Sec. 35.

The area described aggregates 6,223.25 acres, more or less, in San Bernardino County.

In order to process the ROW application filed on the lands described above and to maintain the status quo, the BLM originally published a notice in the Federal Register on August 4, 2011 (76 FR 47235) to segregate the lands described above for a period of 2 years, which expired on August 4, 2013. The BLM has determined that an additional segregation of the public lands identified above is needed for the orderly administration of public lands while the BLM considers a revised proposal for the project area. The BLM is segregating the lands under the authority contained in 43 CFR2091.3–1(e) and 43 CFR 2804.25(e), which permits a segregation period of 2 years, subject to valid existing rights, not to exceed a total period of 4 years. This additional 2-year segregation period is consistent with the applicable regulations and will commence on September 24, 2013. As explained below, this additional segregation cannot be extended. The public lands involved in this closure will be segregated from appropriation under the public land and mining laws, but not the mineral leasing or material sale laws.

The segregation period will terminate and the lands will automatically reopen to appropriation under the public land laws, including the mining laws, if one of the following events occurs: (1) The authorized officer issues a decision granting, granting with modifications, or denying the application for a ROW; (2) The BLM publishes a Federal Register notice terminating the segregation; or (3) The BLM takes no further administrative action at the end of the segregation provided for in the Federal Register notice initiating the segregation, whichever occurs first. Since the lands identified above have already been segregated for an initial 2-year period in connection with the Desert Stateline, LLC’s application, the BLM will not be able to extend this segregation for an additional period after the expiration of this 2-year segregation period.

Upon termination or expiration of the segregation of these lands, all lands subject to this segregation will automatically reopen to appropriation under the public land laws, including the United States mining laws.

Authority: 43 CFR parts 2800 and 2090.

Thomas Pogacnik, Deputy State Director, Natural Resources.

Background

The Commission instituted these reviews on October 1, 2012 (77 FR 59970) and determined on January 4, 2013 that it would conduct full reviews (78 FR 4437, January 22, 2013). Notice of the scheduling of the Commission’s reviews and of a public hearing to be held in connection therewith was given by posting copies of the notice in the Office of the Secretary, U.S. International Trade Commission, Washington, DC, and by publishing the notice in the Federal Register on February 21, 2013 (78 FR 13380). The hearing was held in Washington, DC, on July 18, 2013, and all persons who requested the opportunity were permitted to appear in person or by counsel.

The Commission completed and filed its determinations in these reviews on September 18, 2013. The views of the Commission are contained in USITC Publication 4424 (September 2013), entitled Silicomanganese from India, Kazakhstan, and Venezuela: Investigation Nos. 731–TA–929–931 (Second Review).

Issued: September 18, 2013.

By order of the Commission.

Lisa R. Barton, Acting Secretary to the Commission.

INTERNATIONAL TRADE COMMISSION
[Investigation Nos. 731–TA–929–931 (Second Review)]

Silicomanganese From India, Kazakhstan, and Venezuela

Determination

On the basis of the record developed in the subject five-year reviews, the United States International Trade Commission (Commission) determines, pursuant to section 751(c) of the Tariff Act of 1930 (19 U.S.C. 1675(c)), that revocation of the antidumping duty orders on imports of silicomanganese from India, Kazakhstan, and Venezuela would be likely to lead to continuation or recurrence of material injury to an industry in the United States within a reasonably foreseeable time.

DEPARTMENT OF JUSTICE

Agency Information Collection Activities: Extension of a Currently Approved Collection; Comments Requested: Semi-Annual Progress Report for the Services to Advocate for and Respond to Youth Program

ACTION: 30-Day Notice.

The Department of Justice, Office on Violence Against Women (OVW) will be submitting the following information collection request to the Office of Management and Budget (OMB) for review and approval in accordance with the Paperwork Reduction Act of 1995. The proposed information collection is published to obtain comments from the public and affected agencies. This proposed information collection was previously published in the Federal Register Volume 78, page 43918 on July 22, 2013, allowing for a 60 day comment period.

The purpose of this notice is to allow for an additional 30 days for public comment until October 24, 2013. This
