

implemented on all operational GPS satellites capable of transmitting the L2C and L5 signals. Currently, seven GPS IIR-M satellites broadcast L2C and four GPS IIF satellites broadcast L2C and L5. On average, users may expect at least one L2C-broadcasting satellite to be in view at all times. The CNAV message content will include Broadcast Message Types (MT) 10, 11, 30, and 33 (as defined in IS-GPS-200G and IS-GPS-705C, see <http://www.gps.gov/technical/icwg/>) in lieu of the currently transmitted MT-0. The Air Force intends to broadcast L2C and L5 messages with the health bits set healthy, as was the case during the June 2013 test. The CNAV data uploads will be integrated into current operations, but initially the uploads to each appropriate satellite will occur only twice per week. In December 2014, CNAV uploads are planned to be at the normal rate of once per day for each appropriate satellite. Consequently, users should expect L2C and L5 signals with CNAV messages to provide increased user range error compared to legacy civil signals between April and December 2014. After December 2014, the accuracy of the L2C and L5 signals with CNAV messages is expected to meet or exceed that of legacy signals. Future tests and implementation of the remaining CNAV message types will be announced under separate **Federal Register** Notices.

The pre-operational CNAV messages are being made available for user familiarization and for equipment development. They should not be considered operational pending availability of OCX monitoring and control capabilities, and therefore they should not be used for safety-of-life or other critical purposes. Caveats indicating "Developmental Signal-in-Space, non-operational" will be included in Notice Advisory to NAVSTAR Users (NANUs).

The Department of Transportation seeks comments on benefits, risks, or issues to users from this plan, including comments on the appropriate timeline for implementing the plan. Comments are requested from industry on the receiver development benefits and other intended uses of pre-operational signals. Comments are also requested on the benefits and potential impacts to users of continuous pre-operational CNAV broadcast with signals set healthy.

Public Participation

You may submit comments and related material regarding this proposed plan. All comments received will be posted, without change, to <http://www.regulations.gov> and will include

any personal information you have provided.

Submitting comments: If you submit a comment, please include the docket number for this notice (DOT-OST-2014-0028) and provide a reason for each suggestion or recommendation. You may submit your comments and material online or by fax, mail or hand delivery, but please use only one of these means. Petition for Exemption

Docket No.: FAA-2009-1188.
Petitioner: CAE Simuflite, Inc.
Section of 14 CFR Affected:
14 CFR §§ 91.9(a) and 91.531(a)(1) and (2).

Description of Relief Sought:
Petitioner requests modifications to the existing Exemption No. 10039A, which permits the petitioner and operators of Cessna Citation airplanes covered by the CE-500 type rating to operate those airplanes with a single pilot. The petitioner is requesting the conditions and limitations be changed to allow CAE pilots who satisfactorily complete CAE Simuflite's part 142 FAA approved initial or renewal curriculum to receive credit for previous ground training specific to aircraft systems. The previous training would be credited towards CAE Simuflite's FAA approved part 142 single pilot curriculum under certain conditions.

Federal Motor Carrier Safety Administration

[Docket No. FMCSA-2011-0365]

Qualification of Drivers; Exemption Applications; Vision

AGENCY: Federal Motor Carrier Safety Administration (FMCSA), DOT.

ACTION: Notice of renewal of exemptions; request for comments.

SUMMARY: FMCSA announces its decision to renew the exemptions from the vision requirement in the Federal Motor Carrier Safety Regulations for 12 individuals. FMCSA has statutory authority to exempt individuals from the vision requirement if the exemptions granted will not compromise safety. The Agency has concluded that granting these exemption renewals will provide a level of safety that is equivalent to or greater than the level of safety maintained without the exemptions for these commercial motor vehicle (CMV) drivers.

DATES: This decision is effective March 7, 2014. Comments must be received on or before April 4, 2014.

ADDRESSES: You may submit comments bearing the Federal Docket Management System (FDMS) numbers: Docket No.
