this proceeding, we address the scope of permissible operations under our TIS rules in response to petitions filed by Highway Information Systems (HIS), the American Association of Information Radio Operators (AAIRO), and the American Association of State Highway and Transportation Officials (AASHTO). The Commission invited comment on the issues raised in these

three petitions in a *Notice of Proposed Rulemaking (NPRM)* adopted in 2010.

In this *Further Notice of Proposed Rulemaking (Further Notice)*, we propose to delete § 90.242(b)(8) of the Commission's rules, which requires the filtering of TIS audio frequencies above 3 kHz. The record indicates that the filtering requirement significantly decreases the audibility of TIS broadcasts while adding little to the interference protection of commercial broadcasters. However, because the Commission did not specifically address the filtering issue in the initial *Notice of Proposed Rulemaking* in this docket, we request comment on this proposed rule change.

II. Further Notice of Proposed Rulemaking

Although the NPRM did not raise the issue, numerous commenters argue for removal of the filtering provision of § 90.242(b)(8), which requires the filtering of TIS audio frequencies above 3 kHz. Commenters contend that the required filtering decreases the audibility of TIS broadcasts in general, and especially at night and over difficult terrain. Burden suggests this restriction could be removed with little or no increased interference with adjacent channel broadcasters. No commenter has opposed such removal.

Accordingly, we propose to remove this requirement from the rules. Because this particular issue was not previously proposed in the NPRM but rather was introduced by commenters in the record, we seek comment in this *Further Notice of Proposed Rulemaking* in order to establish a record and consider any issues that may not have been raised in docket prior to this time. Accordingly, we ask whether there is any reason this restriction should not be removed. Is there a potential for increased interference with broadcasters? If not, are there any other reasons why we should not remove the filtering restriction? We ask that all comments for or against the lifting of this restriction provide empirical evidence for the position taken.

III. Procedural Matters

Ex Parte Presentations

This matter shall be treated as a "permit-but-disclose" proceeding in accordance with the Commission's *ex parte* rules. Persons making *ex parte* presentations must file a copy of any written presentation or a memorandum summarizing any oral presentation within two business days after the presentation (unless a different deadline applicable to the Sunshine period

applies). Persons making oral *ex parte* presentations are reminded that memoranda summarizing the presentation must (1) list all persons attending or otherwise participating in the meeting at which the *ex parte* presentation was made, and (2) summarize all data presented and arguments made during the presentation. If the presentation consisted in whole or in part of the presentation of data or arguments already reflected in the presenter's written comments, memoranda or other filings in the proceeding, the presenter may provide citations to such data or arguments in his or her prior comments, memoranda, or other filings (specifying the relevant page and/or paragraph numbers where such data or arguments can be found) in lieu of summarizing them in the memorandum. Documents shown or given to Commission staff during *ex parte* meetings are deemed to be written *ex parte* presentations and must be filed consistent with § 1.1206(b). In proceedings governed by § 1.49(f) or for which the Commission has made available a method of electronic filing, written *ex parte* presentations and memoranda summarizing oral *ex parte* presentations, and all attachments thereto, must be filed through the electronic comment filing system available for that proceeding, and must be filed in their native format (e.g., .doc, .xml, .ppt, searchable .pdf). Participants in this proceeding should familiarize themselves with the Commission's *ex parte* rules.

Regulatory Flexibility Analysis

As required by the Regulatory Flexibility Act of 1980, see 5 U.S.C. 603, the Commission has prepared an Initial Regulatory Flexibility Analysis (IRFA) of the possible significant economic impact on small entities of the policies

and rules addressed in this document. The IRFA is set forth in Appendix E of the *Report and Order and Further Notice of Proposed Rulemaking*. Written public comments are requested on the IRFA. These comments must be filed in accordance with the same filing deadlines as comments filed in response to this *Further Notice of Proposed Rulemaking* as set forth herein, and they should have a separate and distinct heading designating them as responses to the IRFA. The Commission's Consumer and Governmental Affairs Bureau, Reference Information Center, will send a copy of the *Report and Order and Further Notice of Proposed Rulemaking*, including this IRFA, to the Chief Counsel for Advocacy of the Small Business Administration (SBA). See 5 U.S.C. 603(a).

Paperwork Reduction Act Analysis

This *Further Notice of Proposed Rulemaking* does not contain proposed new or modified information collection requirements subject to the Paperwork Reduction Act of 1995 (PRA), Public Law 104–13. In addition, therefore, the *Further Notice of Proposed Rulemaking* does not contain any proposed new or modified information collection burden for small business concerns with fewer than 25 employees, pursuant to the Small Business Paperwork Relief Act of 2002, Public Law 107–198, see 44 U.S.C. 3506(c)(4).

IV. Ordering Clauses

Accordingly, *it is ordered* that pursuant to sections 4(i) and 303 of the Communications Act of 1934, as amended, 47 U.S.C. 154(i) and 303, that this *Report and Order and Further Notice of Proposed Rulemaking* is adopted.

It is further ordered that the Commission's Consumer and Governmental Affairs Bureau, Reference

Information Center, *shall send* a copy of this *Report and Order and Further Notice of Proposed Rulemaking*, including the Initial and Final Regulatory Flexibility Analyses, to the Chief Counsel for Advocacy of the Small Business Administration.

It is further ordered that pursuant to applicable procedures set forth in §§ 1.415 and 1.419 of the Commission's rules, 47 CFR 1.415, 1.419, interested parties may file comments on this *Further Notice of Proposed Rulemaking* on or before 30 days after publication in the **Federal Register**, and interested parties may file reply comments on or before 45 days after publication in the **Federal Register**.
