Changes in the Estimates: The increase in burden from the most recently approved ICR is due to a mathematical correction in labor hours and to an increase in labor costs. This ICR uses rounded estimates of respondent technical hours to calculate both industry and agency burden. In addition, this ICR uses updated labor rates from the Bureau of Labor Statistics to calculate burden costs.

RENEWAL FOR THE MANUFACTURE OF AMINO/PHENOLIC RESINS (RENEWAL)

ACTION: Notice.

SUMMARY: The Environmental Protection Agency has submitted an information collection request (ICR), “NESHAP for the Manufacture of Amino/Phenolic Resins (40 CFR Part 63, Subpart OOO) (Renewal)” (EPA ICR No. 1869.07, OMB Control No. 2060–0434), to the Office of Management and Budget (OMB) for review and approval in accordance with the Paperwork Reduction Act (44 U.S.C. 3501 et seq.) This is a proposed extension of the ICR, which is currently approved through October 31, 2013. Public comments were previously requested via the Federal Register (78 FR 33409) on June 4, 2013 during a 60-day comment period. This notice allows for an additional 30 days for public comments. A fuller description of the ICR is given below, including its estimated burden and cost to the public. An Agency may not conduct or sponsor a person is not required to respond to a collection of information unless it displays a currently valid OMB control number.

DATES: Additional comments may be submitted on or before October 7, 2013.

ADDRESSES: Submit your comments, referencing Docket ID Number EPA–HQ–OECA–2013–0338, to: (1) EPA online, using www.regulations.gov (our preferred method), by email to: docket.oeca@epa.gov, or by mail to: EPA Docket Center, Environmental Protection Agency, Mail Code 28221T, 1200 Pennsylvania Ave. NW., Washington, DC 20460; and (2) OMB via email to oira_submission@omb.eop.gov. Address comments to OMB Desk Officer for EPA.

EPA’s policy is that all comments received will be included in the public docket without change including any personal information provided, unless the comment includes profanity, threats, information claimed to be Confidential Business Information (CBI) or other information whose disclosure is restricted by statute.

FOR FURTHER INFORMATION CONTACT: Learia Williams, Monitoring, Assistance, and Media Programs Division, Office of Compliance, Mail Code 2227A, Environmental Protection Agency, 1200 Pennsylvania Ave. NW., Washington, DC 20460; telephone number: (202) 564–4113; fax number: (202) 564–0050; email address: williams.learia@epa.gov.

SUPPLEMENTARY INFORMATION:
Supporting documents which explain in detail the information that the EPA will be collecting are available in the public docket for this ICR. The docket can be viewed online at www.regulations.gov or in person at the EPA Docket Center, EPA West, Room 3334, 1301 Constitution Ave. NW., Washington, DC. The telephone number for the Docket Center is 202–566–1744. For additional information about EPA’s public docket, visit http://www.epa.gov/dockets.

Abstract: The NESHAP for the Manufacture of Amino/Phenolic Resins were proposed on December 14, 1998, and promulgated on January 20, 2000. The affected entities are subject to the General Provisions of the NESHAP at 40 CFR part 63, subpart A, and any changes, or additions to the Provisions specified at 40 CFR part 63, subpart OOO. Owners or operators of the affected facilities must submit a one-time only report of any physical or operational changes, initial performance tests, and periodic reports and results. Owners or operators are also required to maintain records of the occurrence and duration of any startup, shutdown, or malfunction in the operation of an affected facility, or any period during which the monitoring system is inoperative. Reports are required semiannually at a minimum.

Respondents/affected entities: Amino/phenolic resins manufacturing facilities.

Respondent’s obligation to respond: Mandatory (40 CFR part 63, subpart OOO).

Estimated number of respondents: 37 (total).

Frequency of response: Initially, occasionally, quarterly, semiannually, and annually.

Total estimated burden: 22,370 hours (per year). “Burden” is defined at 5 CFR 1320.3(b).

Total estimated cost: $2,202,893 (per year). Includes $14,800 annualized capital or operation & maintenance costs.

Changes in the Estimates: There is an overall decrease in burden and cost for both the respondent and Agency. This is due to a few program changes. The burden decreased since the last ICR renewal due to a revision in the number of respondents. Based on recent industry data and Agency estimates, we have revised the number of affected sources from 40 to 37. This revision also resulted in a corresponding decrease in the total O&M costs.

In addition, this ICR corrects the Agency burden associated with the review of repeat performance tests. This ICR assumes that only 5 percent of respondents will conduct these tests.

John Moses,
Director, Collection Strategies Division.

AGENCY: Environmental Protection Agency (EPA).

REVIEW AND APPROVAL OF GREAT LAKES ACCOUNTABILITY SYSTEM (REINSTATEMENT)

ACTION: Notice.

SUMMARY: The Environmental Protection Agency has submitted an information collection request (ICR), Great Lakes Accountability System (Reinstatement) (EPA ICR No. 2379.02, OMB Control No. 2005–0001) to the Office of Management and Budget (OMB) for review and approval in accordance with the Paperwork Reduction Act (44 U.S.C. 3501 et seq.). This is a request to reinstate the ICR. Public comments were previously requested via the Federal Register (78 FR 21937) on April 12, 2013 during a 60-day comment period. No comments were received. This notice allows for an additional 30 days
