BILLING CODE 8025-01-P

SMALL BUSINESS ADMINISTRATION

Small Business Size Standards: Waiver of the Nonmanufacturer Rule

AGENCY: U.S. Small Business Administration.

ACTION: Notice of rescission of four class waivers of the Nonmanufacturer Rule under North American Industry Classification System (NAICS) code 335999 and granting of three new class waivers under NAICS codes 335122, 335110, and 335311.

SUMMARY: The U.S. Small Business Administration (SBA) is rescinding four class waivers of the Nonmanufacturer Rule which were classified under NAICS code 335999 (All Other Miscellaneous Electrical Equipment and Component Manufacturing) and which were further classified under Product Service Codes (PSCs) 5999, 6210, 6240, and 6250. The class waiver applicable to PSC 5999 (Miscellaneous Electrical and Electronic Components) is being rescinded because it has been determined that several small business manufacturers of miscellaneous electrical equipment are currently available to participate in the Federal marketplace. The class waivers applicable to PSCs 6210, 6240, and 6250 are being rescinded because it has been determined that they were each improperly classified under NAICS code 335999. In order to correct this error, SBA is granting three new class waivers under the correct NAICS codes. Specifically, SBA is granting class waivers for the following: (1) NAICS code 335122 (Commercial, Industrial, and Institutional Electric Lighting Fixture Manufacturing), PSC 6210 (Indoor and Outdoor Electrical Lighting Fixtures); (2) NAICS code 335110 (Electric Lamp Bulb and Part

Manufacturing), PSC 6240 (Electric Lamps); and (3) NAICS Code 335311 (Power, Distribution, and Specialty Transformer Manufacturing), PSC 6250 (Ballasts, Lampholders, and Starters). SBA is taking these actions in response to public comments and SBA's independent analysis. The effect of the rescission of the four class waivers will be to require recipients of Federal supply contracts assigned NAICS code 335999 that are set aside for small businesses, service-disabled veteran-owned small businesses, women-owned small businesses, or Participants in the SBA's 8(a) Business Development (BD) program to provide the products of a domestic small business manufacturer or processor, unless an individual waiver of the Nonmanufacturer Rule is granted by SBA. The effect of the three new class waivers will be to allow otherwise qualified small business regular dealers to supply products of a domestic manufacturer on a Federal contract set aside for small businesses, service-disabled veteran-owned small businesses, women-owned small businesses, or Participants in the SBA's 8(a) BD program, where the class of products being procured is classified under PSC 6210, 6240, or 6250.

DATES: This action is effective the date of publication in the **Federal Register**.

FOR FURTHER INFORMATION CONTACT:

Edward Halstead, (202) 205-9885, Edward.halstead@sba.gov.

SUPPLEMENTARY INFORMATION: Sections 8(a)(17) and 46 of the Small Business Act (Act) and SBA's implementing regulations generally require that recipients of Federal supply contracts that are set aside for small businesses, service-disabled veteran-owned small businesses, women-owned small businesses, or Participants in the SBA's 8(a) BD program provide the product of a small business manufacturer or processor if the recipient is other than the actual manufacturer or processor of the product. 15 U.S.C. 637(a)(17), 657s; 13 CFR 121.406(b). This requirement is commonly referred to as the Nonmanufacturer Rule. The Act authorizes SBA to waive the Nonmanufacturer Rule for any "class of products" for which there are no small business manufacturers or processors available to participate in the Federal market. SBA defines "class of products" as an individual subdivision within a NAICS code as established by the Office of Management and Budget in the NAICS Manual. 13 CFR 121.1202(d). In addition, SBA uses Product Service Codes (PSCs) to further identify particular products within the NAICS code to which a waiver would apply.
