

In addition, this rule does not have tribal implications as specified by Executive Order 13175 (65 FR 67249, November 9, 2000), because the SIP is not approved to apply in Indian country located in the state, and EPA notes that it will not impose substantial direct costs on tribal governments or preempt tribal law.

B. Submission to Congress and the Comptroller General

The Congressional Review Act, 5 U.S.C. 801 *et seq.*, as added by the Small Business Regulatory Enforcement Fairness Act of 1996, generally provides that before a rule may take effect, the agency promulgating the rule must submit a rule report, which includes a copy of the rule, to each House of the Congress and to the Comptroller General of the United States. EPA will submit a report containing this action and other required information to the U.S. Senate, the U.S. House of Representatives, and the Comptroller General of the United States prior to publication of the rule in the **Federal Register**. A major rule

cannot take effect until 60 days after it is published in the **Federal Register**. This action is not a “major rule” as defined by 5 U.S.C. 804(2).

C. Petitions for Judicial Review

Under section 307(b)(1) of the CAA, petitions for judicial review of this action must be filed in the United States Court of Appeals for the appropriate circuit by March 24, 2014. Filing a petition for reconsideration by the Administrator of this final rule does not affect the finality of this action for the purposes of judicial review nor does it extend the time within which a petition for judicial review may be filed, and shall not postpone the effectiveness of such rule or action. This action pertaining to Delaware’s section 110(a)(2) infrastructure elements for the 2010 SO₂ NAAQS may not be challenged later in proceedings to enforce its requirements. (See section 307(b)(2).)

Dinotefuran; Pesticide Tolerances for Emergency Exemptions

AGENCY: Environmental Protection Agency (EPA).

ACTION: Final rule.

SUMMARY: This regulation modifies existing time-limited tolerances established at 40 CFR 180.603 under section 408 of the Federal Food, Drug, and Cosmetic Act (FFDCA), for residues of dinotefuran in or on pome fruit and stone fruit by raising them from 1.0 ppm to 2.0 ppm. A document published in the **Federal Register** of November 9, 2012, which first established the tolerances in response to EPA's granting of an emergency exemption under Section 18 of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA) authorizing use of the pesticide on pome fruit and stone fruit. The previous tolerances were supported by surrogate residue data in pears. Additional residue data has been produced on peach indicating that residues may be higher than suggested by the residue data in pears. Review of the new data has concluded that the tolerance levels for pome and stone fruits should be increased to 2.0 ppm. Therefore, this regulation modifies the maximum permissible level for residues of dinotefuran in or on these commodities by raising them from 1.0 ppm to 2.0 ppm. The time-limited tolerances expire on December 31, 2015.

DATES: This regulation is effective January 22, 2014. Objections and requests for hearings must be received on or before March 24, 2014, and must be filed in accordance with the instructions provided in 40 CFR part 178 (see also Unit I.C. of the **SUPPLEMENTARY INFORMATION**).
