[Docket No. 121018563–3148–02]
RIN 0648–XC817
Fisheries of the Exclusive Economic Zone Off Alaska; Reallocation of Pacific Cod in the Bering Sea and Aleutian Islands Management Area
AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.
ACTION: Temporary rule; reallocation.

SUMMARY: NMFS is reallocating the projected unused amounts of Pacific cod from catcher vessels using trawl gear to American Fisheries Act trawl/processor and Amendment 80 catcher/processor vessels in the Bering Sea and Aleutian Islands management area. This action is necessary to allow the 2013 total allowable catch of Pacific cod to be harvested.

DATES: Effective August 22, 2013, through 2400 hrs, Alaska local time (A.l.t.), December 31, 2013.

SUPPLEMENTARY INFORMATION: NMFS manages the groundfish fishery in the Bering Sea and Aleutian Islands (BSAI) according to the Fishery Management Plan for Groundfish of the Bering Sea and Aleutian Islands Management Area (FMP) prepared by the North Pacific Fishery Management Council under authority of the Magnuson-Stevens Fishery Conservation and Management Act. Regulations governing fishing by U.S. vessels in accordance with the FMP appear at subpart H of 50 CFR part 600 and 50 CFR part 679.

The 2013 Pacific cod total allowable catch (TAC) specified for catcher vessels using trawl gear in the BSAI is 51,312 metric tons (mt) as established by the final 2013 and 2014 harvest specifications for groundfish in the BSAI (78 FR 13813, March 1, 2013). The Regional Administrator has determined that catcher vessels using trawl gear will not be able to harvest 2,000 mt of the 2013 Pacific cod TAC allocated to those vessels under § 679.20(a)(7)(ii)(A)(9).

The Regional Administrator has also determined that this unharvested amount is unlikely to be harvested through the hierarchy set forth in § 679.20(a)(7)(ii)(A)(9). Therefore, in accordance with § 679.20(a)(7)(iii)(A) and § 679.20(a)(7)(iii)(B), NMFS
