**SUPPLEMENTARY INFORMATION:**
**I. Background**

In the **Federal Register** of December 24, 2013, we published a document entitled “Appendix 4 to Draft Qualitative Risk Assessment of Risk of Activity/Food Combinations for Activities (Outside the Farm Definition) Conducted in a Facility Co-Located on a Farm” (the draft RA Appendix) with a 100-day comment period on the provisions of the proposed rule.

FDA has received requests for an extension of the comment period on the

proposed rule entitled “Focused Mitigation Strategies to Protect Food Against Intentional Adulteration” (78 FR 78014). This document directly relates to the proposal. The requests conveyed concern that the current 100-day comment period does not allow time to thoroughly analyze the proposal, due to the inherent complexity and unique nature of food defense issues. FDA has considered the requests and is granting an extension of the comment period to June 30, 2014, for the draft RA Appendix to allow interested persons additional time to submit comments. Elsewhere in this issue of the **Federal Register**, we are also extending the comment period for the proposed rule “Focused Mitigation Strategies to Protect Food Against Intentional Adulteration.” To clarify, FDA is requesting comment on all issues raised by the document.

**II. Request for Comments**

Interested persons may submit either electronic comments regarding the proposed rule to <http://www.regulations.gov> or written comments to the Division of Dockets Management (see **ADDRESSES**). It is only necessary to send one set of comments. Identify comments with the docket number found in brackets in the heading of this document. Received comments may be seen in the Division of Dockets Management between 9 a.m. and 4 p.m., Monday through Friday, and will be posted to the docket at <http://www.regulations.gov>.

Dated: March 20, 2014.

**ACTION:** Proposed rule; extension of comment period.
