Title: Preparation and Execution of the Project Agreement and Modifications.

OMB Control Number: 2125–0529.

Background: Formal agreements between State Transportation Departments and the FHWA are required for Federal-aid highway projects. These agreements, referred to as “project agreements” are written contracts between the State and the Federal government that define the extent of work to be undertaken and commitments made concerning a highway project. Section 1305 of the Transportation Equity Act for the 21st Century (TEA–21, Public Law 105–178) amended 23 U.S.C. 106(a) and combined authorization of work and execution of the project agreement for a Federal-aid project into a single action. States continue to have the flexibility to use whatever format is suitable to provide the statutory information required, and burden estimates for this information collection are not changed.

Respondents: There are 56 respondents, including 50 State Transportation Departments, the District of Columbia, the Commonwealth of Puerto Rico, the Commonwealth of the Northern Mariana Islands, the Territories of Guam, the Virgin Islands and American Samoa.

Frequency: On an on-going basis as project agreements are written.

Estimated Average Annual Burden per Response: There is an average of 400 annual agreements per respondent. Each agreement requires 1 hour to complete.

Estimated Total Annual Burden Hours: 22,400 hours.
