SUPPLEMENTARY INFORMATION:

I. Background

In the **Federal Register** of August 5, 2013 (78 FR 47154), we issued a final rule that established a regulatory definition of the term “gluten-free” for voluntary use in the labeling of foods. The final rule, which is codified at 21 CFR 101.91, became effective on September 4, 2013, but has a compliance date of August 5, 2014.

We examined the economic implications of the final rule as required by the Regulatory Flexibility Act (5 U.S.C. 601-612) and determined that the final rule could have a significant economic impact on a substantial number of small entities. In compliance with section 212 of the Small Business Regulatory Enforcement Fairness Act (Pub. L. 104-121), we are making available this SECG to explain the actions that a small entity must take to comply with the rule.

We are issuing this SECG consistent with our good guidance practices regulation (21 CFR 10.115(c)(2)). This SECG represents our current thinking on establishing a regulatory definition of the term “gluten-free” for voluntary use in the labeling of foods. It does not create or confer any rights for or on any person and does not operate to bind FDA or the public. An alternative approach may be used if such approach satisfies the requirements of the applicable statutes and regulations.

II. Comments

Interested persons may submit either electronic comments regarding the guidance to <http://www.regulations.gov> or written comments to the Division of Dockets Management (see **ADDRESSES**). It is only necessary to send one set of comments. Identify comments with the docket number found in brackets in the heading of this document. Received comments may be seen in the Division of Dockets Management between 9 a.m. and 4 p.m., Monday through Friday, and will be posted to the docket at <http://www.regulations.gov>.
