

advises the Secretary on other aspects of the implementation of the Organic Foods Production Act (7 U.S.C. 6501–6522). The NOSB currently has six subcommittees working on various aspects of the Organic Program. The subcommittees are: Compliance, Accreditation, and Certification; Crops; Handling; Livestock; Materials/ Genetically Modified Organisms; and Policy Development. The primary purpose of NOSB meetings is to provide an opportunity for the organic community to give input on proposed NOSB recommendations and discussion items. The meetings also allow the NOSB to receive updates from the USDA AMS National Organic Program (NOP) on issues pertaining to organic agriculture. The meeting will be open to the public. The meeting agenda, NOSB proposals and discussion documents, instructions for submitting and viewing public comments, and instructions for requesting a time slot for oral comments are available on the AMS Web site at <http://www.ams.usda.gov/NOSBMeetings>. The discussion documents and proposals encompass a wide range of topics, including: substances petitioned to the National List of Allowed and Prohibited Substances (National List), substances on the National List that require NOSB review before their 2016 and 2017 sunset dates, updates from working groups on technical issues, and amendments to guidance on organic policies. This meeting will serve as the NOSB's final review of substances that have a sunset date in 2016. This review will fulfill the NOSB's responsibilities described in the Organic Foods Production Act's sunset provision (section 2118(e)).

Public Comments: Written public comments will be accepted through Tuesday, April 7, 2015 via www.regulations.gov. Comments received after that date may not be reviewed by the NOSB before the meeting. AMS strongly prefers comments to be submitted electronically; however, written comments may also be submitted by Tuesday, April 7, 2014 via mail to Ms. Michelle Arsenault, Special Assistant, National Organic Standards Board, USDA-AMS-NOP, 1400 Independence Ave. SW., Room 2648-S, Mail Stop 0268, Washington, DC 20250-0268. The NOSB has scheduled time for oral comments from the public, and will accommodate as many individuals and organizations as possible during these

sessions. Individuals and organizations wishing to make oral presentations at the meeting must pre-register to request one time slot by visiting <http://www.ams.usda.gov/NOSBMeetings> or by calling (202) 720-0081. Notice of Availability of a Pest Risk Analysis for the Importation of Fresh Cranberries From Chile Into the Continental United States

AGENCY: Animal and Plant Health Inspection Service, USDA.

ACTION: Notice of availability.

SUMMARY: We are advising the public that we have prepared a pest risk analysis that evaluates the risks associated with importation of fresh cranberry fruit from Chile into the continental United States. Based on the analysis, we have determined that the application of one or more designated phytosanitary measures will be sufficient to mitigate the risks of introducing or disseminating plant pests or noxious weeds via the importation of fresh cranberries from Chile. We are making the pest risk analysis available to the public for review and comment.

DATES: We will consider all comments that we receive on or before May 11, 2015.

ADDRESSES: You may submit comments by either of the following methods:

- *Federal eRulemaking Portal:* Go to <http://www.regulations.gov/#!docketDetail;D=APHIS-2015-0001>.

- *Postal Mail/Commercial Delivery:*

Send your comment to Docket No. APHIS-2015-0001, Regulatory Analysis and Development, PPD, APHIS, Station 3A-03.8, 4700 River Road, Unit 118, Riverdale, MD 20737-1238.

Supporting documents and any comments we receive on this docket may be viewed at <http://www.regulations.gov/#!docketDetail;D=APHIS-2015-0001> or in our reading room, which is located in room 1141 of the USDA South Building, 14th Street and Independence Avenue SW., Washington, DC. Normal reading room hours are 8 a.m. to 4:30 p.m., Monday through Friday, except holidays. To be sure someone is there to help you, please call (202) 799-7039 before coming.

FOR FURTHER INFORMATION CONTACT: Mr. Nick Van Gorden, Regulatory Policy Specialist, Regulatory Coordination and Compliance, PPO, APHIS, 4700 River Road, Unit 133, Riverdale, MD 20737-1231; (301) 851-2326.

SUPPLEMENTARY INFORMATION: Under the regulations in “Subpart—Fruits and Vegetables” (7 CFR 319.56-1 through 319.56-71, referred to below as the regulations), the Animal and Plant Health Inspection Service (APHIS) prohibits or restricts the importation of fruits and vegetables into the United States from certain parts of the world to prevent plant pests from being introduced into or disseminated within the United States.

Section 319.56-4 contains a performance-based process for approving the importation of certain fruits and vegetables that, based on the findings of a pest risk analysis, can be safely imported subject to one or more of the five designated phytosanitary measures listed in paragraph (b) of that section.

APHIS received a request from the national plant protection organization (NPPO) of Chile to allow the importation of fresh cranberry fruit into the continental United States. As part of our evaluation of Chile's request, we have prepared a pest risk assessment (PRA) to identify pests of quarantine significance that could follow the pathway of importation into the continental United States from Chile. Based on the PRA, a risk management document (RMD) was prepared to

identify phytosanitary measures that could be applied to the cranberries to mitigate the pest risk. We have concluded that fresh cranberry fruit can be safely imported from Chile to the continental United States using one or more of the five designated phytosanitary measures listed in § 319.56–4(b). These measures are:

- The cranberries must be imported as commercial consignments only;
- Each consignment of cranberries must be accompanied by a phytosanitary certificate issued by the NPPO of Chile; and
- Each consignment of cranberries is subject to inspection upon arrival at the port of entry to the United States.

Therefore, in accordance with § 319.56–4(c), we are announcing the availability of our PRA and RMD for public review and comment. The documents may be viewed on the Regulations.gov Web site or in our reading room (see ADDRESSES above for a link to Regulations.gov and information on the location and hours of the reading room). You may request paper copies of the PRA and RMD by calling or writing to the person listed under FOR FURTHER INFORMATION CONTACT. Please refer to the subject of the analysis you wish to review when requesting copies.

After reviewing any comments we receive, we will announce our decision regarding the import status of fresh cranberry fruit from Chile in a subsequent notice. If the overall conclusions of our analysis and the Administrator's determination of risk remain unchanged following our consideration of the comments, then we will authorize the importation of fresh cranberry fruit from Chile into the continental United States subject to the requirements specified in the RMD.

Done in Washington, DC, this 6th day of March 2015.

Certain Uncoated Paper From the People's Republic of China and Indonesia: Postponement of Preliminary Determinations in the Countervailing Duty Investigations

AGENCY: Enforcement and Compliance, International Trade Administration, Department of Commerce.

FOR FURTHER INFORMATION CONTACT: Joy Zhang (PRC) at (202) 482–1168, or Kate Johnson at (202) 482–4929 (Indonesia), AD/CVD Operations, Enforcement and

Compliance, International Trade Administration, Department of Commerce, 14th Street and Constitution Avenue NW., Washington, DC 20230.

SUPPLEMENTARY INFORMATION:

Background

On February 10, 2015, the Department of Commerce (the Department) initiated the countervailing duty (CVD) investigations of certain uncoated paper from the People's Republic of China (PRC) and Indonesia.¹ Currently, the preliminary determinations are due no later than April 16, 2015.

Postponement of Due Date for the Preliminary Determinations

Section 703(b)(1) of the Tariff Act of 1930, as amended (the Act), requires the Department to issue the preliminary determination in a CVD investigation within 65 days after the date on which the Department initiated the investigation. However, if the petitioner makes a timely request for a postponement, section 703(c)(1)(A) of the Act allows the Department to postpone making the preliminary determination until no later than 130 days after the date on which the administering authority initiated the investigation.

On February 23, 2015, the petitioners² in the investigation of certain uncoated paper from Indonesia timely requested that the deadline for the preliminary determination in that case be postponed in accordance with 19 CFR 351.205(e), citing the number and nature of subsidy programs under investigation. Similarly, on February 26, 2015, the petitioners in the investigation of certain uncoated paper from the PRC timely requested that the deadline for the preliminary determination in that case be postponed in accordance with 19 CFR 351.205(e), in order for the Department to have sufficient time to receive, analyze, and comment on the questionnaire responses of the mandatory respondents prior to the preliminary determination. Therefore, in accordance with section 703(c)(1)(A) of the Act, we are fully postponing the due date for the preliminary determinations to no later than 130 days after the day on which the investigations were initiated. However,
