Proposed Amendments to the Regulations
Accordingly, 26 CFR part 1 is proposed to be amended as follows:

PART 1—INCOME TAXES

Paragraph 1. The authority citation for part 1 continues to read in part as follows:

Authority: 26 U.S.C. 7805 * * *

Par. 2. Section 1.415(c)–2 is amended by adding paragraphs (g)(9) and (h) to read as follows:

§ 1.415(c)–2 Compensation.

(g) * * * (9) Income derived by Indians from exercise of fishing rights. Amounts paid to a member of an Indian tribe directly or through a qualified Indian entity (within the meaning of section 7873(b)(3)) as compensation for services performed in a fishing rights-related activity (as defined in section 7873(b)(1)) of the tribe do not fail to constitute compensation under paragraphs (b)(1) and (b)(2) of this section and are not excluded from the definition of compensation pursuant to paragraph (c)(4) of this section merely because those amounts are not subject to income or employment taxes as a result of section 7873(a)(1) and (2). Thus, the determination of whether an amount constitutes wages, salaries, or earned income for purposes of paragraph (b)(1) or (a)(2) of this section is made without regard to the exemption from taxation under section 7873(a)(1) and (2).

(h) Effective/applicability date. Section 1.415(c)–2(g)(9) shall apply for plan years ending on or after the date of publication of the Treasury decision adopting these rules as final regulations in the Federal Register.

Heather C. Maloy,
Acting Deputy Commissioner for Services and Enforcement.

SUPPLEMENTARY INFORMATION:

II. Public Participation

Recordkeeping requirements promulgated under the Occupational Safety and Health Act of 1970 (OSH Act) are regulations, not standards. Therefore, this rulemaking is governed by the notice and comments requirements in the Administrative Procedure Act (APA) (5 U.S.C. 553) rather than section 6 of the OSH Act (29 U.S.C. 655) and 29 CFR part 1911. Section 6(b)(3) of the OSH Act (29 U.S.C. 655(b)(3)) and 29 CFR 1911.11, both of which state the requirement for OSHA to hold an informal public hearing on proposed rules, only apply to promulgating, modifying or revoking occupational safety and health standards.

Section 553 of the APA, which governs this proposal, does not require a public hearing; instead, it states that the agency must “give interested persons an opportunity to participate in the rulemaking through submission of written data, views, or arguments with or without opportunity for oral presentation” (5 U.S.C. 553(c)) (emphasis added). To promulgate a proposed regulation, the APA requires the agency to provide the terms of the proposed rule or a description of these terms, specify the time during which the agency will receive comments on the proposal, and give instructions regarding how to participate in the rulemaking (5 U.S.C. 553(b)). The APA does not specify a minimum period for submitting comments. In accordance with the goals of Executive Order 12866, OSHA is providing 90 days for public comment (E.O. 12866 section 6(a)(1)).

Public Meeting: OSHA will hold a public meeting on the proposed rule from 9 a.m. to 4:30 p.m. on Thursday, January 9, 2014 at the U.S. Department of Labor in Washington, DC (see ADDRESSES section). If necessary, the meeting may be extended to subsequent days. The purpose of the public meeting is to allow interested persons to provide oral remarks on the proposed rule, which is a limited rulemaking to amend its recordkeeping regulations to add requirements for the electronic submission of injury and illness information employers are already required to keep under Part 1904. The proposed rule amends 29 CFR 1904.41 to add three new electronic reporting requirements. The purpose of the rulemaking is to improve workplace safety and health through the collection of useful, accessible, establishment-specific injury and illness data to which OSHA currently does not have direct, timely, and systematic access. With the information acquired through the proposed rule, employers, employees, employee representatives, the government, and researchers will be better able to identify and abate workplace hazards. For additional information on the proposed rule and other ways to submit comments, see Vol. 78 FR 67254–67283.
