merchandise; and (4) the cash deposit rate for all other manufacturers or exporters will continue to be 32.62 percent, the all-others rate established in the original antidumping investigation. These deposit requirements, when imposed, shall remain in effect until further notice.

Notifications

This notice also serves as a final reminder to importers of their responsibility under 19 CFR 351.402(f)(2) to file a certificate regarding the reimbursement of antidumping duties prior to liquidation of the relevant entries during this review period. Failure to comply with this requirement could result in the Department’s presumption that reimbursement of the antidumping duties occurred and the subsequent assessment of doubled antidumping duties.

This notice also serves as a reminder to parties subject to administrative protective orders (APOs) of their responsibility concerning the disposition of proprietary information disclosed under APO in accordance with 19 CFR 351.305, which continues to govern business proprietary information in this segment of the proceeding. Timely written notification of the return or destruction of APO materials or conversion to judicial protective order is hereby requested. Failure to comply with the regulations and the terms of an APO is a sanctionable violation.

This notice is issued and published in accordance with sections 751(a)(1) and 777(i)(1) of the Tariff Act of 1930, as amended.

International Trade Administration, Department of Commerce

SUMMARY: On June 7, 2013, the Department of Commerce (the Department) published the preliminary results of the administrative review of the antidumping duty order on welded carbon steel standard pipe and tube products (welded pipe and tube) from Turkey. The period of review (POR) is May 1, 2011, through April 30, 2012. Based on our analysis of the comments received, we have made certain changes in the margin calculations. Therefore, the final results differ from the preliminary results. The final weighted-average dumping margins for the reviewed firms are listed below in the section entitled “Final Results of the Review.” Further, we find that two companies had no shipments of subject merchandise during the POR.

DATES: Effective Date: December 31, 2013.

Background

On June 7, 2013, the Department published the Preliminary Results, and invited interested parties to comment. On July 22, 2013, we received case briefs from domestic producers Wheeland Tube Company (Wheatland) and United States Steel Corporation (U.S. Steel), as well as from respondent Borusan. On August 1, 2013, we received rebuttal briefs from Borusan and Erbosan. On August 2, 2013, we received rebuttal briefs from Wheeland and U.S. Steel.

The Department has conducted this administrative review in accordance with section 751 of the Tariff Act of 1930, as amended (the Act).

Scope of the Order

The merchandise subject to the order is welded pipe and tube. The welded pipe and tube subject to the order is currently classifiable under subheading 7306.30.10.00, 7306.30.50.25, 7306.30.50.32, 7306.30.50.40, 7306.30.50.55, 7306.30.50.85, and 7306.30.50.90 of the Harmonized Tariff Schedule of the United States (HTSUS). The HTSUS subheadings are provided for convenience and customs purposes. A full written description of the scope of the Order is contained in the memorandum from Christian Marsh, Deputy Assistant Secretary for Antidumping and Countervailing Duty Operations, to Paul Piquado, Assistant Secretary for Enforcement and Compliance, “Issues and Decision Memorandum for Final Results of the Antidumping Duty Administrative Review: Welded Carbon Steel Standard Pipe and Tube Products from Turkey; 2011–2012” (Issues and Decision Memorandum), which is hereby adopted by this notice and incorporated herein by reference. The written description is dispositive.

Final Determination of No Shipments

As noted in the Preliminary Results, we received no-shipment claims from two companies under review—Yucel and Toscelik.4 These companies reported that they made no shipments of subject merchandise to the United States during the POR.5 U.S. Customs and Border Protection (CBP) confirmed that it did not identify evidence of shipments from either company. Following publication of the Preliminary Results, we received no comments from interested parties regarding these companies. As a consequence, and because the record contains no evidence to the contrary, we continue to find that neither company made any shipments during the POR. Accordingly, consistent with the

5 For a full explanation of the Department’s analysis, see the Preliminary Results and accompanying Preliminary Decision Memorandum at 3.
Department’s practice, we intend to instruct CBP to liquidate any existing entries of merchandise produced by Yucel or Toscelik, but exported by other parties, at the all-others rate.6

Analysis of Comments Received

All issues raised in the case briefs by parties are addressed in the Issues and Decision Memorandum. A list of the issues which parties raised and to which we respond in the Issues and Decision Memorandum is attached to this notice as an Appendix. The Issues and Decision Memorandum is a public document and is on file electronically via Enforcement and Compliance’s Antidumping and Countervailing Duty Centralized Electronic Service System (IA ACCESS). IA ACCESS is available to registered users at http://iaaccess.trade.gov, and it is available to all parties in the Central Records Unit, room 7046 of the main Department of Commerce building. In addition, a complete version of the Issues and Decision Memorandum can be accessed directly at http://enforcement.trade.gov/frn/. The signed Issues and Decision Memorandum and the electronic version of the Issues and Decision Memorandum are identical in content.

Changes Since the Preliminary Results

Based on a review of the record and our analysis of the comments received from interested parties on the Preliminary Results, we made changes to the margin calculations for Borusan. Specifically, we have used costs for the six-month period immediately preceding the POR for the sales during the seven month sales reporting window prior to the POR; revised the calculation of home market direct selling expenses to include certain factoring costs in that adjustment; revised Borusan’s duty drawback adjustment to exclude amounts related to scrap and second-quality pipe which were not re-exported; and removed Borusan’s non-VAT home market sales from the calculations. For detailed information, see the Issues and Decision Memorandum.

Final Results of the Review

As a result of this review, we determine that the following weighted-average dumping margins exist for the period May 1, 2011, through April 30, 2012:

Disclosure

We intend to disclose the calculations performed within five days of the date of publication of this notice to parties in this proceeding in accordance with 19 CFR 351.224(b).

Assessment Rates

The Department shall determine, and CBP shall assess, antidumping duties on all appropriate entries covered by this review pursuant to section 751(a)(2)(C) of the Act and 19 CFR 351.212(b). The Department intends to issue assessment instructions to CBP 15 days after the date of publication of these final results of review.

For Borusan, because its weighted-average dumping margin is not zero or de minimis (i.e., less than 0.5 percent), the Department has calculated importer-specific antidumping duty assessment rates. We calculated importer-specific ad valorem antidumping duty assessment rates by aggregating the total amount of dumping calculated for the examined sales of each importer and dividing each of these amounts by the total entered value associated with those sales. We will instruct CBP to assess antidumping duties on all appropriate entries covered by this review where an importer-specific assessment rate is not zero or de minimis. Pursuant to 19 CFR 351.106(c)(2), we will instruct CBP to liquidate without regard to antidumping duties any entries for which the importer-specific assessment rate is zero or de minimis.

For Erbosan, we will instruct CBP to liquidate all entries during the POR without regard to antidumping duties because its weighted-average dumping margin in these final results is zero.7

The Department clarified its “automatic assessment” regulation on May 6, 2003. See Antidumping and Countervailing Duty Proceedings: Assessment of Antidumping Duties, 68 FR 23954 (May 6, 2003) (Assessment Policy Notice). This clarification applies to entries of subject merchandise during the POR produced by companies included in these final results of review for which the reviewed companies did not know that the merchandise they sold to an intermediary (e.g., a reseller, trading company, or exporter) was destined for the United States. In such instances, we will instruct CBP to liquidate unreviewed entries at the all-others rate established in the less-than-fair-value (LTFV) investigation 8 if there is no rate for the intermediate company(ies) involved in the transaction. See Assessment Policy Notice for a full discussion of this clarification.

For Yucel and Toscelik, because the Department has determined that each of these respondents had no shipments during the POR for which they had knowledge, all entries entered under each of their cash deposit rates will be liquidated at the all-others rate established in the LTFV investigation.9

Cash Deposit Requirements

The following cash deposit requirements will be effective for all shipments of subject merchandise entered, or withdrawn from warehouse, for consumption on or after the publication date of the final results of this administrative review, as provided by section 751(a)(2)(C) of the Act: (1) The cash deposit rates for Borusan and Erbosan will be equal to the weighted-average dumping margins established in the final results of this review; (2) for previously reviewed or investigated companies not participating in this review, as well as for Yucel and Toscelik, the cash deposit rate will continue to be the company-specific rate established from a completed segment of this proceeding for the most recent period; (3) if the exporter is not a firm covered in this review, a previous review, or the original LTFV investigation, but the manufacturer is, the cash deposit rate will be the rate established from a completed segment of this proceeding for the most recent period for the manufacturer of the merchandise; and (4) the cash deposit rate for all other manufacturers or exporters will continue to be 14.74 percent, the all-others rate established in the LTFV investigation.10 These deposit requirements, when imposed, shall remain in effect until further notice.

Notification to Importers

This notice also serves as a final reminder to importers of their

SUPPLEMENTARY INFORMATION:

Background

On July 27, 1999, the Department published an antidumping duty order on SSSSC from Japan.

On November 13, 2013, Hitachi Metals informed the Department that effective July 1, 2013, it had merged with Hitachi Cable, and requested that: (1) The Department conduct an expedited changed circumstances review under 19 CFR 351.211(c)(3)(ii) to determine that it is the successor-in-interest to Hitachi Cable for purposes of determining antidumping duty cash deposits and liabilities; and (2) the Department’s successor-in-interest determination be retroactively effective as of July 1, 2013, the date on which the merger was completed. We received no comments from any other interested party.

Scope of the Order

The products covered by the order are certain SSSSC. Stainless steel is an alloy steel containing, by weight, 1.2 percent or less of carbon and 10.5 percent or more of chromium, with or without other elements. The subject sheet and strip is a flat-rolled product in coils that is greater than 9.5 mm in width and less than 4.75 mm in thickness, and that is annealed or otherwise heat treated and pickled or otherwise descaled. The subject sheet and strip may also be further processed (e.g., cold-rolled, polished, aluminized, coated, etc.) provided that it maintains the specific dimensions of sheet and strip following such processing.

The merchandise subject to this order is currently classifiable in the Harmonized Tariff Schedule of the United States (HTS) at subheadings:
