or local Flight Standards District Office, as appropriate. If sending information directly to the manager of the ACO, send it to the attention of the person identified in the Related Information section of this AD. Information may be emailed to: 9-ANM–Seattle–ACO–AMOC-Requests@faa.gov.

(2) Before using any approved AMOC, notify your appropriate principal inspector, or lacking a principal inspector, the manager of the local flight standards district office/ certificate holding district office.

(3) An AMOC that provides an acceptable level of safety may be used for any repair required by this AD if it is approved by the Boeing Commercial Airplanes Organization Designation Authorization (ODA) that has been authorized by the Manager, Seattle ACO, to make those findings. For a repair method to be approved, the repair must meet the certification basis of the airplane, and the approval must specifically refer to this AD.

DEPARTMENT OF TRANSPORTATION
Federal Aviation Administration

14 CFR Part 71

Proposed Amendment of Class D Airspace; Dallas, Addison Airport, TX

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of proposed rulemaking (NPRM), withdrawal.

SUMMARY: A NPRM published in the Federal Register of September 6, 2013, to amend the Class D airspace ceiling at Addison Airport, Dallas, TX, is being withdrawn. Upon review, the FAA determined that the proposed rulemaking action is premature in that an existing Dallas/Fort Worth Class B airspace rulemaking action is pending.

DATES: As of September 19, 2013, the proposed rule published September 6, 2013, at 78 FR 54795, is withdrawn.

FOR FURTHER INFORMATION CONTACT: Scott Enander, Central Service Center, Operations Support Group, Federal Aviation Administration, Southwest Region, 2601 Meacham Blvd., Fort Worth, TX 76137; telephone: 817–321–7716.

SUPPLEMENTARY INFORMATION:

History

On September 6, 2013, a NPRM was published in the Federal Register proposing to amend the Addison Airport Class D airspace ceiling (78 FR 54795). Subsequent to that publication, the FAA found that references addressing changes or adjustments to air traffic flows in the Dallas-Fort Worth metropolitan area are in error and that the proposed action is premature in that a Dallas/Fort Worth Class B airspace rulemaking action is pending. Upon completion of the Dallas/Fort Worth Class B airspace rulemaking action, the FAA will reconsider future action to modify Addison Airport Class D airspace, if warranted.

List of Subjects in 14 CFR Part 71

Airspace, Incorporation by reference, Navigation (air).

The Withdrawal

Accordingly, pursuant to the authority delegated to me, the Notice of Proposed Rulemaking, as published in the Federal Register on September 6, 2013 (78 FR 54795) (FR Doc. 2013–21751), is hereby withdrawn.

Issued in Fort Worth, TX, on September 11, 2013.

David P. Medina,
Manager, Operations Support Group, ATO Central Service Center.
