Transportation in Executive Order 12777, section 8(g) (see 56 FR 54757; October 22, 1991) for purposes of certifying advisory councils, or groups, subject to the Act. On March 3, 1992, the Secretary delegated that authority to the Commandant of the Coast Guard (USCG) (see 57 FR 8582; March 11, 1992). The Commandant delegated that authority to the Chief, Office of Marine Safety, Security and Environmental Protection (G–M) on March 19, 1992 (letter #5402).

On July 7, 1993, the USCG published a policy statement, 58 FR 36504, to clarify the factors that shall be considered in making the determination as to whether advisory councils, or groups, should be certified in accordance with the Act.

The Assistant Commandant for Marine Safety and Environmental Protection (G–M), delegated recertification authority for advisory councils, or groups, to the Commandant, Seventeenth Coast Guard District on February 26, 1999 (letter #16450).

On September 16, 2002, the USCG published a policy statement, 67 FR 58440 that changed the recertification procedures such that applicants are required to provide the USCG with comprehensive information every three years (triennially). For each of the two years between the triennial application procedures, applicants submit a letter requesting recertification that includes a description of any substantive changes to the information provided at the previous triennial recertification. Further, public comment is not solicited prior to recertification during streamlined years, only during the triennial comprehensive review.

On October 10, 2012, the Coast Guard recertified the Cook Inlet Regional Citizen’s Advisory Council through August 31, 2013. Under the Oil Terminal and Oil Tanker Environmental Oversight Act of 1990 (33 U.S.C. 2732), the Coast Guard may certify, on an annual basis, an alternative voluntary advisory group for Cook Inlet, Alaska. This advisory group monitors the activities of terminal facilities and crude oil tankers under the Cook Inlet Program established by Congress, 33 U.S.C. 2732(b).

Recertification

By letter dated 12 AUG 2013, the Commander, Seventeenth Coast Guard certified that the CIRCAC qualifies as an alternative voluntary advisory group under 33 U.S.C. 2732(e). This recertification terminates on August 31, 2014.

This notice also announces that the DEIS is now available for public review and that public meetings will be held to solicit comments on the DEIS.

DATES: The date and locations of the public meetings will be announced at least 15 days in advance through notices in the following local newspapers: Las Vegas Sun, Las Vegas Review Journal and the Moapa Valley Progress and on the following Web site: www.MoapaSolarEnergyCenterEIS.com. In order to be fully considered, written comments on the DEIS must arrive no later than 45 days after EPA publishes its Notice of Availability in the Federal Register.

ADDRESSES: You may mail, email, hand carry or telefax written comments to Ms. Amy Heuslein, Regional Environmental Protection Officer, BIA Western Regional Office, Branch of Environmental Quality Services, 2600 North Central Avenue, 4th Floor Mail Room, Phoenix, Arizona 85004–3008; fax (602) 379–3833; email: amy.heuslein@bia.gov.

SUPPLEMENTARY INFORMATION: The purpose of the Proposed Project is to construct a 200 megawatt (MW) solar electric generation facility, water line, and associated infrastructure on the Reservation, and obtain a right-of-way (ROW) grant on BLM lands for a 230 kV transmission line that will transport the electricity to the Douglas substation.
and/or 500 kV transmission line and associated access roads. The primary need for the Proposed Project is to provide land lease income, sustainable renewable resources, new jobs and other benefits for the Tribe by using solar resources on Reservation lands where there is high potential for solar electric generation. A secondary need for the Proposed Project is to assist utilities in meeting their renewable energy goals by providing electricity generated from solar resources from Tribal lands that may be efficiently connected to existing transmission lines in a manner that minimizes adverse site impacts.

The proposed Federal action is the BIA approval of a solar energy ground lease and agreements entered into by the Tribe with Moapa Solar LLC (Applicant), and approval of ROWs and easements for the Applicant to construct, operate and maintain an up to 200 MW solar photovoltaic (PV) electricity generating facility and water pipeline on the Reservation. The proposed Federal action also includes the BLM approval of ROWs for the 230 kV and 500 kV transmission lines and access roads on BLM-administered Federal lands, and the BLM approval of ROWs for the portions of the 500 kV transmission line and water pipeline located within an existing utility corridor located on the Reservation.

The BIA and BLM will use the EIS to make decisions on the land lease and ROW applications under their respective jurisdiction; the EPA and NPS may use the document to make decisions under their authorities; the Tribe may use the EIS to make decisions under their Tribal Environmental Policy Ordinance; and the U.S. Fish and Wildlife Service may use the EIS to support its decision under the Endangered Species Act.
