CFR part 52. The changes in Revision 1 of RG 1.110 are limited to editorial changes to improve clarity and formatting changes to align with the NRC’s new standardized regulatory guide format. These changes do not fall within the kinds of agency actions that constitute backfitting or are subject to limitations in the issue finality provisions of part 52. Accordingly, the NRC did not address the Backfit Rule or issue finality provisions of part 52.

III. Congressional Review Act

This regulatory guide is a rule as defined in the Congressional Review Act (5 U.S.C. §§ 801–808). However, the Office of Management and Budget has not found it to be a major rule as defined in the Congressional Review Act.

IV. Submitting Suggestions for Improvement of Regulatory Guides

Revision 1 of RG 1.110 is being issued without public comment. However, you may at any time submit suggestions to the NRC for improvement of existing regulatory guides or for the development of new regulatory guides to address new issues. Suggestions can be submitted by the form available online at http://www.nrc.gov/reading-rm/doc-collections/reg-guides/contactus.html. Suggestions will be considered in future updates and enhancements of the regulatory guide.

Dated at Rockville, Maryland, this 7th day of October 2013.

For the Nuclear Regulatory Commission.

NUCLEAR REGULATORY COMMISSION

[NRC–2013–0234]

Monitoring Criteria and Methods To Calculate Occupational Radiation Doses

AGENCY: Nuclear Regulatory Commission.

ACTION: Draft regulatory guide; request for comment.

SUMMARY: The U.S. Nuclear Regulatory Commission (NRC) is issuing for public comment draft regulatory guide (DG), DG–8031, “Monitoring Criteria and Methods to Calculate Occupational Radiation Doses.” This guide describes methods that the NRC staff considers acceptable for licensees to use to determine monitoring criteria and calculate occupational radiation doses.

DATES: Submit comments by December 24, 2013. Comments received after this date will be considered if it is practical to do so, but the NRC is able to ensure consideration only for comments received on or before this date. Although a time limit is given, comments and suggestions in connection with items for inclusion in guides currently being developed or improvements in all published guides are encouraged at any time.

ADDRESSES: You may submit comment by any of the following methods (unless this document describes a different method for submitting comments on a specific subject):

• Federal Rulemaking Web site: Go to http://www.regulations.gov and search for Docket ID NRC–2013–0234. Address questions about NRC dockets to Carol Gallagher; telephone: 301–287–3422; email: Carol.Gallagher@nrc.gov. For technical questions, contact the individual(s) listed in the FOR FURTHER INFORMATION CONTACT section of this document.

• Mail comments to: Cindy Bladey, Chief, Rules, Announcements, and Directives Branch (RADB), Office of Administration, Mail Stop: 3WFN, 06–44M, U.S. Nuclear Regulatory Commission, Washington, DC 20555–0001.

For additional direction on accessing information and submitting comments, see “Accessing Information and Submitting Comments” in the SUPPLEMENTARY INFORMATION section of this document.

FOR FURTHER INFORMATION CONTACT:

I. Accessing Information and Submitting Comments

A. Accessing Information

Please refer to Docket ID NRC–2013–0234 when contacting the NRC about the availability of information regarding this document. You may access publicly-available information related to this action by the following methods:

• NRC’s Agencywide Documents Access and Management System (ADAMS): You may access publicly-available documents online in the NRC Library at http://www.nrc.gov/reading-rm/adams.html. To begin the search, select “ADAMS Public Documents” and then select “Begin Web-based ADAMS Search.” For problems with ADAMS, please contact the NRC’s Public Document Room (PDR) reference staff at 1–800–397–4209, 301–415–3747, or by email to pdr.resource@nrc.gov. The draft regulatory guide is available electronically in ADAMS under Accession No. ML13168A095. The regulatory analysis may be found in ADAMS under Accession No. ML13168A096.

B. Submitting Comments

Please include Docket ID NRC–2013–0234 in the subject line of your comment submission, in order to ensure that the NRC is able to make your comment submission available to the public in this docket.

The NRC cautions you not to include identifying or contact information that you do not want to be publicly disclosed in your comment submission. The NRC posts all comment submissions at http://www.regulations.gov as well as entering the comment submissions into ADAMS. The NRC does not routinely edit comment submissions to remove identifying or contact information. If you are requesting or aggregating comments from other persons for submission to the NRC, then you should inform those persons not to include identifying or contact information that they do not want to be publicly disclosed in their comment submission. Your request should state that the NRC does not routinely edit comment submissions to remove such information before making the comment submissions available to the public or entering the comment submissions into ADAMS.

II. Additional Information

The NRC is issuing for public comment a draft guide in the NRC’s “Regulatory Guide” series. This series was developed to describe and make available to the public such information as methods that are acceptable to the NRC staff for implementing specific parts of the NRC’s regulations, techniques that the staff uses in
evaluating specific problems or postulated accidents, and data that the staff needs in its review of applications for permits and licenses.

This draft regulatory guide, entitled, “Monitoring Criteria and Methods to Calculate Occupational Radiation Doses,” is temporarily identified by its task number, DG–8031. The DG–8031 is proposed revision 1 of Regulatory Guide (RG) 8.34, dated July 1992.

The NRC issued RG 8.34 in 1992, to provide guidance on acceptable methods of monitoring and calculating occupational radiation doses. On December 4, 2007 (72 FR 68043), the NRC revised the definition of total effective dose equivalent (TEDE) in part 20 of Title 10 of the Code of Federal Regulations (10 CFR), “Standards for Protection Against Radiation,” and in 10 CFR part 50, “Domestic Licensing of Production and Utilization Facilities.”

Previously, the definition of the TEDE was the sum of the deep dose equivalent (DDE) and the committed effective dose equivalent (CEDE), DDE to account for external exposure and CEDE to account for internal exposure. In the revised definition of TEDE, RG 8.34 is inconsistent with the current regulatory rule. Therefore, RG 8.34 needs to be revised to reflect the rule change. In addition, the NRC staff has incorporated guidance on how to calculate occupational radiation doses for wound contamination to the extremities into this draft revision of RG 8.34.

III. Backfitting and Issue Finality

This draft regulatory guide, if finalized, would not constitute backfitting as defined in 10 CFR 50.109 (the Backfit Rule) and would not be otherwise inconsistent with the issue finality provisions in 10 CFR part 52, "Licenses, Certifications and Approvals for Nuclear Power Plants." As discussed in the “Implementation” section of this draft regulatory guide, the NRC has no current intention to impose this draft regulatory guide on holders of current operating licenses, early site permits or combined licenses, unless this draft regulatory guide becomes part of the licensing basis for the facility.

If this draft regulatory guide is finalized, the NRC may apply the revised regulatory guide to applications for operating licenses, early site permits and combined licenses docketed by the NRC as of the date of issuance of the revised regulatory guide, as well as future applications for operating licenses, early site permits and combined licenses submitted after the issuance of the revised regulatory guide. Such action would not constitute backfitting as defined in 10 CFR 50.109(a)(1) nor be otherwise inconsistent with the applicable issue finality provision in 10 CFR Part 52, because such applicants or potential applicants are not within the scope of entities protected by the Backfit Rule or the relevant issue finality provisions in part 52.

Dated at Rockville, Maryland, this 3rd day of October 2013.

For the Nuclear Regulatory Commission.

Thomas H. Boyce,
Chief, Regulatory Guide Development Branch, Division of Engineering, Office of Nuclear Regulatory Research.

BILLING CODE 7590–01–P

PENSION BENEFIT GUARANTY CORPORATION

Privacy Act of 1974: Systems of Records

AGENCY: Pension Benefit Guaranty Corporation.

ACTION: Notice of changes to systems of records and addition of routine uses.

SUMMARY: Pursuant to the Privacy Act of 1974, as amended (5 U.S.C. 552a), the Pension Benefit Guaranty Corporation is proposing two new systems of records, adding new routine uses to existing systems of records, and is amending two systems of records to make technical and clarifying changes.

DATES: Comments on the new systems of records, proposed routine uses, and technical and clarifying changes must be received on or before November 25, 2013. The new systems of records, routine uses, and technical and clarifying changes will become effective on December 9, 2013 without further notice, unless comments result in a contrary determination and a notice is published to that effect.

ADDRESSES: You may submit written comments to PBGC by any of the following methods:
- Email: reg.comments@pbgc.gov.
- Fax: 202–326–4224.
- Mail or Hand Delivery: Regulatory Affairs Group, Pension Benefit Guaranty Corporation, 1200 K Street NW., Washington, DC 20005–4026.

Comments received, including personal information provided, will be posted to http://www.pbgc.gov. Copies of comments may also be obtained by writing to Disclosure Division, Office of the General Counsel, Pension Benefit Guaranty Corporation, 1200 K Street NW., Washington, DC 20005–4026, or calling 202–326–4040 during normal business hours. (TTY and TDD users may call the Federal relay service toll-free at 1–800–877–8339 and ask to be connected to 202–326–4040.)

FOR FURTHER INFORMATION CONTACT:

SUPPLEMENTARY INFORMATION: The PBGC is proposing to add two new systems of records, PBGC–21, Reasonable Accommodation Records—PBGC; and PBGC–22, Telework and Alternative Worksite Records—PBGC. In addition, PBGC is proposing to alter the following systems of records maintained pursuant to the Privacy Act of 1974, as amended, by adding new routine uses: PBGC–2, Disbursements—PBGC (last updated at 75 FR 59252 (September 26, 2012)), and PBGC–6 Plan Participant and Beneficiary Data—PBGC (last updated at 75 FR 59252 (September 26, 2012)).

PBGC is also amending two systems of records to make technical and clarifying changes after undertaking a periodic review of those systems as required under Appendix 1 to the Office of Management and Budget (“OMB”) Circular A–130, Management of Federal Information Resources (November 28, 2000). The two systems of records being amended are PBGC–2, Disbursements (last published at 75 FR 59252 (September 26, 2012)), and PBGC–6 Plan Participant and Beneficiary Data—PBGC (last published at 75 FR 59252 (September 26, 2012)).

Revising Routine Uses in PBGC System of Records PBGC–2 and PBGC–6

PBGC–2

For PBGC–2, Disbursements—PBGC, PBGC is amending Routine Use 1 to broaden the purpose of sharing information with the Department of the Treasury to enable PBGC to verify consultants’ and vendors’ eligibility to receive payments. This revision will enable PBGC to both effect payments to
